CHAPTER NO. 2

[SB 18]

AN ACT REVISING THE TIMEFRAME IN WHICH THE DEPARTMENT OF REVENUE IS REQUIRED TO CALCULATE THE GROWTH RATE OF THE ENTITLEMENT SHARE POOL; AND AMENDING SECTION 15-1-121, MCA.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 15-1-121, MCA, is amended to read:

"15-1-121. Entitlement share payment — purpose — appropriation. (1) As described in 15-1-120(3), each local government is entitled to an annual amount that is the replacement for revenue received by local governments for diminishment of property tax base and various earmarked fees and other revenue that, pursuant to Chapter 574, Laws of 2001, amended by section 4, Chapter 13, Special Laws of August 2002, and later enactments, were consolidated to provide aggregation of certain reimbursements, fees, tax collections, and other revenue in the state treasury with each local government's share. The reimbursement under this section is provided by direct payment from the state treasury rather than the ad hoc system that offset certain state payments with local government collections due the state and reimbursements made by percentage splits, with a local government remitting a portion of collections to the state, retaining a portion, and in some cases sending a portion to other local governments.

(2) The sources of dedicated revenue that were relinquished by local governments in exchange for an entitlement share of the state general fund were:

(a) personal property tax reimbursements pursuant to sections 167(1) through (5) and 169(6), Chapter 584, Laws of 1999;

(b) vehicle, boat, and aircraft taxes and fees pursuant to:

(i) Title 23, chapter 2, part 5;

(ii) Title 23, chapter 2, part 6;

(iii) Title 23, chapter 2, part 8;

(iv) 61-3-317;

(v) 61-3-321;

(vi) Title 61, chapter 3, part 5, except for 61-3-509(3), as that subsection read prior to the amendment of 61-3-509 in 2001;

(vii) Title 61, chapter 3, part 7;

(viii) 5% of the fees collected under 61-10-122;

(ix) 61-10-130;

(x) 61-10-148; and

(xi) 67-3-205;

(c) gaming revenue pursuant to Title 23, chapter 5, part 6, except for the permit fee in 23-5-612(2)(a);

(d) district court fees pursuant to:

(i) 25-1-201, except those fees in 25-1-201(1)(d), (1)(g), and (1)(j);

(ii) 25-1-202;

(iii) 25-9-506; and

(iv) 27-9-103;

(e) certificate of title fees for manufactured homes pursuant to 15-1-116;

(f) financial institution taxes collected pursuant to the former provisions of Title 15, chapter 31, part 7;

(g) all beer, liquor, and wine taxes pursuant to:

(i) 16-1-404;

(ii) 16-1-406; and

(iii) 16-1-411;

(h) late filing fees pursuant to 61-3-220;

(i) title and registration fees pursuant to 61-3-203;

(j) veterans' cemetery license plate fees pursuant to 61-3-459;

(k) county personalized license plate fees pursuant to 61-3-406;

(l) special mobile equipment fees pursuant to 61-3-431;

(m) single movement permit fees pursuant to 61-4-310;

(n) state aeronautics fees pursuant to 67-3-101; and

(o) department of natural resources and conservation payments in lieu of taxes pursuant to Title 77, chapter 1, part 5.

(3) (a) Except as provided in subsection (3)(b), the total amount received by each local government in fiscal year 2010 as an entitlement share payment under this section is the base component for the fiscal year 2011 distribution, and in each subsequent year the prior year entitlement share payment, including any reimbursement payments received pursuant to subsection (7), is each local government's base component. The sum of all local governments' base components is the fiscal year entitlement share pool.

(b) The total amount received by each local government in fiscal year 2011 as an entitlement share payment under this section is the base component for fiscal year 2012 and 2013 distributions, and in each subsequent year the prior year entitlement share payment, including any reimbursement payments received pursuant to subsection (7), is each local government's base component. The sum of all local governments' base components is the fiscal year entitlement share pool.

(4) (a) With the exception of fiscal years 2012 and 2013, the base entitlement share pool must be increased annually by an entitlement share growth rate as provided for in this subsection (4). The amount determined through the application of annual growth rates is the entitlement share pool for each fiscal year, with the exception of fiscal years 2012 and 2013.

(b) By October 1 of each year, the department shall calculate the growth rate of the entitlement share pool for the ~~current~~ *next fiscal* year in the following manner:

(i) The department shall calculate the entitlement share growth rate based on the ratio of two factors of state revenue sources for the first, second, and third most recently completed fiscal years as recorded on the statewide budgeting and accounting system. The first factor is the sum of the revenue for the first and second previous completed fiscal years received from the sources referred to in ~~subsection~~ *subsections* (2)(b), (2)(c), and (2)(g) divided by the sum of the revenue for the second and third previous completed fiscal years received from the same sources multiplied by 0.75. The second factor is the sum of the revenue for the first and second previous completed fiscal years received from individual income tax as provided in Title 15, chapter 30, and corporate income tax as provided in Title 15, chapter 31, divided by the sum of the revenue for the second and third previous completed fiscal years received from the same sources multiplied by 0.25.

(ii) Except as provided in subsection (4)(b)(iii), the entitlement share growth rate is the lesser of:

(A) the sum of the first factor plus the second factor; or

(B) 1.03 for counties, 1.0325 for consolidated local governments, and 1.035 for cities and towns.

(iii) In no instance can the entitlement growth factor be less than 1. The entitlement share growth rate is applied to the most recently completed fiscal year entitlement payment to determine the subsequent fiscal year payment.

(5) As used in this section, "local government" means a county, a consolidated local government, an incorporated city, and an incorporated town. A local government does not include a tax increment financing district provided for in subsection (8). The county or consolidated local government is responsible for making an allocation from the county's or consolidated local government's share of the entitlement share pool to each special district within the county or consolidated local government in a manner that reasonably reflects each special district's loss of revenue sources for which reimbursement is provided in this section. The allocation for each special district that existed in 2002 must be based on the relative proportion of the loss of revenue in 2002.

(6) (a) The entitlement share pools calculated in this section, the amounts determined under 15-1-123(2) for local governments, the funding provided for in subsection (8) of this section, and the amounts determined under 15-1-123(4) for tax increment financing districts are statutorily appropriated, as provided in 17-7-502, from the general fund to the department for distribution to local

governments. Except for the distribution made under 15-1-123(2)(b), the distributions must be made on a quarterly basis.

(b) (i) The growth amount is the difference between the entitlement share pool in the current fiscal year and the entitlement share pool in the previous fiscal year. The growth factor in the entitlement share must be calculated separately for:

(A) counties;

(B) consolidated local governments; and

(C) incorporated cities and towns.

(ii) In each fiscal year, the growth amount for counties must be allocated as follows:

(A) 50% of the growth amount must be allocated based upon each county's percentage of the prior fiscal year entitlement share pool for all counties; and

(B) 50% of the growth amount must be allocated based upon the percentage that each county's population bears to the state population not residing within consolidated local governments as determined by the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census.

(iii) In each fiscal year, the growth amount for consolidated local governments must be allocated as follows:

(A) 50% of the growth amount must be allocated based upon each consolidated local government's percentage of the prior fiscal year entitlement share pool for all consolidated local governments; and

(B) 50% of the growth amount must be allocated based upon the percentage that each consolidated local government's population bears to the state's total population residing within consolidated local governments as determined by the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census.

(iv) In each fiscal year, the growth amount for incorporated cities and towns must be allocated as follows:

(A) 50% of the growth amount must be allocated based upon each incorporated city's or town's percentage of the prior fiscal year entitlement share pool for all incorporated cities and towns; and

(B) 50% of the growth amount must be allocated based upon the percentage that each city's or town's population bears to the state's total population residing within incorporated cities and towns as determined by the latest interim year population estimates from the Montana department of commerce as supplied by the United States bureau of the census.

(v) In each fiscal year, the amount of the entitlement share pool before the growth amount or adjustments made under subsection (7) are applied is to be distributed to each local government in the same manner as the entitlement share pool was distributed in the prior fiscal year.

(7) If the legislature enacts a reimbursement provision that is to be distributed pursuant to this section, the department shall determine the reimbursement amount as provided in the enactment and add the appropriate amount to the entitlement share distribution under this section. The total entitlement share distributions in a fiscal year, including distributions made pursuant to this subsection, equal the local fiscal year entitlement share pool. The ratio of each local government's distribution from the entitlement share pool must be recomputed to determine each local government's ratio to be used

in the subsequent year's distribution determination under subsections (6)(b)(ii)(A), (6)(b)(iii)(A), and (6)(b)(iv)(A).

(8) (a) Except for a tax increment financing district entitled to a reimbursement under 15-1-123(4), if a tax increment financing district was not in existence during the fiscal year ending June 30, 2000, then the tax increment financing district is not entitled to any funding. If a tax increment financing district referred to in subsection (8)(b) terminates, then the funding for the district provided for in subsection (8)(b) terminates.

(b) Except for the reimbursement made under 15-1-123(4)(b), one-half of the payments provided for in this subsection (8)(b) must be made by November 30 and the other half by May 31 of each year. Subject to subsection (8)(a), the entitlement share for tax increment financing districts is as follows:

Deer Lodge	TIF District 1	$2,833
Deer Lodge	TIF District 2	2,813
Flathead	Kalispell - District 2	4,638
Flathead	Kalispell - District 3	37,231
Flathead	Whitefish District	148,194
Gallatin	Bozeman - downtown	31,158
Missoula	Missoula - 1-1C	225,251
Missoula	Missoula - 4-1C	30,009
Silver Bow	Butte - uptown	255,421

(9) The estimated fiscal year entitlement share pool and any subsequent entitlement share pool for local governments do not include revenue received from tax increment financing districts, from countywide transportation block grants, or from countywide retirement block grants.

(10) When there has been an underpayment of a local government's share of the entitlement share pool, the department shall distribute the difference between the underpayment and the correct amount of the entitlement share. When there has been an overpayment of a local government's entitlement share, the local government shall remit the overpaid amount to the department.

(11) A local government may appeal the department's estimation of the base component, the entitlement share growth rate, or a local government's allocation of the entitlement share pool, according to the uniform dispute review procedure in 15-1-211.

(12) A payment required pursuant to this section may not be offset by a debt owed to a state agency by a local government in accordance with Title 17, chapter 4, part 1."

CHAPTER NO. 3

[SB 33]

AN ACT REVISING REPORTS TO THE REVENUE AND TRANSPORTATION INTERIM COMMITTEE; AND AMENDING SECTIONS 15-1-230, 15-24-3211, 15-32-703, 15-70-369, AND 61-10-154, MCA.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 15-1-230, MCA, is amended to read:

"15-1-230. (Temporary) Report on income tax credit to committee. The department shall report to the revenue and transportation interim committee ~~at least once each year~~ *biennially* the number and type of taxpayers claiming the credit under 15-30-2328, the total amount of the credit claimed, the total amount of the credit recaptured, and the department's cost associated with administering the credit. (Terminates December 31, 2019—secs. 2 through 8, Ch. 317, L. 2013.)"

Section 2. Section 15-24-3211, MCA, is amended to read:

"15-24-3211. Report to interim committee. ~~By September 15, 2014, the~~ *The* department shall ~~provide a~~ report to the revenue and transportation interim committee *biennially* on the use of property tax ~~abatement~~ *abatements* under 15-24-3202 and 15-24-3203. The committee shall, based on information contained in the report, make recommendations to the next legislature on the continuation or structure of the abatement."

Section 3. Section 15-32-703, MCA, is amended to read:

"15-32-703. Biodiesel blending and storage tax credit — recapture — report to interim committee. (1) An individual, corporation, partnership, or small business corporation, as defined in 15-30-3301, may receive a credit against taxes imposed by Title 15, chapter 30 or 31, for the costs of investments in depreciable property used for storing or blending biodiesel with petroleum diesel for sale.

(2) Subject to subsection (4), a special fuel distributor or an owner or operator of a motor fuel outlet qualifying for a credit under this section is entitled to claim a credit, as provided in subsection (3), for the costs described in subsection (1) incurred in the 2 tax years before the taxpayer begins blending biodiesel fuel for sale or in any tax year in which the taxpayer is blending biodiesel fuel for sale.

(3) (a) The total amount of the credits for all years that may be claimed by a distributor under this section is 15% of the costs described in subsection (1), up to a total of $52,500.

(b) The total amount of the credits for all years that may be claimed by an owner or operator of a motor fuel outlet under this section is 15% of the costs described in subsection (1), up to a total of $7,500.

(4) The following requirements must also be met for a taxpayer to be entitled to a tax credit under this section:

(a) The investment must be for depreciable property used primarily to blend petroleum diesel with biodiesel made entirely from Montana-produced feedstocks.

(b) Sales of biodiesel must be at least 2% of the taxpayer's total diesel sales by the end of the third year following the initial tax year in which the credit is initially claimed.

(c) (i) The taxpayer claiming a credit must be a person who as an owner, including a contract purchaser or lessee, or who pursuant to an agreement owns, leases, or has a beneficial interest in a business that blends biodiesel.

(ii) If more than one person has an interest in a business with qualifying property, they may allocate all or any part of the investment cost among themselves and their successors or assigns.

(d) The business must be owned or leased during the tax year by the taxpayer claiming the credit, except as otherwise provided in subsection (4)(c), and, except for the 2 tax-year period claimed in subsection (2), must have been blending biodiesel during the tax year for which the credit is claimed.

(5) The credit provided by this section is not in lieu of any depreciation or amortization deduction for the investment or other tax incentive to which the taxpayer otherwise may be entitled under Title 15.

(6) A tax credit allowable under this section that is not completely used by the taxpayer in the tax year in which the credit is initially claimed may be carried forward for credit against the taxpayer's tax liability for any succeeding tax year until the total amount of the credit has been deducted from tax liability. However, a credit may not be carried forward to any tax year in which the facility is not blending biodiesel or storing biodiesel for blending or beyond the 7th tax year after the tax year for which the credit was initially claimed. If a facility for which a credit is claimed ceases blending of biodiesel with petroleum diesel for sale for a period of 12 continuous months within 5 years after the initial claiming of a credit under this section or within 5 years after a year in which the credit was carried forward or if the taxpayer claiming the credit fails to satisfy the conditions of subsection (4)(b), the total credit is subject to recapture. The person claiming the credit is liable for the total amount of the credit in the event of recapture.

(7) The taxpayer's adjusted basis for determining gain or loss may not be further decreased by any tax credits allowed under this section.

(8) If the taxpayer is a shareholder of an electing small business corporation, the credit must be computed using the shareholder's pro rata share of the corporation's cost of investing in the biodiesel blending facility. In all other respects, the allowance and effect of the tax credit apply to the corporation as otherwise provided by law.

(9) As used in this section, "biodiesel" has the meaning provided in 15-70-301.

(10) The department shall report to the revenue and transportation interim committee ~~at least once each year~~ *biennially* regarding the number and type of taxpayers claiming the credit under this section, the total amount of the credit claimed, and the department's cost associated with administering the credit."

Section 4. Section 15-70-369, MCA, is amended to read:

"15-70-369. Refund for taxes paid on biodiesel by distributor or retailer — statement — payment — appropriation — records — report to interim committee. (1) A licensed distributor who pays the special fuel tax under 15-70-343 on biodiesel, as defined in 15-70-301, may claim a refund equal to 2 cents a gallon on biodiesel sold during the previous calendar quarter if the biodiesel is produced entirely from biodiesel ingredients produced in Montana.

(2) The owner or operator of a retail motor fuel outlet may claim a refund equal to 1 cent a gallon on biodiesel on which the special fuel tax has been paid and that is purchased from a licensed distributor if the biodiesel is produced entirely from biodiesel ingredients produced in Montana.

(3) (a) To receive the refund allowed under subsection (1) or (2), the licensed distributor or the owner or operator of a motor fuel outlet shall file a statement within 30 days after the end of each calendar quarter on a form provided by the department.

(b) The statement provided by a licensed distributor must set forth information required by the department, including the gallons of biodiesel sold and the source of ingredients used to produce biodiesel.

(c) The statement provided by the owner or operator of a retail motor fuel outlet must set forth information required by the department, including the gallons of biodiesel purchased.

(4) The payment of the refund allowed by this section must be made by the department within 90 days after the claim for a refund is filed by the licensed distributor or the owner or operator of a retail motor fuel outlet. Tax refund payments under this section are statutorily appropriated, as provided in 17-7-502, from the state general fund.

(5) The records of each licensed distributor or owner or operator of a retail motor fuel outlet must be kept for a period of not more than 3 years and must include receipts, invoices, and other information as the department may require.

(6) The department or its authorized representative may examine the books, papers, or records of any licensed distributor or owner or operator of a retail motor fuel outlet.

(7) The department shall report to the revenue and transportation interim committee ~~at least once each year~~ *biennially* the number and type of taxpayers claiming the refund under this section, the total amount of the refund claimed, and the department's cost associated with administering the refund."

Section 5. Section 61-10-154, MCA, is amended to read:

"61-10-154. Department of transportation to adopt motor carrier safety standards — enforcement — designation of peace officers — duties — violations. (1) As used in this section, the terms "for-hire motor carrier", "private motor carrier", "gross vehicle weight rating", and "gross combination weight rating" have the same meaning as provided in 49 CFR 390.5.

(2) The department of transportation shall adopt, by rule, standards for safety of operations of:

(a) any for-hire motor carrier or any private motor carrier;

(b) any motor vehicle or vehicle combination used in interstate commerce that has a gross vehicle weight rating, gross combination weight rating, gross vehicle weight, or gross combination weight, whichever is greater, of 10,001 pounds or more;

(c) any motor vehicle or vehicle combination used in intrastate commerce that has a gross vehicle weight rating, gross combination weight rating, gross vehicle weight, or gross combination weight, whichever is greater, of 26,001 pounds or more and that is not a farm vehicle operating solely in Montana;

(d) any motor vehicle that is designed or used to transport at least 16 passengers, including the driver, and that is not used to transport passengers for compensation;

(e) any motor vehicle that is designed or used to transport at least nine passengers, including the driver, for compensation; or

(f) any motor vehicle that is used to transport hazardous materials of a type or quantity that requires the vehicle to be marked or placarded in accordance with federal hazardous materials regulations in 49 CFR, part 172.

(3) Standards of safety adopted under this section must substantially comply, within allowed tolerance guidelines, to the federal motor carrier safety regulations and the federal hazardous material regulations as applied to motor carriers and vehicles transporting passengers or property in commerce.

(4) The department of transportation shall work with the highway patrol in the enforcement of safety standards adopted pursuant to this section. The highway patrol and the department of transportation shall cooperate to ensure minimum duplication and maximum coordination of enforcement efforts.

(5) In order to enforce compliance with safety standards adopted pursuant to this section, the department of transportation shall designate employees as peace officers. The designated employees must be employed in the administration of the motor carrier services functions of the department of transportation. Each employee designated as a peace officer may:

(a) issue citations and make arrests in connection with violations of safety standards adopted under this section;

(b) issue summons;

(c) accept bail;

(d) serve warrants for arrest;

(e) make reasonable inspections of cargo carried by commercial motor vehicles;

(f) enforce the provisions of Title 49 of the United States Code and regulations that have been adopted under Title 49 and make reasonable safety inspections of commercial motor vehicles used by motor carriers; and

(g) require production of documents relating to the cargo, driver, routing, or ownership of commercial motor vehicles.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 15-7-202, MCA, is amended to read:

"15-7-202. Eligibility of land for valuation as agricultural. (1) (a) Contiguous parcels of land totaling 160 acres or more under one ownership are eligible for valuation, assessment, and taxation as agricultural land each year that none of the parcels is devoted to a residential, commercial, or industrial use.

(b) (i) Contiguous parcels of land of 20 acres or more but less than 160 acres under one ownership that are actively devoted to agricultural use are eligible for valuation, assessment, and taxation as agricultural land if:

(A) the land is used primarily for raising and marketing, as defined in subsection (1)(c), products that meet the definition of agricultural in 15-1-101 and if, except as provided in subsection (3), the owner or the owner's immediate family members, agent, employee, or lessee markets not less than $1,500 in annual gross income from the raising of agricultural products produced by the land; or

(B) the parcels would have met the qualification set out in subsection (1)(b)(i)(A) were it not for independent, intervening causes of production failure beyond the control of the producer or a marketing delay for economic advantage, in which case proof of qualification in a prior year will suffice.

(ii) Noncontiguous parcels of land that meet the income requirement of subsection (1)(b)(i) are eligible for valuation, assessment, and taxation as agricultural land under subsection (1)(b)(i) if:

(A) the land is an integral part of a bona fide agricultural operation undertaken by the persons set forth in subsection (1)(b)(i) as defined in this section; and

(B) the land is not devoted to a residential, commercial, or industrial use.

(iii) Parcels of land *that are part of a family-operated farm, family corporation, family partnership, sole proprietorship, or family trust that is involved in Montana agricultural production consisting* of 20 acres or more but less than 160 acres that do not meet the income requirement of subsection (1)(b)(i) may also be valued, assessed, and taxed as agricultural land if the owner:

(A) applies to the department requesting classification of the parcel as agricultural;

(B) verifies that the parcel of land is greater than 20 acres but less than 160 acres and that the parcel is located within 15 air miles of the family-operated farming entity referred to in subsection (1)(b)(iii)(C); and

(C) verifies that:

(I) the owner of the parcel is involved in agricultural production by submitting proof that 51% or more of the owner's Montana annual gross income is derived from agricultural production; and

(II) property taxes on the property are paid by a family corporation, family partnership, sole proprietorship, or family trust that is involved in Montana

agricultural production and 51% of the entity's Montana annual gross income is derived from agricultural production; or

(III) the owner is a shareholder, partner, owner, or member of the family corporation, family partnership, sole proprietorship, or family trust that is involved in Montana agricultural production and 51% of the person's or entity's Montana annual gross income is derived from agricultural production.

(c) For the purposes of this subsection (1):

(i) "marketing" means the selling of agricultural products produced by the land and includes but is not limited to:

(A) rental or lease of the land as long as the land is actively used for grazing livestock or for other agricultural purposes; and

(B) rental payments made under the federal conservation reserve program or a successor to that program;

(ii) land that is devoted to residential use or that is used for agricultural buildings and is included in or is contiguous to land under the same ownership that is classified as agricultural land, other than nonqualified agricultural land described in 15-6-133(1)(c), must be classified as agricultural land, and the land must be valued as provided in 15-7-206.

(2) Contiguous or noncontiguous parcels of land totaling less than 20 acres under one ownership that are actively devoted to agricultural use are eligible for valuation, assessment, and taxation as agricultural each year that the parcels meet any of the following qualifications:

(a) except as provided in subsection (3), the parcels produce and the owner or the owner's agent, employee, or lessee markets not less than $1,500 in annual gross income from the raising of agricultural products as defined in 15-1-101;

(b) the parcels would have met the qualification set out in subsection (2)(a) were it not for independent, intervening causes of production failure beyond the control of the producer or marketing delay for economic advantage, in which case proof of qualification in a prior year will suffice; or

(c) in a prior year, the parcels totaled 20 acres or more and qualified as agricultural land under this section, but the number of acres was reduced to less than 20 acres for a public use described in 70-30-102 by the federal government, the state, a county, or a municipality, and since that reduction in acres, the parcels have not been further divided.

(3) For grazing land to be eligible for classification as agricultural land under subsections (1)(b) and (2), the land must be capable of sustaining a minimum number of animal unit months of carrying capacity. The minimum number of animal unit months of carrying capacity must equate to $1,500 in annual gross income as determined by the Montana state university-Bozeman department of agricultural economics and economics.

~~(4) Parcels that do not meet the qualifications set out in subsections (1) and (2) may not be classified or valued as agricultural if they are part of a platted subdivision that is filed with the county clerk and recorder in compliance with the Montana Subdivision and Platting Act.~~

~~(5) Land may not be classified or valued as agricultural land or nonqualified agricultural land if it has stated covenants or other restrictions that effectively prohibit its use for agricultural purposes.~~

~~(6)~~*(4)* The grazing on land by a horse or other animals kept as a hobby and not as a part of a bona fide agricultural enterprise is not considered a bona fide agricultural operation.

~~(7)~~*(5)* The department may not classify land less than 160 acres as agricultural unless the owner has applied to have land classified as agricultural land. Land of 20 acres or more but less than 160 acres for which no application for agricultural classification has been made is valued as provided in 15-6-133(1)(c) and is taxed as provided in 15-6-133(3). If land has been valued, assessed, and taxed as agricultural land in any year, it must continue to be valued, assessed, and taxed as agricultural until the department reclassifies the property. A reclassification does not mean revaluation pursuant to 15-7-111.

~~(8)~~*(6)* For the purposes of this part, growing timber is not an agricultural use."

(b) If the person for whom counsel has been assigned is later determined pursuant to this section to be ineligible for public defender services, the office shall immediately notify the court so that the court's order may be rescinded.

(c) A person for whom counsel is assigned is entitled to the full benefit of public defender services until the court's order requiring the assignment is rescinded.

(d) Any determination pursuant to this section is subject to the review and approval of the court. The propriety of an assignment of counsel by the office is subject to inquiry by the court, and the court may deny an assignment.

Section 1. Section 46-8-113, MCA, is amended to read:

"46-8-113. Payment by defendant for assigned counsel — costs to be filed with court. (1) Subject to the provisions of subsections (2) and (3), as part of or as a condition of a sentence that is imposed under the provisions of this title, the court shall determine whether a convicted defendant should pay the costs of counsel assigned to represent the defendant as follows:

The office of state public defender shall file with the court a statement of the hours spent on the case and the costs and expenses incurred for the trial.

(2) Any costs imposed pursuant to this section must be paid in accordance with 46-18-251(2)(e).

(3) In any proceeding for the determination of whether a defendant is or will be able to pay the costs of counsel, the court shall question the defendant as to the defendant's ability to pay those costs and shall inform the defendant that purposely false or misleading statements by the defendant may result in criminal charges against the defendant.

(4) The court may not sentence a defendant to pay the costs for assigned counsel unless the defendant is or will be able to pay the costs imposed by subsection (1). The court may find that the defendant is able to pay only a portion of the costs assessed. In determining the amount and method of payment of costs, the court shall take into account the financial resources of the defendant and the nature of the burden that payment of costs will impose.

(5) A defendant who has been sentenced to pay costs may at any time petition the court that sentenced the defendant for remission of the payment of costs or of any unpaid portion of the costs. If it appears to the satisfaction of the court that payment of the amount due will impose manifest hardship on the defendant or the defendant's immediate family, the court may remit all or part of the amount due in costs or modify the method of payment.

(6) A defendant's obligation to make payments for the cost of counsel is suspended during periods of incarceration.

~~(6)~~*(7)* Any costs imposed under this section must be included in the court's judgment."

Section 1. Section 69-3-1408, MCA, is amended to read:

"69-3-1408. Universal system benefits programs — establishing nonbypassable rate — *exemption.* (1) ~~A~~ *Except as provided in subsection (4), a* natural gas utility shall implement, upon commission approval and subject to ongoing commission oversight and direction, a universal system benefits program.

(2) ~~The~~ *Except as provided in subsection (4), the* commission shall establish a universal system benefits charge that ~~all~~ natural gas transmission services providers or ~~all~~ distribution services providers, or both, in the state of Montana shall charge to all end-use customers, taking into consideration the current level of expenditure by the natural gas utility, cost-effectiveness, and similar costs imposed in other states. The charge may be established and revised through a universal system benefits charge tracking procedure. The method of assessing the charge may not disproportionately burden a large transmission services provider's customers. Within the universal system benefits charge, beginning January 1, 2007, a natural gas utility's minimum annual funding requirement for low-income weatherization and low-income energy bill assistance is established at 0.42% of a natural gas utility's annual revenue for the previous year. A natural gas utility must receive credit for its internal programs or activities that qualify as universal system benefits programs.

(3) ~~A~~ *Except as provided in subsection (4), a* natural gas utility shall file an annual report of its universal system benefits charges, programs, and program funding levels with the commission in a manner prescribed by the commission.

(4) A natural gas utility that serves 200 or fewer customers is exempt from the requirements of subsections (1) through (3)."

CHAPTER NO. 20

[SB 11]

AN ACT EXEMPTING CERTAIN PUBLIC UTILITIES FROM THE REQUIREMENTS OF THE UNIVERSAL SYSTEM BENEFITS PROGRAM; AMENDING SECTION 69-8-402, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE AND A RETROACTIVE APPLICABILITY DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 69-8-402, MCA, is amended to read:

"69-8-402. Universal system benefits programs. (1) Universal system benefits programs are established for the state of Montana to ensure continued funding of and new expenditures for energy conservation, renewable resource projects and applications, and low-income energy assistance.

(2) ~~Beginning~~ *Except as provided in subsection (11), beginning* January 1, 1999, 2.4% of each utility's annual retail sales revenue in Montana for the calendar year ending December 31, 1995, is established as the initial funding level for universal system benefits programs. To collect this amount of funds on

an annualized basis in 1999, the commission shall establish rates for utilities subject to its jurisdiction and the governing boards of cooperatives shall establish rates for the cooperatives.

(a) The recovery of all universal system benefits programs costs imposed pursuant to this section is authorized through the imposition of a universal system benefits charge assessed at the meter for each local utility system customer as provided in this section.

(b) A utility must receive credit toward annual funding requirements for the utility's internal programs or activities that qualify as universal system benefits programs, including those amortized or nonamortized portions of expenditures for the purchase of power that are for the acquisition or support of renewable energy, conservation-related activities, or low-income energy assistance, and for large customers' programs or activities as provided in subsection (7). The department of revenue shall review claimed credits of the utilities and large customers pursuant to 69-8-414.

(c) A utility at which the sale of power for final end use occurs is the utility that receives credit for the universal system benefits programs expenditure.

(d) A customer's utility shall collect universal system benefits funds less any allowable credits.

(e) For a utility to receive credit for low-income-related expenditures, the activity must have taken place in Montana.

(f) If a utility's or a large customer's credit for internal activities does not satisfy the annual funding provisions of subsection (2), then the utility shall make a payment to the universal system benefits fund established in 69-8-412 for any difference.

(3) Cooperative utilities may collectively pool their statewide credits to satisfy their annual funding requirements for universal system benefits programs and low-income energy assistance.

(4) A utility's transition plan must describe how the utility proposes to provide for universal system benefits programs, including the methodologies, such as cost-effectiveness and need determination, used to measure the utility's level of contribution to each program.

(5) ~~A~~ *Except as provided in subsection (11), a* utility's minimum annual funding requirement for low-income energy and weatherization assistance is established at 17% of the utility's annual universal system benefits funding level and is inclusive within the overall universal system benefits funding level.

(a) A utility must receive credit toward the utility's low-income energy assistance annual funding requirement for the utility's internal low-income energy assistance programs or activities.

(b) If a utility's credit for internal activities does not satisfy its annual funding requirement, then the utility shall make a payment for any difference to the universal low-income energy assistance fund established in 69-8-412.

(6) An individual customer may not bear a disproportionate share of the local utility's funding requirements, and a sliding scale must be implemented to provide a more equitable distribution of program costs.

(7) (a) A large customer:

(i) shall pay a universal system benefits programs charge with respect to the large customer's qualifying load equal to the lesser of:

(A) $500,000, less the large customer credits provided for in this subsection (7); or

(B) the product of 0.9 mills per kilowatt hour multiplied by the large customer's total kilowatt hour purchases, less large customer credits with respect to that qualifying load provided for in this subsection (7);

(ii) must receive credit toward that large customer's universal system benefits charge for internal expenditures and activities that qualify as a universal system benefits programs expenditure, and these internal expenditures must include but not be limited to:

(A) expenditures that result in a reduction in the consumption of electrical energy in the large customer's facility; and

(B) those amortized or nonamortized portions of expenditures for the purchase of power at retail or wholesale that are for the acquisition or support of renewable energy or conservation-related activities.

(b) Large customers making these expenditures must receive a credit against the large customer's universal system benefits charge, except that any of those amounts expended in a calendar year that exceed that large customer's universal system benefits charge for the calendar year must be used as a credit against those charges in future years until the total amount of those expenditures has been credited against that large customer's universal system benefits charges.

(8) (a) ~~A~~ *Except as provided in subsection (11), a* public utility shall prepare and submit an annual summary report of the public utility's activities relating to all universal system benefits programs to the commission, the department of revenue, and the energy and telecommunications interim committee provided for in 5-5-230. A cooperative utility shall prepare and submit annual summary reports of activities to the cooperative utility's respective local governing body, the statewide cooperative utility office, and the energy and telecommunications interim committee. The statewide cooperative utility office shall prepare and submit an annual summary report of the activities of individual cooperative utilities, including a summary of the pooling of statewide credits, as provided in subsection (3), to the department of revenue and the energy and telecommunications interim committee. The annual report of a public utility or of the statewide cooperative utility office must include but is not limited to:

(i) the types of internal utility and customer programs being used to satisfy the provisions of this chapter;

(ii) the level of funding for those programs relative to the annual funding requirements prescribed in subsection (2); and

(iii) any payments made to the statewide funds in the event that internal funding was below the prescribed annual funding requirements.

(b) Before September 15 of the year preceding a legislative session, the energy and telecommunications interim committee shall review the universal system benefits programs and, if necessary, submit recommendations regarding these programs to the legislature.

(9) A utility or large customer filing for a credit shall develop and maintain appropriate documentation to support the utility's or the large customer's claim for the credit.

(10) (a) A large customer claiming credits for a calendar year shall submit an annual summary report of its universal system benefits programs activities and expenditures to the department of revenue and to the large customer's utility. The annual report of a large customer must identify each qualifying project or expenditure for which it has claimed a credit and the amount of the credit. Prior

approval by the department of revenue or the utility is not required, except as provided in subsection (10)(b).

(b) If a large customer claims a credit that the department of revenue disallows in whole or in part, the large customer is financially responsible for the disallowance. A large customer and the large customer's utility may mutually agree that credits claimed by the large customer be first approved by the utility. If the utility approves the large customer credit, the utility may be financially responsible for any subsequent disallowance.

(11) A public utility with fewer than 50 customers is exempt from the requirements of this section."

Section 2. Saving clause. [This act] does not affect rights and duties that matured, penalties that were incurred, or proceedings that were begun before [the effective date of this act].

Section 3. Effective date. [This act] is effective on passage and approval.

Section 4. Retroactive applicability. [This act] applies retroactively, within the meaning of 1-2-109, to the compliance year beginning January 1, 2015.

CHAPTER NO. 29

[HB 67]

AN ACT REMOVING THE WALL STREET JOURNAL AS THE SOURCE FOR DETERMINING THE AVERAGE PRICE FOR A BARREL OF WEST TEXAS INTERMEDIATE CRUDE OIL; AND AMENDING SECTIONS 15-36-303, 15-36-304, AND 20-9-518, MCA.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 15-36-303, MCA, is amended to read:

"15-36-303. Definitions. As used in this part, the following definitions apply:

(1) "Board" means the board of oil and gas conservation provided for in 2-15-3303.

(2) "Department" means the department of revenue provided for in 2-15-1301.

(3) "Enhanced recovery project" means the use of any process for the displacement of oil from the earth other than primary recovery and includes the use of an immiscible, miscible, chemical, thermal, or biological process.

(4) "Existing enhanced recovery project" means an enhanced recovery project that began development before January 1, 1994.

(5) "Expanded enhanced recovery project" or "expansion" means the addition of injection wells or production wells, the recompletion of existing wells as horizontally completed wells, the change of an injection pattern, or other operating changes to an existing enhanced recovery project that will result in the recovery of oil that would not otherwise be recovered. The project must be developed after December 31, 1993.

(6) "Gross taxable value", for the purpose of computing the oil and natural gas production tax, means the gross value of the product as determined in 15-36-305.

(7) "Horizontal drain hole" means that portion of a well bore with 70 degrees to 110 degrees deviation from the vertical and a horizontal projection within the common source of supply, as that term is defined by the board, that exceeds 100 feet.

(8) "Horizontally completed well" means:

(a) a well with one or more horizontal drain holes; ~~and~~ *or*

(b) any other well classified by the board as a horizontally completed well.

(9) "Incremental production" means:

(a) the volume of oil produced by a new enhanced recovery project, by a well in primary recovery recompleted as a horizontally completed well, or by an expanded enhanced recovery project, which volume of production is in excess of the production decline rate established under the conditions existing before:

(i) ~~the commencement of~~ *commencing* the recompletion of a well as a horizontally completed well;

(ii) ~~expansion of~~ *expanding* the existing enhanced recovery project; or

(iii) commencing a new enhanced recovery project; or

(b) in the case of any project that had no taxable production prior to commencing the enhanced recovery project, all production of oil from the enhanced recovery project.

(10) "Natural gas" or "gas" means natural gas and other fluid hydrocarbons, other than oil, produced at the wellhead.

(11) "New enhanced recovery project" means an enhanced recovery project that began development after December 31, 1993.

(12) "Nonworking interest owner" means any interest owner who does not share in the exploration, development, and operation costs of the lease or unit, except for production taxes.

(13) "Oil" means crude petroleum or mineral oil and other hydrocarbons, regardless of gravity, that are produced at the wellhead in liquid form and that are not the result of condensation of gas after it leaves the wellhead.

(14) "Operator" or "producer" means a person who produces oil or natural gas within this state or who owns, controls, manages, leases, or operates within this state any well or wells from which any marketable oil or natural gas is extracted or produced.

(15) "Post-1999 well" means an oil or natural gas well drilled on or after January 1, 1999, that produces oil or natural gas or a well that has not produced

oil or natural gas during the 5 years immediately preceding the first month of qualifying as a post-1999 well.

(16) "Pre-1999 well" means an oil or natural gas well that was drilled before January 1, 1999.

(17) "Primary recovery" means the displacement of oil from the earth into the well bore by means of the natural pressure of the oil reservoir and includes artificial lift.

(18) "Production decline rate" means the projected rate of future oil production, extrapolated by a method approved by the board, that must be determined for a project area prior to commencing a new or expanded enhanced recovery project or the recompletion of a well as a horizontally completed well. The approved production decline rate must be certified in writing to the department by the board. In that certification, the board shall identify the project area and shall specify the projected rate of future oil production by calendar year and by calendar quarter within each year. The certified rate of future oil production must be used to determine the volume of incremental production that qualifies for the tax rate imposed under 15-36-304(5)(e).

(19) (a) "Qualifying production" means the first 12 months of production of oil or natural gas from a well drilled after December 31, 1998, or the first 18 months of production of oil or natural gas from a horizontally completed well drilled after December 31, 1998, or from a well that has not produced oil or natural gas during the 5 years immediately preceding the first month of qualifying production.

(b) Qualifying production does not include oil production from a horizontally recompleted well.

(20) "Secondary recovery project" means an enhanced recovery project, other than a tertiary recovery project, that commenced or was expanded after December 31, 1993, and meets each of the following requirements:

(a) The project must be certified as a secondary recovery project to the department by the board. The certification may be extended only after notice and hearing in accordance with Title 2, chapter 4.

(b) The property to be affected by the project must be adequately delineated according to the specifications required by the board.

(c) The project must involve the application of secondary recovery methods that can reasonably be expected to result in an increase, determined by the board to be significant in light of all the facts and circumstances, in the amount of oil that may potentially be recovered. For purposes of this part, secondary recovery methods include but are not limited to:

(i) the injection of water into the producing formation for the purposes of maintaining pressure in that formation or for the purpose of increasing the flow of oil from the producing formation to a producing well bore; or

(ii) any other method approved by the board as a secondary recovery method.

(21) "Stripper natural gas" means the natural gas produced from any well that produces less than 60,000 cubic feet of natural gas a day during the calendar year immediately preceding the current year. Production must be determined by dividing the amount of production from a lease or unitized area for the year immediately preceding the current calendar year by the number of producing wells in the lease or unitized area and by dividing the resulting quotient by 365.

(22) (a) "Stripper oil" means the oil produced from any well that produces more than 3 barrels but ~~less~~ *fewer* than 15 barrels a day for the calendar year

immediately preceding the current year if the average price for a barrel of ~~oil as reported in the Wall Street Journal for~~ west Texas intermediate crude oil during a calendar quarter is less than $30 ~~a barrel~~. If the price of oil is equal to or greater than $30 a barrel in a calendar quarter, there is no stripper tax rate in that quarter.

(b) The average price for a barrel is computed by dividing the sum of the daily price for *a barrel of* west Texas intermediate crude oil ~~as reported in the Wall Street Journal~~ for the calendar quarter by the number of days on which the price was reported in the quarter.

(c) Production must be determined by dividing the amount of production from a lease or unitized area for the year immediately preceding the current calendar year by the number of producing wells in the lease or unitized area and ~~by~~ *then* dividing the resulting quotient by 365.

(23) "Stripper well exemption" or "stripper well bonus" means petroleum and other mineral or crude oil produced by a stripper well that produces 3 barrels a day or less. Production from this type of well must be determined as provided in subsection (22)(c).

(24) "Tertiary recovery project" means an enhanced recovery project, other than a secondary recovery project, using a tertiary recovery method that meets the following requirements:

(a) The project must be certified as a tertiary recovery project to the department by the board. The certification may be extended only after notice and hearing in accordance with Title 2, chapter 4.

(b) The property to be affected by the project must be adequately delineated in the certification according to the specifications required by the board.

(c) The project must involve the application of one or more tertiary recovery methods that can reasonably be expected to result in an increase, determined by the board to be significant in light of all the facts and circumstances, in the amount of crude oil that may potentially be recovered. For purposes of this part, tertiary recovery methods include but are not limited to:

(i) miscible fluid displacement;

(ii) steam drive injection;

(iii) micellar/emulsion flooding;

(iv) in situ combustion;

(v) polymer augmented water flooding;

(vi) cyclic steam injection;

(vii) alkaline or caustic flooding;

(viii) carbon dioxide water flooding;

(ix) immiscible carbon dioxide displacement; ~~or~~ *and*

(x) any other method approved by the board as a tertiary recovery method.

(25) "Well" or "wells" means a single well or a group of wells in one field or production unit and under the control of one operator or producer.

(26) "Working interest owner" means the owner of an interest in an oil or natural gas well or wells who bears any portion of the exploration, development, and operating costs of the well or wells."

Section 2. Section 15-36-304, MCA, is amended to read:

"15-36-304. Production tax rates imposed on oil and natural gas — exemption. (1) The production of oil and natural gas is taxed as provided in this section. The tax is distributed as provided in 15-36-331 and 15-36-332.

(2) Natural gas is taxed on the gross taxable value of production based on the type of well and type of production according to the following schedule for working interest and nonworking interest owners:

	Working Interest	Nonworking Interest
(a) (i) first 12 months of qualifying production	0.5%	14.8%
(ii) after 12 months:		
(A) pre-1999 wells	14.8%	14.8%

(ii) after 18 months	9%	14.8%

(3) The reduced tax rates under subsection (2)(a)(i) on production for the first 12 months of natural gas production from a well ~~begins~~ *begin* following the last day of the calendar month immediately preceding the month in which natural gas is placed in a natural gas distribution system, provided that notification has been given to the department.

(4) The reduced tax ~~rate~~ *rates* under subsection (2)(c)(i) on production from a horizontally completed well for the first 18 months of production ~~begins~~ *begin* following the last day of the calendar month immediately preceding the month in which natural gas is placed in a natural gas distribution system, provided that notification has been given to the department.

(5) Oil is taxed on the gross taxable value of production based on the type of well and type of production according to the following schedule for working interest and nonworking interest owners:

	Working Interest	Nonworking Interest
(a) primary recovery production:		
(i) first 12 months of qualifying production	0.5%	14.8%

(ii) new or expanded tertiary production	5.8%	14.8%

(f) horizontally recompleted well:		
(i) first 18 months	5.5%	14.8%
(ii) after 18 months:		
(A) pre-1999 wells	12.5%	14.8%
(B) post-1999 wells	9%	14.8%

(6) (a) The reduced tax rates under subsection (5)(a)(i) for the first 12 months of oil production from a well ~~begins~~ *begin* following the last day of the calendar month immediately preceding the month in which oil is pumped or flows, provided that notification has been given to the department.

(b) (i) The reduced tax rates under subsection (5)(d)(i) on oil production from a horizontally completed well for the first 18 months of production ~~begins~~ *begin* following the last day of the calendar month immediately preceding the month in which oil is pumped or flows if the well has been certified as a horizontally completed well to the department by the board.

(ii) The reduced tax ~~rate~~ *rates* under subsection (5)(f)(i) on oil production from a horizontally recompleted well for the first 18 months of production ~~begins~~ *begin* following the last day of the calendar month immediately preceding the month in which oil is pumped or flows if the well has been certified as a horizontally recompleted well to the department by the board.

(c) Incremental production is taxed as provided in subsection (5)(e) only if the average price for ~~each~~ *a* barrel of ~~oil as reported in the Wall Street Journal for~~ west Texas intermediate crude oil during a calendar quarter is less than $30 ~~a barrel~~. If the price of oil is equal to or greater than $30 a barrel in a calendar quarter as determined in subsection (6)(e), then incremental production from pre-1999 wells and from post-1999 wells is taxed at the rate imposed on primary recovery production under subsections (5)(a)(ii)(A) and (5)(a)(ii)(B), respectively, for production occurring in that quarter, other than exempt stripper well production.

(d) (i) Stripper well exemption production is taxed as provided in subsection (5)(c)(i) only if the average price for a barrel of ~~oil as reported in the Wall Street Journal for~~ west Texas intermediate crude oil during a calendar quarter is less than $38 ~~a barrel~~. If the price of oil is equal to or greater than $38 a barrel, there is no stripper well exemption tax rate and oil produced from a well that produces 3 barrels a day or less is taxed as stripper well bonus production.

(ii) Stripper well bonus production is subject to taxation as provided in subsection (5)(c)(ii) only if the average price for a barrel of ~~oil as reported in the Wall Street Journal for~~ west Texas intermediate crude oil during a calendar quarter is equal to or greater than $38 ~~a barrel~~.

(e) For the purposes of subsections (6)(c) and (6)(d), the average price for each barrel must be computed by dividing the sum of the daily price for *a barrel of* west Texas intermediate crude oil ~~as reported in the Wall Street Journal~~ for the calendar quarter by the number of days on which the price was reported in the quarter.

(7) (a) The tax rates imposed under subsections (2) and (5) on working interest owners and nonworking interest owners must be adjusted to include the total of the privilege and license tax adopted by the board of oil and gas conservation pursuant to 82-11-131 and the derived rate for the oil and gas natural resource distribution account as determined under subsection (7)(b).

(b) The total of the privilege and license tax and the tax for the oil and gas natural resource distribution account established in 90-6-1001(1) may not

exceed 0.3%. The base rate for the tax for oil and gas natural resource distribution account funding is 0.08%, but when the rate adopted pursuant to 82-11-131 by the board of oil and gas conservation for the privilege and license tax:

(i) exceeds 0.22%, the rate for the tax to fund the oil and gas natural resource distribution account is equal to the difference between the rate adopted by the board of oil and gas conservation and 0.3%; or

(ii) is less than 0.18%, the rate for the tax to fund the oil and gas natural resource distribution account is equal to the difference between the rate adopted by the board of oil and gas conservation and 0.26%.

(c) The board of oil and gas conservation shall give the department at least 90 days' notice of any change in the rate adopted by the board. Any rate change of the tax to fund the oil and gas natural resource distribution account is effective at the same time that the board of oil and gas conservation rate is effective.

(8) Any interest in production owned by the state or a local government is exempt from taxation under this section."

Section 3. Section 20-9-518, MCA, is amended to read:

"20-9-518. County school oil and natural gas impact fund. (1) The governing body of a county receiving an allocation under 20-9-310(4)(b) shall establish a county school oil and natural gas impact fund.

(2) Money received by a county pursuant to 20-9-310(4)(b) must remain in the fund and may not be appropriated by the governing body until:

(a) the amount of oil and natural gas production taxes received by a school district for the fiscal year is 50% or less of the amount of the average received by the district in the previous 4 fiscal years; or

(b) the average price for a barrel of ~~oil as reported in the Wall Street Journal for~~ west Texas intermediate crude oil during a calendar quarter is less than $65 ~~a barrel~~. The average price for each barrel must be computed by dividing the sum of the daily price for *a barrel of* west Texas intermediate crude oil ~~as reported in the Wall Street Journal~~ for the calendar quarter by the number of days on which the price was reported in the quarter.

(3) (a) Within 120 days following the end of the fiscal year, the superintendent of public instruction shall determine if the criteria in subsection (2)(a) have been met and the department of revenue shall determine if the criteria in subsection (2)(b) have been met.

(b) If it is determined under subsection (3)(a) that the criteria in subsection (2)(a) or (2)(b) have been met, the superintendent of public instruction or the department of revenue shall notify the county treasurer.

(4) Upon notification under subsection (3)(b), the county treasurer shall allocate 80% of the money proportionally to affected high school districts and elementary school districts in the county, which must be calculated by dividing the total funds available for distribution by the total number of quality educators, as defined in 20-4-502, employed by the qualifying school districts in the county in the immediately preceding school fiscal year. The number of quality educators used for the calculation under this subsection in a district with territory in more than one county must be prorated based on the average number belonging of the district residing in school district territory located in each respective county. A school district receiving this money may deposit the funds in any budgeted fund of the district at the discretion of the trustees.

(5) The governing body of the county may use 20% of the money in the fund to:

(a) pay for outstanding capital project bonds or other expenses incurred prior to the reduction in the price of oil or the reduction in the receipt of oil and natural gas production taxes described in subsection (2);

(b) offset property tax levy increases that are directly caused by the cessation or reduction of oil and natural gas activity;

(c) promote diversification and development of the economic base within the jurisdiction;

(d) attract new industry to the area impacted by changes in oil and natural gas activity leading to the reduction in the price of oil or the reduction in the receipt of oil and natural gas production taxes described in subsection (2); or

(e) provide cash incentives for expanding the employment base of the area impacted by the changes in oil and natural gas activity leading to the reduction in the price of oil or the reduction in the receipt of oil and natural gas production taxes described in subsection (2).

(6) Except as provided in subsection (5)(b), money held in the fund may not be considered as fund balance for the purpose of reducing mill levies.

(7) Money in the fund must be invested as provided by law. Interest and income from the investment of money in the fund must be credited to the fund."

(a) For each fiscal year through the fiscal year ending June 30, ~~2015~~ *2019*:

(b) For fiscal years beginning after June 30, ~~2015~~ *2019*, 100% of the balance of the account must be allocated to the wireless providers providing wireless enhanced 9-1-1 in each county on a per capita basis. To receive cost recovery, wireless providers shall submit subscriber counts to the department on a quarterly basis. The subscriber count must be provided for each 9-1-1 jurisdiction in which the wireless provider receives cost recovery within 30 calendar days following the end of each quarter. The department shall recalculate distribution percentages on a quarterly basis.

(3) Funds may not be reallocated in accordance with subsection (2) if the county contains less than 1% of the state population.

(4) Any reallocated funds not distributed in accordance with subsection (2) must be returned to the account established under 10-4-301(1)(c).

(4) If by the write-in candidate deadline in subsection (3) the number of candidates is equal to or less than the number of positions to be filled at the election, the election administrator shall cancel the election and, pursuant to 13-1-304, immediately notify the governing body in writing of the cancellation. However, the governing body may by resolution require that the election be held.

(c) The department shall numerically rank all applicants in the lottery. Only the successful applicants will be required to submit a completed application and a one-time required fee. An applicant's ranking may not be sold or transferred to another person or entity. The preference and an applicant's ranking apply only to the intended license advertised by the department or to the number of licenses determined under subsection (8) when there are more applicants than licenses available. (11) An application for a restaurant beer and wine license must be accompanied by a fee equal to 20% of the initial licensing fee. If the department does not make a decision either granting or denying the license within 4 months of receipt of a complete application, the department shall pay interest on the application fee at the rate of 1% a month until a license is issued or the application is denied. Interest may not accrue during any period that the processing of an application is delayed by reason of a protest filed pursuant to 16-4-203 or 16-4-207. If the department denies an application, the application fee, plus any interest, less a processing fee established by rule, must be refunded to the applicant. Upon the issuance of a license, the licensee shall pay the balance of the initial licensing fee. The amount of the initial licensing fee is determined according to the following schedule:

(a) $5,000 for restaurants with a stated seating capacity of 60 persons or less;

(14) The number of beer and wine licenses issued to restaurants with a stated seating capacity of 101 persons or more may not exceed 25% of the total licenses issued.

(15) Possession of a restaurant beer and wine license is not a qualification for licensure of any gaming or gambling activity. A gaming or gambling activity may not occur on the premises of a restaurant with a restaurant beer and wine license."

(5) If, at the time of transfer, the youth is incarcerated in a state youth correctional facility, the district court may order that the youth, after reaching 18 years of age:

(a) be incarcerated in a state adult correctional facility *if the youth was adjudicated for a felony offense*, boot camp, or prerelease center; or

Section 4. Section 7-32-303, MCA, is amended to read:

"7-32-303. Peace officer employment, education, and certification standards — suspension or revocation — penalty. (1) For purposes of this section, unless the context clearly indicates otherwise, "peace officer" means a deputy sheriff, undersheriff, police officer, highway patrol officer, fish and game warden, park ranger, campus security officer, or airport police officer.

(2) A sheriff of a county, the mayor of a city, a board, a commission, or any other person authorized by law to appoint peace officers in this state may not appoint any person as a peace officer who does not meet the following qualifications plus any additional qualifying standards for employment promulgated by the Montana public safety officer standards and training council established in 2-15-2029:

(a) be a citizen of the United States;

(b) be at least 18 years of age;

(c) be fingerprinted and a search made of the local, state, and national fingerprint files to disclose any criminal record;

(d) not have been convicted of a crime for which the person could have been imprisoned in a federal or state penitentiary;

(h) successfully complete an oral examination conducted by the appointing authority or its designated representative to demonstrate the possession of communication skills, temperament, motivation, and other characteristics necessary to the accomplishment of the duties and functions of a peace officer; and

(i) possess or be eligible for a valid Montana driver's license.

(3) At the time of appointment, a peace officer shall take a formal oath of office.

(4) Within 10 days of the appointment, termination, resignation, or death of any peace officer, written notice of the event must be given to the Montana public safety officer standards and training council by the employing authority.

(5) (a) Except as provided in subsections (5)(b) and (5)(c), it is the duty of an appointing authority to cause each peace officer appointed under its authority to attend and successfully complete, within 1 year of the initial appointment, an appropriate peace officer basic course certified by the Montana public safety officer standards and training council. Any peace officer appointed after September 30, 1983, who fails to meet the minimum requirements as set forth in subsection (2) or who fails to complete the basic course as required by this subsection (5)(a) forfeits the position, authority, and arrest powers accorded a peace officer in this state.

(b) A peace officer who has been issued a basic certificate by the Montana public safety officer standards and training council and whose last date of employment as a peace officer was less than 36 months prior to the date of the person's present appointment as a peace officer is not required to fulfill the basic educational requirements of subsection (5)(a). (c) A peace officer referred to in subsection (5)(b) or a peace officer who has completed a basic peace officer's course that is taught by a federal, state, or United States military law enforcement agency and that is reviewed and approved by the Montana public safety officer standards and training council as equivalent with current training in Montana and whose last date of employment as a peace officer or member of the military law enforcement was less than 60 months prior to the date of present appointment as a peace officer may, within 1 year of the peace officer's present employment or initial appointment as a peace officer within this state, satisfy the basic educational requirements by successfully completing a basic equivalency course administered by the Montana law enforcement academy. The prior employment of a member of the military law enforcement must be reviewed and approved by the Montana public safety officer standards and training council. If the peace officer fails the basic equivalency course, the peace officer shall complete the appropriate basic equivalency course within 120 days of the date of the failure of the equivalency course.

(6) The Montana public safety officer standards and training council may extend the 1-year time requirements of subsections (5)(a) and (5)(c) upon the written application of the peace officer and the appointing authority of the officer. The application must explain the circumstances that make the extension necessary. Factors that the council may consider in granting or denying the extension include but are not limited to illness of the peace officer or a member of the peace officer's immediate family, absence of reasonable access to the basic equivalency course, and an unreasonable shortage of personnel within the department. The council may not grant an extension to exceed 180 days.

(7) A peace officer who has successfully met the employment standards and qualifications and the educational requirements of this section and who has completed a 1-year probationary term of employment must, upon application to the Montana public safety officer standards and training council, be issued a basic certificate by the council, certifying that the peace officer has met all the basic qualifying peace officer standards of this state.

(8) It is unlawful for a person whose certification as a peace officer, detention officer, or detention center administrator has been revoked or suspended by the Montana public safety officer standards and training council to act as a peace officer, detention officer, or detention center administrator. A person convicted of violating this subsection is guilty of a misdemeanor, punishable by a term of imprisonment not to exceed 6 months in the county jail or by a fine not to exceed $500, or both."

Section 5. Section 7-33-4107, MCA, is amended to read:

"7-33-4107. Qualifications of firefighters. The state of Montana determines that qualifications for the firefighting profession must recognize the rigorous physical demands placed on firefighters and the expectation of many years of emergency service. To qualify as a firefighter, an applicant:

(1) must be a citizen of the United States;

(2) must be at least 18 years of age;

(3) must be a high school graduate or have ~~passed the general educational development test and have~~ been issued ~~an~~ *a high school* equivalency ~~certificate~~ *diploma* by the superintendent of public instruction or by an appropriate issuing agency of another state or of the federal government;

(4) must possess or be eligible for a valid Montana driver's license;

(1) the youth challenge program assist youth between 16 and 18 years of age to achieve a quality education and develop the skills and abilities necessary to become productive citizens;

Section 7. Section 13-13-212, MCA, is amended to read:

"13-13-212. Application for absentee ballot — special provisions — biennial absentee ballot list. (1) (a) Except as provided in subsection (1)(b), an elector may apply for an absentee ballot by using a standard application form provided by rule by the secretary of state pursuant to 13-1-210 or by making a written request, which must include the applicant's birth date and must be signed by the applicant. The request must be submitted to the election administrator of the applicant's county of residence within the time period specified in 13-13-211.

(b) A person who holds a power of attorney from ~~an absent uniformed services elector [a uniformed-service voter]~~ *a uniformed-service voter* may apply for an absentee ballot for that election on behalf of the ~~uniformed services elector [uniformed-service voter]~~ *uniformed-service voter*. The applicant shall provide a copy of the power of attorney authorizing the request for an absentee ballot along with the application.

(2) (a) If an elector requests an absentee ballot because of a sudden illness or health emergency, the application for an absentee ballot may be made by written request signed by the elector at the time that the ballot is delivered in person by the absentee election board or by an authorized election official as provided in 13-13-225.

(b) The elector may request by telephone, facsimile transmission, or other means to have a ballot and application personally delivered by the absentee election board or by an authorized election official at the elector's place of confinement, hospitalization, or residence within the county.

(c) A request under subsection (2)(a) must be received by the election administrator within the time period specified in 13-13-211(2).

(3) (a) An elector may at any time request to be mailed an absentee ballot for each subsequent election in which the elector is eligible to vote as long as the elector remains qualified to vote and resides at the address provided in the initial application. The request may be made when the individual applies for voter registration using the standard application form provided for in 13-1-210.

(b) The election administrator shall biennially mail a forwardable address confirmation form to each elector who has requested an absentee ballot for subsequent elections. The address confirmation form must request the elector's driver's license number or the last four digits of the elector's social security number. The address confirmation form must be mailed in January of every even-numbered year. The address confirmation form is for elections to be held between February 1 following the mailing through January of the next even-numbered year. The elector shall sign the form, indicate the address to which the absentee ballot should be sent, provide the elector's driver's license number or the last four digits of the elector's social security number, and return the form to the election administrator. If the form is not completed and returned, the election administrator shall remove the elector from the biennial absentee ballot list.

(c) An elector may request to be removed from the biennial absentee ballot list for subsequent elections by notifying the election administrator in writing.

(d) An elector who has been or who requests to be removed from the biennial absentee ballot list may subsequently request to be mailed an absentee ballot for each subsequent election.

(4) In a mail ballot election, ballots must be sent under mail ballot procedures rather than under the absentee ballot procedures set forth in subsection (3)."

Section 8. Section 13-21-212, MCA, is amended to read:

"13-21-212. Mailing ballots to ~~United States elector [covered voter]~~ *covered voter*. Ballots mailed to a ~~United States elector [covered voter]~~ *covered voter* must be handled as prescribed in 13-13-214, except that both the envelope in which a ballot is mailed to the ~~elector [covered voter]~~ *covered voter* and the signature envelope for the ballot must have printed across ~~its~~ *the* face the information and graphics and be of the color prescribed by the secretary of state consistent with the regulations established by the federal election commission, the U.S. postal service, or other federal agency."

Section 9. Section 13-35-502, MCA, is amended to read:

"13-35-502. Findings. The people of the state of Montana find that:

(1) since 1912, through passage of the Corrupt Practices Act by initiative, Montana has prohibited corporate contributions to and expenditures on candidate elections;

(2) in 1996, by passage of Initiative No. 125, Montana prohibited corporations from using corporate funds to make contributions to or expenditures on ballot issue campaigns;

(3) Montana's 1996 prohibition on corporate contributions to ballot issue campaigns was invalidated by Montana Chamber of Commerce v. Argenbright, 226 F.3d 1049 (2000). Montana's 1912 prohibition on corporate contributions to and expenditures on candidate elections is also being challenged under the holding of Citizens United v. FEC, ~~558 U.S. _____~~ *558 U.S. 310*, 130 S.Ct. 876 (2010). This decision equated the political speech rights of corporations with those of human beings.

(4) in 2011 the Montana Supreme Court, in its decision, Western Tradition Partnership, Inc. v. Attorney General, 2011 MT 328, upheld Montana's 1912 prohibition on corporate contributions to and expenditures on candidate campaigns, stating in its opinion as follows:

(a) examples of well-financed corruption involving corporate money abound in Montana;

(b) the corporate power that can be exerted with unlimited corporate political spending is still a vital interest to the people of Montana;

(c) corporate independent spending on Montana ballot issues has far exceeded spending from other sources;

(d) unlimited corporate money into candidate elections would irrevocably change the dynamic of local Montana political office races;

(e) with the infusion of unlimited corporate money in support of or opposition to a targeted candidate, the average citizen candidate in Montana would be unable to compete against the corporate-sponsored candidate, and Montana citizens, who for over 100 years have made their modest election contributions meaningfully count, would be effectively shut out of the process; and

(f) clearly the impact of unlimited corporate donations creates a dominating impact on the Montana political process and inevitably minimizes the impact of individual Montana citizens."

Section 10. Section 15-30-2604, MCA, is amended to read:

"15-30-2604. Time for filing — extensions of time. (1) (a) Except as provided in subsection (1)(b), a return must be made to the department on or before the 15th day of the 4th month following the close of the taxpayer's fiscal year, or if the return is made on the basis of the calendar year, then the return must be made on or before April 15 following the close of the calendar year.

(b) (i) If the due date of the return falls on a holiday that defers a filing date as recognized by the internal revenue service and that is not observed in Montana, the return may be made on the first business day after the holiday.

(ii) The department may extend filing dates and defer or waive interest, penalties, and other effects of late filing for a period not exceeding 1 year for taxpayers affected by a federally declared disaster or a terroristic or military action recognized for federal tax purposes under 26 U.S.C. 7508A.

(2) The return must set forth those facts that the department considers necessary for the proper enforcement of this chapter. An affidavit or affirmation must be attached to the return from the persons making the return verifying that the statements contained in the return are true. Blank forms of return must be furnished by the department upon application, but failure to secure the form does not relieve the taxpayer of the obligation to make a return required under this chapter. A taxpayer liable for a tax under this chapter shall pay a minimum tax of $1.

(3) (a) Subject to subsections (3)(b) and (3)(c), a taxpayer is allowed an automatic extension of time for filing the taxpayer's return of up to 6 months following the date prescribed for filing of the tax return.

(b) (i) Except as provided in subsection (3)(c), on or before the due date of the return, the taxpayer shall pay by estimated tax payments, withholding tax, or a combination of estimated tax payments and withholding tax 90% of the current year's tax liability or 100% of the previous year's tax liability.

(ii) The remaining tax, penalty, and interest of the current year's tax liability not paid under subsection ~~(3)(b)(ii)~~ *(3)(b)(i)* must be paid when the return is filed. Penalty and interest must be added to the tax due as provided in 15-1-216.

(c) A taxpayer that has a tax liability of $200 or less for the current year may pay the entire amount of the tax, without penalty or interest under 15-1-216, on or before the due date of the return under subsection (3)(a). If the tax is not paid on or before the due date of the return under subsection (3)(a), penalty and interest must be added to the tax due as provided in 15-1-216 from the original due date of the return.

(4) The department may grant an additional extension of time for the filing of a return whenever in its judgment good cause exists.

(5) Except as provided in subsection (3)(c), the extension of time for filing a return is not an extension of time for the payment of taxes."

Section 11. Section 15-31-150, MCA, is amended to read:

"15-31-150. Credit for research expenses and research payments. (1) (a) There is a credit against taxes otherwise due under this chapter for increases in qualified research expense and basic research payments for research conducted in Montana. Except as provided in this section, the credit must be determined in accordance with section 41 of the Internal Revenue Code, 26 U.S.C. 41, as that section read on July 1, 1996, or as subsequently amended.

(b) For purposes of the credit, the:

(i) applicable percentage specified in 26 U.S.C. 41(a) is 5%;

(ii) election of the alternative incremental credit allowed under 26 U.S.C. 41(c)(4) does not apply;

(iii) special rules in 26 U.S.C. 41(g) do not apply; and

(iv) termination date provided for in 26 U.S.C. 41(h)(1)(B) does not apply.

(2) The credit allowed under this section for a tax year may not exceed the tax liability under chapter 30 or 31. A credit may not be refunded if a taxpayer has tax liability less than the amount of the credit.

(3) The credit allowed under this section may be used as a carryback against taxes imposed under chapter 30 or 31 for the 2 preceding tax years and may be used as a carryforward against taxes imposed by chapter 30 or 31 for the 15 succeeding tax years. The entire amount of the credit not used in the year earned must be carried first to the earliest tax year in which the credit may be applied and then to each succeeding tax year.

(4) A taxpayer may not claim a current year credit under this section after December 31, 2010. However, any unused credit may be carried back or forward as provided in subsection (3).

(5) A corporation, an individual, a small business corporation, a partnership, a limited liability partnership, or a limited liability company qualifies for the credit under this section. If the credit is claimed by a small business corporation, a partnership, a limited liability partnership, or a limited liability company, the credit must be attributed to the individual shareholders, partners, members, or managers in the same proportion used to report income or loss for state tax purposes. The allocations in 26 U.S.C. 41(f) do not apply to this section.

(6) For purposes of calculating the credit, the following definitions apply:

(a) "Gross receipts" means:

(i) for a corporation that has income from business activity that is taxable only within the state, all gross sales less returns of the corporation for the tax year; and

(ii) for a corporation that has income from business activity that is taxable both within and outside of the state, only the gross sales less returns of the corporation apportioned to Montana for the tax year.

(b) "Qualified research" has the meaning provided in 26 U.S.C. 41(d), but is limited to research conducted in Montana.

(c) "Qualified research expenses" has the meaning provided in 26 U.S.C. 41(b), but includes only the sum of amounts paid or incurred by the taxpayer for research conducted in Montana.

(d) "Supplies" has the meaning provided in 26 U.S.C. 41(b)(2)(C), but includes only those supplies used in the conduct of qualified research in Montana.

(e) (i) "Wages" has the meaning provided in 39-51-201, except as provided in subsection (6)(e)(ii) of this section, and includes only those wages paid or incurred for an employee for qualified services performed by the employee in Montana.

(ii) Notwithstanding the exception to the definition of wages in ~~39-51-201(24)(b)(v)~~ *39-51-201(25)(b)(v)*, for a self-employed individual and an owner-employee, the term includes the income, as defined in 26 U.S.C. 401(c)(2), of the employee.

(7) The department shall adopt rules, prepare forms, maintain records, and perform other duties necessary to implement this section. In adopting rules to

implement this section, the department shall conform the rules to regulations prescribed by the secretary of the treasury under 26 U.S.C. 41 except to the extent that the regulations need to be modified to conform to this section."

Section 12. Section 19-20-408, MCA, is amended to read:

"19-20-408. Creditable service for employment in private schools. (1) (a) A member who has at least 5 years of membership service, who has completed 1 full year of active membership subsequent to the member's private school employment, and who contributes to the retirement system as provided in subsection (2) may receive up to 5 years of creditable service in the retirement system for employment within the United States in a private elementary, secondary, or postsecondary educational institution.

(c) Members may not receive credit for service as a student employed by a private elementary, secondary, or postsecondary educational institution.

(2) (a) For each year of service to be credited, a member who became a member before July 1, 1989, shall contribute to the retirement system an amount equal to the combined employer and employee contribution for the member's first full year's teaching salary earned after becoming a member of the retirement system or after returning to the retirement system, whichever is later, plus interest. The contribution rate must be that rate in effect at the time the member is eligible to purchase the service.

(b) For each year of service to be credited under this section, a member who became a member on or after July 1, 1989, shall contribute the actuarial cost of the service based on the most recent valuation of the system.

(3) The interest on contributions required under subsection (2)(a) must be paid:

(a) if a written application to purchase service was signed prior to July 1, 2012, at the rate that the contributions would have earned had the contributions been in the member's account from the date the member was eligible to purchase the service; or

(b) if a written application to purchase service is signed ~~[on or]~~ *on or* after July 1, 2012, at the actuarially assumed interest rate in effect on the date the written application is signed.

(4) The contributions and interest may be made in lump-sum payment or in installments as agreed between the person and the retirement board.

(5) The provisions of 19-20-405 apply to creditable service purchased under this section."

Section 13. Section 19-20-410, MCA, is amended to read:

"19-20-410. Creditable service for extension service employment. (1) (a) At any time before retirement, a member with 5 years or more of creditable service in the retirement system may file a written application with the retirement board to purchase up to 5 years of employment service with the Montana cooperative extension service, subject to the limitation contained in 19-20-405, if:

(i) the member became a member of the retirement system before July 1, 1989;

(ii) the service involved instructional service at a unit of the Montana university system; and

(iii) the member received a refund of membership contributions under the civil service retirement system or the federal employees' retirement system for the service to be purchased.

(b) For each year of service to be purchased under subsection (1)(a), the member shall contribute to the retirement system an amount equal to the combined employer and employee contribution rate in effect at the time that the member is eligible to purchase the service multiplied by the member's first full year's teaching salary earned after becoming a member of the retirement system, plus interest paid as follows:

(i) if a written application to purchase service was signed prior to July 1, 2012, at the rate that the contribution would have earned had the contribution been in the member's account upon the completion of 5 years of membership service; or

(ii) if a written application to purchase service is signed ~~[on or]~~ *on or* after July 1, 2012, at the actuarially assumed interest rate in effect on the date the written application is signed.

(2) In addition to service purchased under subsection (1) and subject to 19-20-407, a member who has purchased 5 years or more of creditable service in the retirement system may purchase additional years of cooperative extension service by contributing to the system the full actuarial cost of the service.

(3) Contributions to purchase service under this section may be made in a lump-sum payment or in installments as agreed upon by the member and the retirement board."

Section 14. Section 20-1-213, MCA, is amended to read:

"20-1-213. Transfer of school records. (1) Subject to the provisions of the Family Educational Rights and Privacy Act of 1974, 20 U.S.C. 1232g, as amended, and its implementing regulations at 34 CFR, part 99, and to the provisions of the Individuals With Disabilities Education Act, 20 U.S.C. 1411 through 1420, and its implementing regulations at 34 CFR, part 300, local educational agencies and accredited schools shall adopt a policy that a certified copy of the permanent file, as defined by the board of public education, and the file containing special education records of a student will be forwarded by mail or electronically to a local educational agency or accredited school in which the student seeks or intends to enroll within 5 working days after a receipt of a written or electronic request.

(2) If records cannot be forwarded within 5 days, the local educational agency or accredited school shall notify the requestor in writing or electronically providing the reasons why the local educational agency or accredited school is unable to comply within the 5-day timeframe and the local educational agency or accredited school shall provide the date by which the requested records will be transferred.

(3) A local educational agency or accredited school may not refuse to transfer files because a student owes fines or fees.

(4) The files that are forwarded must include education records in the permanent file, special education records, and any disciplinary actions taken against the student that are educationally related.

(5) A local educational agency or accredited school may release student information to the juvenile justice system to assist the system's ability to effectively serve, prior to adjudication, the student whose records are released

"39-71-703. Compensation for permanent partial disability. (1) If an injured worker suffers a permanent partial disability and is no longer entitled to temporary total or permanent total disability benefits, the worker is entitled to a permanent partial disability award if that worker:

(a) has an actual wage loss as a result of the injury; and

(b) has a permanent impairment rating as determined by the sixth edition of the American medical association Guides to the Evaluation of Permanent Impairment for the ratable condition. The ratable condition must be a direct result of the compensable injury or occupational disease that:

(i) is not based exclusively on complaints of pain;

(ii) is established by objective medical findings; and

(iii) is more than zero.

(2) When a worker receives a Class 2 or greater class of impairment as converted to the whole person, as determined by the sixth edition of the American medical association Guides to the Evaluation of Permanent Impairment for the ratable condition, and has no actual wage loss as a result of the compensable injury or occupational disease, the worker is eligible to receive payment for an impairment award only.

(3) The permanent partial disability award must be arrived at by multiplying the percentage arrived at through the calculation provided in subsection (5) by 400 weeks.

(4) A permanent partial disability award granted an injured worker may not exceed a permanent partial disability rating of 100%.

(5) The percentage to be used in subsection (4) must be determined by adding all of the following applicable percentages to the whole person impairment rating:

(a) if the claimant is 40 years of age or younger at the time of injury, 0%; if the claimant is over 40 years of age at the time of injury, 1%;

(b) for a worker who has completed less than 12 years of education, 1%; for a worker who has completed 12 years or more of education or who has received a ~~graduate~~ *high school* equivalency diploma, 0%;

(c) if a worker has no actual wage loss as a result of the industrial injury, 0%; if a worker has an actual wage loss of $2 or less an hour as a result of the

industrial injury, 10%; if a worker has an actual wage loss of more than $2 an hour as a result of the industrial injury, 20%. Wage loss benefits must be based on the difference between the actual wages received at the time of injury and the wages that the worker earns or is qualified to earn after the worker reaches maximum healing.

(d) if a worker, at the time of the injury, was performing heavy labor activity and after the injury the worker can perform only light or sedentary labor activity, 5%; if a worker, at the time of injury, was performing heavy labor activity and after the injury the worker can perform only medium labor activity, 3%; if a worker was performing medium labor activity at the time of the injury and after the injury the worker can perform only light or sedentary labor activity, 2%.

(6) The weekly benefit rate for permanent partial disability is 66 2/3% of the wages received at the time of injury, but the rate may not exceed one-half the state's average weekly wage. The weekly benefit amount established for an injured worker may not be changed by a subsequent adjustment in the state's average weekly wage for future fiscal years.

(7) An undisputed impairment award may be paid biweekly or in a lump sum at the discretion of the worker. Lump sums paid for impairments are not subject to the requirements of 39-71-741, except that lump-sum payments for benefits not accrued may be reduced to present value at the rate established by the department pursuant to 39-71-741(5).

(8) If a worker suffers a subsequent compensable injury or injuries to the same part of the body, the award payable for the subsequent injury may not duplicate any amounts paid for the previous injury or injuries.

(9) If a worker is eligible for a rehabilitation plan, permanent partial disability benefits payable under this section must be calculated based on the wages that the worker earns or would be qualified to earn following the completion of the rehabilitation plan.

(1) Prior to the insurer's designation or approval of a treating physician as provided in subsection (2) or a referral to a managed care organization or preferred provider organization as provided in subsection (8), a worker may choose a person who is listed in 39-71-116(41) for initial treatment. Subject to subsection (2), if the person listed under 39-71-116(41) chosen by the worker agrees to comply with the requirements of subsection (2), that person is the treating physician.

(2) Any time after acceptance of liability by an insurer, the insurer may designate or approve a treating physician who agrees to assume the

responsibilities of the treating physician. The designated or approved treating physician:

(a) is responsible for coordinating the worker's receipt of medical services as provided in 39-71-704;

(b) shall provide timely determinations required under this chapter, including but not limited to maximum medical healing, physical restrictions, return to work, and approval of job analyses, and shall provide documentation;

(c) shall provide or arrange for treatment within the utilization and treatment guidelines or obtain prior approval for other treatment; and

(d) shall conduct or arrange for timely impairment ratings.

(3) The treating physician may refer the worker to other health care providers for medical services, as provided in 39-71-704, for the treatment of a worker's compensable injury or occupational disease. A health care provider to whom the worker is referred by the designated treating physician is not responsible for coordinating care or providing determinations as required of the treating physician.

(4) The treating physician designated or approved by the insurer must be reimbursed at 110% of the department's fee schedule.

(5) A health care provider to whom the worker is referred by the treating physician must be reimbursed at 90% of the department's fee schedule.

(6) A health care provider providing health care on a compensable claim prior to the designation or approval of the treating physician by the insurer must be reimbursed at 100% of the department's fee schedule.

(8) The insurer may direct the worker to a managed care organization or a preferred provider organization for designation of the treating physician.

(9) After the insurer directs a worker to a managed care organization or preferred provider organization, a health care provider who otherwise qualifies as a treating physician but who is not a member of a managed care organization may not provide treatment unless authorized by the insurer.

(10) After the date that a worker ~~[whose injury is]~~ subject to the provisions of subsection (9) receives individual written notice of a referral, the worker must, unless otherwise authorized by the insurer, receive medical services from the organization designated by the insurer, in accordance with 39-71-1102 and 39-71-1104. The designated treating physician in the organization then becomes the worker's treating physician. The insurer is not liable for medical services obtained otherwise, except that a worker may receive immediate emergency medical treatment for a compensable injury from a health care provider who is not a member of a managed care organization or a preferred provider organization.

(11) Posting of managed care requirements in the workplace on bulletin boards, in personnel policies, in company manuals, or by other general or broadcast means does not constitute individual written notice. To constitute individual written notice under this section, information regarding referral to a managed care organization must be provided to the worker in written form by mail or in person after the date of injury or occupational disease."

(4) A taxpayer who, in determining federal adjusted gross income, has reduced the taxpayer's business deductions by an amount for wages and salaries for which a federal tax credit was elected under sections 38 and 51(a) of the Internal Revenue Code, 26 U.S.C. 38 and 51(a), is allowed to deduct the amount of the wages and salaries paid regardless of the credit taken. The deduction must be made in the year that the wages and salaries were used to compute the credit. In the case of a partnership or small business corporation, the deduction must be made to determine the amount of income or loss of the partnership or small business corporation.

(5) Married taxpayers filing a joint federal return who are required to include part of their social security benefits or part of their tier 1 railroad retirement benefits in federal adjusted gross income may split the federal base used in calculation of federal taxable social security benefits or federal taxable tier 1 railroad retirement benefits when they file separate Montana income tax returns. The federal base must be split equally on the Montana return.

(6) Married taxpayers filing a joint federal return who are allowed a capital loss deduction under section 1211 of the Internal Revenue Code, 26 U.S.C. 1211, and who file separate Montana income tax returns may claim the same amount of the capital loss deduction that is allowed on the federal return. If the allowable capital loss is clearly attributable to one spouse, the loss must be shown on that spouse's return; otherwise, the loss must be split equally on each return.

(7) In the case of passive and rental income losses, married taxpayers filing a joint federal return and who file separate Montana income tax returns are not required to recompute allowable passive losses according to the federal passive activity rules for married taxpayers filing separately under section 469 of the Internal Revenue Code, 26 U.S.C. 469. If the allowable passive loss is clearly attributable to one spouse, the loss must be shown on that spouse's return; otherwise, the loss must be split equally on each return.

(8) Married taxpayers filing a joint federal return in which one or both of the taxpayers are allowed a deduction for an individual retirement contribution under section 219 of the Internal Revenue Code, 26 U.S.C. 219, and who file separate Montana income tax returns may claim the same amount of the deduction that is allowed on the federal return. The deduction may be split equally on each return or in proportion to each taxpayer's share of federal adjusted gross income.

(b) Married taxpayers filing a joint federal return who are allowed a deduction for qualified tuition and related expenses under section 222 of the Internal Revenue Code, 26 U.S.C. 222, and who file separate Montana income tax returns may claim the same amount of the deduction that is allowed on the federal return. The deduction may be split equally on each return or in proportion to each taxpayer's share of federal adjusted gross income.

(10) A taxpayer receiving retirement disability benefits who has not attained 65 years of age by the end of the tax year and who has retired as permanently and totally disabled may exclude from adjusted gross income up to $100 a week received as wages or payments in lieu of wages for a period during which the employee is absent from work due to the disability. If the adjusted gross income before this exclusion exceeds $15,000, the excess reduces the exclusion by an equal amount. This limitation affects the amount of exclusion, but not the taxpayer's eligibility for the exclusion. If eligible, married individuals shall apply the exclusion separately, but the limitation for income exceeding $15,000 is determined with respect to the spouses on their combined adjusted gross income. For the purpose of this subsection, "permanently and totally disabled" means unable to engage in any substantial gainful activity by reason of any medically determined physical or mental impairment lasting or expected to last at least 12 months.

(11) (a) An individual who contributes to one or more accounts established under the Montana family education savings program or to a qualified tuition program established and maintained by another state as provided by section 529(b)(1)(A)(ii) of the Internal Revenue Code, 26 U.S.C. 529(b)(1)(A)(ii), may reduce adjusted gross income by the lesser of $3,000 or the amount of the contribution. In the case of married taxpayers, each spouse is entitled to a reduction, not in excess of $3,000, for the spouses' contributions to the accounts. Spouses may jointly elect to treat half of the total contributions made by the spouses as being made by each spouse. The reduction in adjusted gross income under this subsection applies only with respect to contributions to an account of which the account owner is the taxpayer, the taxpayer's spouse, or the taxpayer's child or stepchild if the taxpayer's child or stepchild is a Montana

resident. The provisions of subsection (1)(e) do not apply with respect to withdrawals of contributions that reduced adjusted gross income.

(b) Contributions made pursuant to this subsection (11) are subject to the recapture tax provided in 15-62-208.

(12) (a) A taxpayer may exclude the amount of the loan payment received pursuant to subsection (12)(a)(iv), not to exceed $5,000, from the taxpayer's adjusted gross income if the taxpayer:

(i) is a health care professional licensed in Montana as provided in Title 37;

(ii) is serving a significant portion of a designated geographic area, special population, or facility population in a federally designated health professional shortage area, a medically underserved area or population, or a federal nursing shortage county as determined by the secretary of health and human services or by the governor;

(iii) has had a student loan incurred as a result of health-related education; and

(iv) has received a loan payment during the tax year made on the taxpayer's behalf by a loan repayment program described in subsection (12)(b) as an incentive to practice in Montana.

(b) For the purposes of subsection (12)(a), a loan repayment program includes a federal, state, or qualified private program. A qualified private loan repayment program includes a licensed health care facility, as defined in 50-5-101, that makes student loan payments on behalf of the person who is employed by the facility as a licensed health care professional.

(13) Notwithstanding the provisions of subsection (1), adjusted gross income does not include 40% of capital gains on the sale or exchange of capital assets before December 31, 1986, as capital gains are determined under subchapter P. of Chapter 1 of the Internal Revenue Code as it read on December 31, 1986.

(14) By November 1 of each year, the department shall multiply the amount of pension and annuity income contained in subsection (2)(c)(i) and the federal adjusted gross income amounts in subsection (2)(c)(ii) by the inflation factor for that tax year, but using the year 2009 consumer price index, and rounding the results to the nearest $10. The resulting amounts are effective for that tax year and must be used as the basis for the exemption determined under subsection (2)(c). (Subsection (2)(f) terminates on occurrence of contingency—sec. 3, Ch. 634, L. 1983; subsection (2)(o) terminates on occurrence of contingency—sec. 9, Ch. 262, L. 2001.)"

The report must contain the conclusions and recommendations that the examiners find reasonably warranted from the facts.

(2) Not later than 60 days following completion of the examination, the examiner in charge shall file with the department a verified written report of examination under oath. Upon receipt of the verified report, the department shall transmit the report to the company examined, together with a notice that gives the company examined a reasonable opportunity, but not more than 30 days, to make a written submission or rebuttal with respect to any matters contained in the examination report.

(3) Within 30 days of the end of the period allowed for the receipt of written submissions or rebuttals, the commissioner shall fully consider and review the report, together with any written submissions or rebuttals and any relevant portions of the examiner's workpapers and enter an order:

(a) adopting the examination report as filed or with modification or corrections. (5) (a) Upon the adoption of the examination report under subsection (3)(a), the commissioner shall continue to hold the content of the examination report as private and confidential information for a period of 30 days, except to the extent provided in subsection (2). After 30 days, the commissioner shall open the report for public inspection as long as a court of competent jurisdiction has not stayed its publication.

(b) This title does not prevent and may not be construed as prohibiting the commissioner from disclosing the content of an examination report or preliminary examination report, the results of an examination, or any matter relating to a report or results to the insurance department of this state or of any other state or country, to law enforcement officials of this state or of any other state, or to an agency of the federal government at any time as long as the agency or office receiving the report or matters relating to the report agrees ~~in writing~~ to hold it in a manner consistent with this part.

Persons given access to working papers shall agree ~~in writing~~, prior to receiving the information, to treat the information in the manner required by this section unless prior written consent has been obtained from the company to which the working papers pertain.

(2) If not continued by the insurer, the certificate of authority expires at midnight on May 31 following failure of the insurer to continue it in force. The commissioner shall promptly notify the insurer of its failure to pay the fee that can result in the expiration of its certificate of authority.

for implementation in Montana of a health insurance flexibility and accountability demonstration initiative and other demonstration projects through section 1115 waivers.

(2) The department may implement a demonstration project upon approval of a section 1115 waiver by the U.S. department of health and human services. The department may:

(a) coordinate a demonstration project with a program approved through a section 1915 waiver; or

(b) terminate and subsume in a new section 1115 waiver an existing managed care or access program approved through a section 1915(b) waiver, an optional state plan medicaid service authorized under 53-6-101, an optional state plan eligibility group authorized under 53-6-131, or an existing program approved by a section 1115 waiver, inclusive of the demonstration program authorized by 53-4-202 and Title 53, chapter 4, part 6, that is administered by the department.

(3) The department may amend the existing section 1115 demonstration project authorized in 53-4-601 and 53-6-101 to expand the demonstration project to implement the purposes of this section.

(4) The department may initiate and administer section 1115 waivers to more efficiently apply available state general fund money, other available state and local public and private funding, and federal money to the development and maintenance of medicaid-funded programs of health services and of other public assistance services and to structure those programs or services for more efficient and effective delivery to specific populations.

(5) (a) In establishing programs or services in a demonstration project approved through a section 1115 waiver, the department shall administer the expenditures under each demonstration project within the state spending authority that is available for that demonstration project. The department may limit enrollments in each program within a demonstration project, reduce the per capita expenditures available to enrollees, and modify and reduce the types and amounts of services available through each program when the department determines that expenditures can be reasonably expected to exceed the available state spending authority.

(b) The department shall develop a contingency plan if there is a spending cap as a condition of the waiver and the spending cap is exceeded. The contingency plan must address the effects on new programs, services, or eligibility groups.

(6) The department may coordinate the state children's health insurance program authorized under Title 53, chapter 4, part 10, with a section 1115 waiver for the purpose of increasing the state funding match available under the waiver and expanding the number of participants in the state children's health insurance program.

(7) The department, subject to the terms and conditions of the section 1115 waiver:

(a) shall establish the eligibility groups based upon the funding principles stated in 53-6-101(2);

(b) may provide medicaid coverage for one or more optional medicaid eligibility groups;

(c) may provide medicaid coverage for one or more specific populations of persons who are not within the federally authorized medicaid eligibility groups but who are within the requirements of subsection (8);

(d) may establish the service coverage, eligibility requirements, financial participation requirements, and other features for the administration and delivery of services to each section 1115 waiver eligibility group;

(e) shall set limits on the number of participants for each section 1115 waiver eligibility group;

(f) shall set limits on the total expenditures under each demonstration project; and

(g) shall set the limits on the total expenditures on the services to be provided to each section 1115 waiver eligibility group.

(8) The categories of persons that the department may consider for establishment as a section 1115 waiver eligibility group include but are not limited to:

(a) low-income parents of children who are eligible to participate in medicaid under 53-6-131 or in the state children's health insurance program authorized under Title 53, chapter 4, part 10;

~~(b) persons who because of low income and health-care needs are unable to procure health insurance coverage and are eligible to participate in a comprehensive health association plan authorized under Title 33, chapter 22, part 15;~~

~~(c)~~*(b)* children who because of limits on enrollment may not be covered through the state children's health insurance program authorized under Title 53, chapter 4, part 10;

~~(d)~~*(c)* children who are eligible to participate in the state children's health insurance program authorized under Title 53, chapter 4, part 10; and

~~(e)~~*(d)* other specific groups of persons who are participants in programs or services funded solely or primarily through state general funds or who the department determines are in need of specific types of health care and related services, such as prescription drugs, reproductive health care, and mental health services, and are without adequate financial means to procure health insurance coverage of those needs.

(9) Children participating in a section 1115 waiver eligibility group or children who would be eligible to participate in the state children's health insurance program are subject to the eligibility criteria applicable under 53-4-1004, except as provided in subsection (10) of this section, for participation in the state children's health insurance program and must receive benefits as provided through the state children's health insurance program under 53-4-1005.

(10) (a) Except as provided in this subsection (10), the eligibility for the section 1115 waiver eligibility groups may not exceed 150% of the federal poverty level.

(b) The department may establish eligibility at greater than 150% but no more than 200% of the federal poverty level for any of the following groups established for purposes of a section 1115 waiver:

(i) participants in the state children's health insurance program;

(ii) participants in a group that may be covered under the state children's health insurance program;

(iii) participants in a family planning program;

(iv) participants in a group composed of persons previously served through a program funded with state general fund money and other nonmedicaid money; or

(v) participants in a group composed of persons with a significant need for particular services that are not readily available to that population through insurance products or because of personal financial limitations.

(c) In establishing the eligibility criteria based upon federal poverty levels, the department shall select levels to ensure that the resulting expenditures will remain within the available funding and will conform with the terms and conditions of approval by the U.S. department of health and human services.

(d) The department may adopt additional programmatic and financial eligibility criteria for a section 1115 waiver eligibility group in order to appropriately define the subject population, to limit use for fiscal and programmatic purposes, to prevent improper use, and to conform the administration of the program with the terms and conditions of the section 1115 waiver.

(e) Eligibility criteria applicable to a section 1115 waiver eligibility group need not conform to the criteria applicable to another section 1115 waiver eligibility group or to a medicaid eligibility group that is not encompassed within the demonstration project.

(11) (a) For each section 1115 waiver eligibility group, the department shall establish the program benefit or benefits to be available to the participants in the group.

(b) Program benefits may be in the form of:

(i) assistance in the payment of health insurance premiums for health care coverage through an employer or other existing group coverage available to the program enrollee;

(ii) assistance in the payment of health insurance premiums for health care coverage that meets a set of defined standards and limitations adopted by the department in consultation with the commissioner of insurance and obtained from participating private insurers or through self-insured pools;

(iii) premium purchase for insurance coverage on behalf of children who are 18 years of age or younger for the defined set of health care and related services adopted by the department for the state children's health insurance program authorized in Title 53, chapter 4, part 10; or

(iv) coverage of a defined set of health care and related services administered directly by the department on a fee-for-service basis.

(c) The department may limit the types of program benefits available to enrollees in a program. For programs in which the department provides for more than one type of program benefit, the department may require that enrollees, either as a whole or on an individual basis based on certain circumstances, use certain types of program benefits in lieu of using other types of program benefits.

(d) The department shall, as necessary to maintain expenditures for a program within the available funding for that program, set monetary limitations on the total benefit amounts available on a periodic basis for an enrollee through that program, whether that benefit is in the form of premium assistance, premium purchase, or a set of covered services.

(12) The benefits for a section 1115 waiver eligibility group may be in the form of a defined set of covered services consisting of one or more of the mandatory and optional medicaid state plan services specified in 53-6-101 or other health-care related services. The department may select the types of services that constitute a defined set of covered services for a section 1115 waiver eligibility group. The department may provide coverage of a service not

specified in 53-6-101 if the department determines the service to be appropriate for the particular section 1115 waiver eligibility group. The department may define the nature, components, scope, amount, and duration of each covered service to be made available to a section 1115 waiver eligibility group. The nature, components, scope, amount, and duration of a covered service made available to a section 1115 waiver eligibility group need not conform to those aspects of that service as defined by the department for delivery as a covered service to another section 1115 waiver eligibility group or to a medicaid eligibility group that is not encompassed within a section 1115 waiver.

(13) The department may adopt financial participation requirements for enrollees in a section 1115 eligibility group to foster appropriate use among enrollees and to maintain the fiscal accountability of the program. The department may adopt financial participation requirements, including but not limited to copayments, payment of monthly or yearly enrollment fees, or deductibles. The requirements may vary among the section 1115 waiver eligibility groups. In adopting financial participation requirements for enrollees selecting coverage as provided in subsection (11)(b)(iv), the department may not adopt cost-sharing amounts that exceed the nominal deductible, coinsurance, copayment, or similar charges adopted by the department to apply to categorically or medically needy persons for a service pursuant to the state medicaid plan.

(14) The department shall adopt rules as necessary for the implementation of a section 1115 waiver. Rules may include but are not limited to:

(a) designation of programs and activities for implementation of a section 1115 waiver;

(b) features and benefit coverage of the programs;

(c) the nature, components, scope, amount, and duration of each program service;

(d) appropriate insurance products and coverage as benefits;

(e) required enrollee eligibility information;

(f) enrollee eligibility categories, criteria, requirements, and related measures;

(g) limits upon enrollment;

(h) requirements and limitations for service costs and expenditures;

(i) measures to ensure the appropriateness and quality of services to be delivered;

(j) provider requirements and reimbursement;

(k) financial participation requirements for enrollees;

(l) use measures; and

(m) other appropriate provisions necessary for administration of a demonstration project and for implementation of the conditions placed upon approval of a section 1115 waiver by the U.S. department of health and human services.

(15) The department shall administer the programs and activities that are subject to a section 1115 waiver in accordance with the terms and conditions of approval by the U.S. department of health and human services. The department may modify aspects of established programs and activities administered by the department as may be necessary to implement a section 1115 waiver as provided in this section.

(16) The department may seek an initial duration and durational extensions for a section 1115 waiver as the department determines appropriate for demonstration and fiscal considerations.

(17) The department shall provide a report to the legislature, as provided in 5-11-210, on the conditions of approval and the status of implementation for each section 1115 waiver approved by the U.S. department of health and human services. For any proposed section 1115 waiver not approved by the U.S. department of health and human services, the department shall provide to the next legislative session a report on the basis for disapproval and an analysis of the fiscal costs and programmatic impacts of serving the persons within the proposed section 1115 waiver eligibility groups through eligibility under one of the optional medicaid eligibility categories established in federal law and authorized by 53-6-131.

(18) The department shall present a section 1115 waiver proposal to the appropriate medicaid advisory council, which must include consumer advocates, prior to the submission of the proposal to the federal government.

(19) The department shall present a section 1115 waiver proposal to the house appropriations committee or, during the interim, the children, families, health, and human services interim committee for review and comment at a public hearing prior to the submission of the proposal to the federal government for formal approval and shall also present the section 1115 waiver after final approval from the federal government.

(20) (a) The department shall provide for a public comment period on the proposed section 1115 waiver at least 60 days before the submission of the section 1115 waiver application to the federal government for formal approval.

(b) The department shall give notice of the proposal by announcing the pending submittal, stating its general purpose, and informing the public that information on the proposal is available on the department's website.

(c) The department shall provide for public comment through electronic means or mail and shall provide for a public forum in at least one location at which members of the public can submit views on the proposal. The department shall consider comments received and make any appropriate changes to the waiver request before submitting it to the federal government.

(d) The department shall post on its website the waiver concept paper, formal correspondence regarding a waiver proposal, and the final approved waiver, including documents received from the center for medicare and medicaid services."

CHAPTER NO. 65

[HB 147]

AN ACT ADOPTING THE NURSE LICENSURE COMPACT; PROVIDING SUPPLEMENTAL PROVISIONS; AND PROVIDING RULEMAKING AUTHORITY.

Be it enacted by the Legislature of the State of Montana:

Section 1. Nurse licensure compact — enactment. The Nurse Licensure Compact is enacted into law and entered into with all jurisdictions legally joining in the compact, in the form substantially as set forth below.

Article I. Findings and Declaration of Purpose

(1) The party states find that:

(a) the health and safety of the public are affected by the degree of compliance with and the effectiveness of enforcement activities related to state nurse licensure laws;

(b) violations of nurse licensure and other laws regulating the practice of nursing may result in injury or harm to the public;

(c) the expanded mobility of nurses and the use of advanced communication technologies as part of our nation's healthcare delivery system require greater coordination and cooperation among states in the areas of nurse licensure and regulation;

(d) new practice modalities and technology make compliance with individual state nurse licensure laws difficult and complex;

(e) the current system of duplicative licensure for nurses practicing in multiple states is cumbersome and redundant to both nurses and states.

(2) The general purposes of this compact are to:

(a) facilitate the states' responsibility to protect the public's health and safety;

(b) ensure and encourage the cooperation of party states in the areas of nurse licensure and regulation;

(c) facilitate the exchange of information between party states in the areas of nurse regulation, investigation and adverse actions;

(d) promote compliance with the laws governing the practice of nursing in each jurisdiction;

(e) invest all party states with the authority to hold a nurse accountable for meeting all state practice laws in the state in which the patient is located at the time care is rendered through the mutual recognition of party state licenses.

Article II. Definitions

As used in this compact:

(1) "Adverse action" means a home or remote state action.

(2) "Alternative program" means a voluntary, non-disciplinary monitoring program approved by a nurse licensing board.

(3) "Coordinated licensure information system" means an integrated process for collecting, storing, and sharing information on nurse licensure and enforcement activities related to nurse licensure laws, which is administered by a non-profit organization composed of and controlled by state nurse licensing boards.

(4) "Current significant investigative information" means:

(a) investigative information that a licensing board, after a preliminary inquiry that includes notification and an opportunity for the nurse to respond if required by state law, has reason to believe is not groundless and, if proved true, would indicate more than a minor infraction; or

(b) investigative information that indicates that the nurse represents an immediate threat to public health and safety regardless of whether the nurse has been notified and had an opportunity to respond.

(5) "Home state" means the party state that is the nurse's primary state of residence.

(6) "Home state action" means any administrative, civil, equitable or criminal action permitted by the home state's laws which are imposed on a nurse by the home state's licensing board or other authority including actions against an individual's license such as: revocation, suspension, probation or any other action which affects a nurse's authorization to practice.

(7) "Licensing board" means a party state's regulatory body responsible for issuing nurse licenses.

(8) "Multistate licensure privilege" means current, official authority from a remote state permitting the practice of nursing as either a registered nurse or a licensed practical/vocational nurse in such party state. All party states have the authority, in accordance with existing state due process law, to take actions against the nurse's privilege such as revocation, suspension, probation or any other action that affects a nurse's authorization to practice.

(9) "Nurse" means a registered nurse or licensed practical/vocational nurse, as each party's state practice laws define those terms.

(10) "Party state" means any state that has adopted this compact.

(11) "Remote state" means a party state, other than the home state:

(a) where the patient is located at the time nursing care is provided; or

(b) in the case of the practice of nursing not involving a patient, in such party state where the recipient of nursing practice is located.

(12) "Remote state action" means:

(a) any administrative, civil, equitable or criminal action permitted by a remote state's laws which are imposed on a nurse by the remote state's licensing board or other authority including actions against an individual's multistate licensure privilege to practice in the remote state; and

(b) cease and desist and other injunctive or equitable orders issued by remote states or the licensing boards thereof.

(13) "State" means a state, territory, or possession of the United States, the District of Columbia or the Commonwealth of Puerto Rico.

(14) "State practice laws" means those individual party's state laws and regulations that govern the practice of nursing, define the scope of nursing practice, and create the methods and grounds for imposing discipline. "State practice laws" does not include the initial qualifications for licensure or requirements necessary to obtain and retain a license, except for qualifications or requirements of the home state.

Article III. General Provisions and Jurisdiction

(1) A license to practice registered nursing issued by a home state to a resident in that state will be recognized by each party state as authorizing a multistate licensure privilege to practice as a registered nurse in such party state. A license to practice licensed practical/vocational nursing issued by a home state to a resident in that state will be recognized by each party state as authorizing a multistate licensure privilege to practice as a licensed practical/vocational nurse in such party state. In order to obtain or retain a license, an applicant must meet the home state's qualifications for licensure and license renewal as well as all other applicable state laws.

(2) Party states may, in accordance with state due process laws, limit or revoke the multistate licensure privilege of any nurse to practice in their state and may take any other actions under their applicable state laws necessary to protect the health and safety of their citizens. If a party state takes such action, it shall promptly notify the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system shall promptly notify the home state of any such actions by remote states.

(3) Every nurse practicing in a party state must comply with the state practice laws of the state in which the patient is located at the time care is rendered. In addition, the practice of nursing is not limited to patient care, but shall include all nursing practice as defined by the state practice laws of a party state. The practice of nursing will subject a nurse to the jurisdiction of the nurse licensing board and the courts, as well as the laws, in that party state.

(4) This compact does not affect additional requirements imposed by states for advanced practice registered nursing. However, a multistate licensure privilege to practice registered nursing granted by a party state shall be recognized by other party states as a license to practice registered nursing if one is required by state law as a precondition for qualifying for advanced practice registered nurse authorization.

(5) Individuals not residing in a party state shall continue to be able to apply for nurse licensure as provided for under the laws of each party state. However, the license granted to these individuals will not be recognized as granting the privilege to practice nursing in any other party state unless explicitly agreed to by that party state.

Article IV. Applications for Licensure in a Party State

(1) Upon application for a license, the licensing board in a party state shall ascertain, through the coordinated licensure information system, whether the applicant has ever held, or is the holder of, a license issued by any other state, whether there are any restrictions on the multistate licensure privilege, and whether any other adverse action by any state has been taken against the license.

(2) A nurse in a party state shall hold licensure in only one party state at a time, issued by the home state.

(3) A nurse who intends to change primary state of residence may apply for licensure in the new home state in advance of such change. However, new licenses will not be issued by a party state until after a nurse provides evidence of change in primary state of residence satisfactory to the new home state's licensing board.

(4) When a nurse changes primary state of residence by:

(a) moving between two party states, and obtains a license from the new home state, the license from the former home state is no longer valid;

(b) moving from a non-party state to a party state, and obtains a license from the new home state, the individual state license issued by the non-party state is not affected and will remain in full force if so provided by the laws of the non-party state;

(c) moving from a party state to a non-party state, the license issued by the prior home state converts to an individual state license, valid only in the former home state, without the multistate licensure privilege to practice in other party states.

Article V. Adverse Actions

In addition to the general provisions described in Article III, the following provisions apply:

(1) The licensing board of a remote state shall promptly report to the administrator of the coordinated licensure information system any remote state actions including the factual and legal basis for such action, if known. The licensing board of a remote state shall also promptly report any significant current investigative information yet to result in a remote state action. The administrator of the coordinated licensure information system shall promptly notify the home state of any such reports.

(2) The licensing board of a party state shall have the authority to complete any pending investigations for a nurse who changes primary state of residence during the course of such investigations. It shall also have the authority to take appropriate action(s), and shall promptly report the conclusions of such investigations to the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system shall promptly notify the new home state of any such actions.

(3) A remote state may take adverse action affecting the multistate licensure privilege to practice within that party state. However, only the home state shall have the power to impose adverse action against the license issued by the home state.

(4) For purposes of imposing adverse action, the licensing board of the home state shall give the same priority and effect to reported conduct received from a remote state as it would if such conduct had occurred within the home state. In so doing, it shall apply its own state laws to determine appropriate action.

(5) The home state may take adverse action based on the factual findings of the remote state, so long as each state follows its own procedures for imposing such adverse action.

(6) Nothing in this compact shall override a party state's decision that participation in an alternative program may be used in lieu of licensure action and that such participation shall remain non-public if required by the party state's laws. Party states must require nurses who enter any alternative programs to agree not to practice in any other party state during the term of the alternative program without prior authorization from such other party state.

Article VI. Additional Authorities Invested
in Party State Nurse Licensing Boards

Notwithstanding any other powers, party state nurse licensing boards shall have the authority to:

(1) if otherwise permitted by state law, recover from the affected nurse the costs of investigations and disposition of cases resulting from any adverse action taken against that nurse;

(2) issue subpoenas for both hearings and investigations which require the attendance and testimony of witnesses, and the production of evidence. Subpoenas issued by a nurse licensing board in a party state for the attendance and testimony of witnesses, and/or the production of evidence from another party state, shall be enforced in the latter state by any court of competent jurisdiction, according to the practice and procedure of that court applicable to subpoenas issued in proceedings pending before it. The issuing authority shall pay any witness fees, travel expenses, mileage, and other fees required by the service statutes of the state where the witnesses and/or evidence are located.

(3) issue cease and desist orders to limit or revoke a nurse's authority to practice in their state;

(4) promulgate uniform rules and regulations as provided for in Article VIII.

Article VII. Coordinated Licensure Information System

(1) All party states shall participate in a cooperative effort to create a coordinated data base of all licensed registered nurses and licensed practical/vocational nurses. This system will include information on the licensure and disciplinary history of each nurse, as contributed by party states, to assist in the coordination of nurse licensure and enforcement efforts.

(2) Notwithstanding any other provision of law, all party states' licensing boards shall promptly report adverse actions, actions against multistate licensure privileges, any current significant investigative information yet to result in adverse action, denials of applications, and the reasons for such denials, to the coordinated licensure information system.

(3) Current significant investigative information must be transmitted through the coordinated licensure information system only to party state licensing boards.

(4) Notwithstanding any other provision of law, all party states' licensing boards contributing information to the coordinated licensure information system may designate information that may not be shared with non-party states or disclosed to other entities or individuals without the express permission of the contributing state.

(5) Any personally identifiable information obtained by a party state's licensing board from the coordinated licensure information system may not be shared with non-party states or disclosed to other entities or individuals except to the extent permitted by the laws of the party state contributing the information.

(6) Any information contributed to the coordinated licensure information system that is subsequently required to be expunged by the laws of the party state contributing that information, shall also be expunged from the coordinated licensure information system.

(7) The compact administrators, acting jointly with each other and in consultation with the administrator of the coordinated licensure information system, shall formulate necessary and proper procedures for the identification, collection, and exchange of information under this compact.

Article VIII. Compact Administration and Interchange of Information

(1) The head of the nurse licensing board or a designee of each party state shall be the administrator of this compact for that state.

(2) The compact administrator of each party state shall furnish to the compact administrator of each other party state any information and documents including, but not limited to, a uniform data set of investigations, identifying information, licensure data, and disclosable alternative program participation information to facilitate the administration of this compact.

(3) Compact administrators shall have the authority to develop uniform rules to facilitate and coordinate implementation of this compact. These uniform rules must be adopted by party states, under the authority invested under Article VI.

Article IX. Entry into Force, Withdrawal and Amendment

(1) This compact shall enter into force and become effective as to any state when it has been enacted into the laws of that state. Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until six months after the withdrawing state has given notice of the withdrawal to the executive heads of all other party states.

(2) No withdrawal shall affect the validity or applicability by the licensing boards of states remaining party to the compact of any report of adverse action occurring prior to the withdrawal.

(3) Nothing contained in this compact must be construed to invalidate or prevent any nurse licensure agreement or other cooperative arrangement between a party state and a non-party state that is made in accordance with the other provisions of this compact.

(4) This compact may be amended by the party states. No amendment to this compact shall become effective and binding upon the party states unless and until it is enacted into the laws of all party states.

Article X. Construction and Severability

(1) This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any party state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state party thereto, the compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the party state affected as to all severable matters.

(2) In the event party states find a need for settling disputes arising under this compact:

(a) The party states may submit the issues in dispute to an arbitration panel which will be comprised of an individual appointed by the compact administrator in the home state; an individual appointed by the compact administrator in the remote state(s) involved; and an individual mutually agreed upon by the compact administrators of all the party states involved in the dispute.

(b) The decision of a majority of the arbitrators shall be final and binding.

Section 2. Supplemental provisions. (1) A person who is extended the privilege to practice nursing in this state pursuant to the Nurse Licensure Compact:

(a) shall use a title authorized under Title 37, chapter 8, part 4, that is appropriate to the person's qualifications; and

(b) is subject to the same investigatory and disciplinary procedures as a person who is otherwise licensed to practice nursing under this chapter.

(2) The Nurse Licensure Compact is not intended to supersede state labor laws or relieve any employer from complying with statutory obligations.

(3) The executive director provided for in 37-8-204 shall serve as the administrator of the Nurse Licensure Compact for this state.

Section 3. Codification instruction. [Sections 1 and 2] are intended to be codified as an integral part of Title 37, chapter 8, and the provisions of Title 37, chapter 8, apply to [sections 1 and 2].

[SB 28]

AN ACT ELIMINATING CONDITIONS ON STATE REVOLVING LOAN FUND PROGRAMS NO LONGER REQUIRED BY FEDERAL LAW; AMENDING SECTIONS 75-5-1113 AND 75-6-224, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 75-5-1113, MCA, is amended to read:

"75-5-1113. Conditions on loans. (1) Upon approval of a project by the department, the department of natural resources and conservation may lend amounts on deposit in the revolving fund to a municipality or private person to pay part or all of the cost of a project or to buy or refinance an outstanding obligation of a municipality that was issued to finance a project. The loan is subject to the municipality or private person complying with the following conditions:

(a) meeting requirements of financial capability set by the department of natural resources and conservation to ensure sufficient revenue to operate and maintain the project for its useful life and to repay the loan, including the establishment and maintenance by the municipality of a reserve or revolving fund to secure the payment of principal of and interest on the loan to the extent permitted by the applicable law governing the municipality's obligation;

(b) agreeing to operate and maintain the project properly over its structural and material design life, which may not be less than the term of the loan;

(c) agreeing to maintain proper financial records in accordance with generally accepted accounting standards and agreeing that all records are subject to audit;

(d) meeting the requirements listed in the federal act for projects constructed with funds directly made available by federal capitalization grants;

(e) providing legal assurance that all necessary property titles, easements, and rights-of-way have been obtained to construct, operate, and maintain the project;

(f) submitting an engineering report evaluating the proposed project, including information demonstrating its cost-effectiveness and environmental information necessary for the department and the department of natural

resources and conservation to fulfill their responsibilities under the Montana Environmental Policy Act and rules adopted to implement that act;

(g) complying with plan and specification requirements and other requirements established by the department; and

(h) providing for proper construction inspection and project management.

(2) ~~(a)~~ Each loan, unless prepaid, is payable subject to the limitations of the federal act, with interest paid in annual or more frequent installments~~, the first of which must be received not more than 1 year after the completion date of the project and, except as provided in subsection (2)(b), the last of which must be received not more than 20 years after the completion date~~.

~~(b) If the applicant is a disadvantaged community, as defined by rule, that has qualified for and applied for a loan subsidy, the department may determine that the last installment must be received not more than 30 years after the completion date of the project if the period of the loan does not exceed the expected design life of the project being financed.~~

(3) (a) Subject to the limitations of the federal act, the interest rate on a loan must ensure that the interest payments on the loan and on other outstanding loans will be sufficient, if paid timely and in full, with other available funds in the revolving fund, including investment income, to enable the state to pay the principal of and interest on the bonds issued pursuant to 75-5-1121.

(b) The interest rate must be determined as of the date the loan is authorized by the department of natural resources and conservation.

(c) The rate may include any additional rate that the department of natural resources and conservation considers reasonable or necessary to provide a reserve for the repayment of the loans. The additional rate may be fixed or variable or may be calculated according to a formula, and it may differ from the rate established for any other loan. Once the reserve has been established at a level considered by the department to be reasonable and prudent for the loans outstanding, the department may use excess reserve payments to make grants to aid in the feasibility of projects.

(4) Each loan must be evidenced by a bond, note, or other evidence of indebtedness of the municipality or private person, in a form prescribed or approved by the department of natural resources and conservation, except that the bond, note, or other evidence must include provisions required by the federal act and must be consistent with the provisions of this part. The bond, note, or other evidence is not required to be identical for all loans. The department of natural resources and conservation may require that loans to private persons be further secured by a mortgage and other security interests in the project that is being financed or other forms of additional security as considered necessary, including personal guarantees and letters of credit.

(5) As a condition to making a loan, the department of natural resources and conservation, with the concurrence of the department, may impose a reasonable administrative fee that may be paid from the proceeds of the loan or other available funds of the municipality or private person. Administrative fees may be deposited:

(a) in a special administrative costs account that the department of natural resources and conservation may create for that purpose outside the revolving fund provided for in 75-5-1106; or

(b) in the administration account. Money deposited in the administration account established in 75-5-1106 must be used for the payment of administrative costs of the program. Money deposited in the special

administration costs account must be used for the payment of administrative costs of the program unless not required for that purpose, in which case the money may be transferred to other funds and accounts in the program."

Section 2. Section 75-6-224, MCA, is amended to read:

"75-6-224. Loan conditions. (1) Upon approval of an application by the department, the department of natural resources and conservation may lend amounts on deposit in the revolving fund to a public water system to pay part or all of the cost of a project. The loan is subject to the applicant complying with the following conditions:

(a) meeting requirements of financial capability set by the department of natural resources and conservation to ensure sufficient revenue to operate and maintain the project for its useful life and to repay the loan, including the establishment of a dedicated source of revenue and the establishment and maintenance by the applicant of a reserve or revolving fund to secure the payment of principal of and interest on the loan to the extent permitted by the applicable law governing the public water system or the applicant's financial authority;

(b) in the case of a system owned by a private person, in addition to establishing a dedicated source of revenue, which may include the pledge of accounts receivable, providing, as required by the department of natural resources and conservation, credit enhancements, a pledge of collateral, or other types of security, such as a corporate or personal guarantee;

(c) agreeing to operate and maintain the project properly over its structural and material design life, which may not be less than the term of the loan;

(d) agreeing to maintain proper financial records in accordance with generally accepted accounting standards and agreeing that all records are subject to audit;

(e) meeting the requirements listed in the federal act for projects constructed with funds directly made available by federal capitalization grants;

(f) providing legal assurance that all necessary property titles, easements, and rights-of-way have been obtained to construct, operate, and maintain the project;

(g) submitting an engineering report evaluating the proposed project, including information demonstrating its cost-effectiveness and environmental information necessary for the department and the department of natural resources and conservation to fulfill their responsibilities under the Montana Environmental Policy Act and rules adopted to implement that act;

(h) complying with plan, specification, and other requirements for public water systems established by the department;

(i) providing for proper construction inspection and project management; and

(j) meeting requirements of financial, managerial, and technical capability to maintain compliance with the federal act.

(2) Each loan, unless prepaid, is payable subject to the limitations of the federal act, with interest paid in annual or more frequent installments~~, the first of which must be received not more than 1 year after the completion date of the project and the last of which must be received not more than 20 years after the completion date. If the applicant is a disadvantaged community that has qualified and applied for a loan subsidy, the department may determine that the last installment must be received not more than 30 years after the completion~~

~~date, provided that the period of the loan does not exceed the expected design life of the project~~.

(3) (a) Subject to the limitations of the federal act, the interest rate on a loan must ensure that the interest payments on the loan and on other outstanding loans will be sufficient, if timely paid in full, with other available funds in the revolving fund, including investment income, to enable the state to pay the principal of and interest on the bonds issued pursuant to 75-6-225.

(b) The interest rate may include any additional rate that the department of natural resources and conservation considers reasonable or necessary to provide a reserve for the repayment of the loans. The additional rate may be fixed or variable, may be calculated according to a formula, and may differ from the rate established for any other loan. Once the reserve has been established at a level considered by the department to be reasonable and prudent for the amount of the loans outstanding, the department may use excess reserve payments to make grants to aid in the feasibility of projects.

(4) Each loan must be evidenced by a bond, note, or other evidence of indebtedness of the borrower, in a form prescribed or approved by the department of natural resources and conservation, except that the bond, note, or other evidence must include provisions required by the federal act and must be consistent with the provisions of this part. The bond, note, or other evidence is not required to be identical for all loans.

(5) As a condition to making a loan, the department of natural resources and conservation, with the concurrence of the department, may impose a reasonable administrative fee that may be paid from the proceeds of the loan or other available funds of the municipality or private person. Administrative fees may be deposited:

(a) in a special administrative costs account that the department of natural resources and conservation may create for that purpose outside the revolving fund provided for in 75-6-211; or

(b) in the administrative account provided for in 75-6-211. In determining into which account the administrative fees are deposited, the department shall take into consideration the needs and requirements of the programs. Money deposited in the special administrative costs account or the administration account must be used for the payment of administrative costs of the program."

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 39-51-1307, MCA, is amended to read:

"39-51-1307. Collection of unpaid taxes, penalties, and interest by offset. (1) To collect delinquent taxes, penalties, and interest, the department may direct the offset of any funds due the debtor from the state, except wages

subject to the provisions of 25-13-614 and retirement benefits. The department, through the department of revenue, shall provide the debtor with notice of the right to request a hearing on the offset action. A request for hearing must be made within 30 days of the date of the notice.

(2) Subject to approval by the department, reasonable fees or costs of collection incurred by the department of revenue may be added to the amount of the debt, including added fees or costs. The debtor is liable for repayment of the amount of the debt plus fees or costs added pursuant to this subsection. All money collected must be returned to the department to be applied to the debt, except that all fees or costs collected must be retained by the department of revenue. If less than the full amount of the debt is collected, the department of revenue shall retain only a proportionate share of the collection fees or costs.

(3) The department may file a claim for state funds on behalf of the employer if a claim is required before funds are available for offset.

(4) The debt need not be determined to be uncollectible as provided for in 39-51-3207 before being transferred for offset.

(5) The department may direct the offset of funds owed to a person under 26 U.S.C. 6402 if the person owes a covered unemployment insurance tax debt. For the purposes of this subsection, "covered unemployment insurance tax debt" means:

(a) employer contributions, penalties, and interest owed to the unemployment insurance fund for which the department determines a person is liable and which remain uncollected; and

(b) any costs or processing fees associated with obtaining an offset for a covered unemployment insurance tax debt."

Section 2. Section 39-51-3206, MCA, is amended to read:

"39-51-3206. Collection of benefit overpayments. (1) A person who receives benefits not authorized by this chapter shall repay to the department either directly or, as authorized by the department, by offset of future benefits to which the claimant may be entitled, or by a combination of both methods, a sum equal to the amount of the overpayment.

(2) The department may collect a benefit overpayment and any penalty:

(a) by having the claimant pay the amount owed directly to the department by check, money order, credit card, debit card, or electronic funds transfer;

(b) by offsetting the amount of the overpaid benefits owed against future unemployment benefits to be received by the claimant; or

(c) as provided in 39-51-3208.

(3) The claimant is responsible for any:

(a) penalty established in accordance with 39-51-3201; ~~and~~

(b) costs or processing fees associated with using the repayment methods set out in subsection (2)(a)~~.~~*; and*

(c) costs or processing fees associated with obtaining an offset as provided in subsection (7)(a).

(4) *(a)* The department may enter into an agreement with a claimant *for:*

(i) ~~for~~ the repayment of any benefit overpayment and penalty ~~provided that~~ *if* repayment in full is made within 5 years of the date that it was established that an overpayment occurred~~.~~*; or*

(ii) a lump-sum repayment to collect a benefit overpayment if the benefit overpayment was not the result of a false claim, a misrepresentation, or failure to disclose a material fact by the claimant.

(b) The agreement must provide that:

(i) the lump-sum repayment amount is more than 50% of the amount due; and

(ii) the remaining unpaid amount of the benefit overpayment is a debt that is forgiven if the claimant does not, in conjunction with a claim for unemployment benefits, make a false claim or misrepresentation or fail to disclose a material fact during the 2-year period following the claimant's repayment of the lump-sum amount agreed to in subsection (4)(a)(ii).

(5) (a) Except as provided in subsection (5)(b), a benefit offset may not exceed 50% of the weekly benefits to which a claimant is entitled unless the claimant gives ~~written~~ consent.

(b) In cases of theft or fraud or when benefit overpayments have been made to winners of a state lottery as provided in 39-51-3208, benefits may be offset by as much as 100% of the weekly benefits to which a claimant is entitled.

(6) (a) The department may collect any benefit overpayment and penalty by directing the offset of any funds due the claimant from the state, except future unemployment benefits as provided in subsection (1) and retirement benefits. The department, through the department of revenue or through the state lottery commission established in 23-7-201 if overpayment is to be collected as provided in 39-51-3208, shall provide the claimant with notice of the right to request a hearing on the offset action. A request for hearing must be made within 30 days of the date of the notice.

(b) The debt does not have to be determined to be uncollectible before being transferred for offset.

(7) (a) The department may direct the offset of funds owed to a person under 26 U.S.C. 6402 if the person owes a covered unemployment compensation *benefit* debt.

(b) For the purposes of this subsection (7), "covered unemployment compensation *benefit* debt" means~~:~~

~~(i)~~ a benefit overpayment and penalty ~~owed because of the erroneous payment of unemployment compensation resulting from fraud, which~~ *that* has been adjudicated as a debt under Montana law and has remained uncollected ~~for not more than 10 years;~~ *and that is owed because of:*

(i) the erroneous payment of unemployment compensation resulting from the person's own fraud; or

(ii) ~~employer contributions, penalty, and interest owed to the unemployment trust fund that the department determines are attributable to fraud and that have remained uncollected for not more than 10 years.~~ *the person's failure to report earnings, irrespective of whether this failure constitutes fraud.*

(8) If, upon demand of the department, the claimant fails to make the payments provided for in this section, the unpaid benefit overpayment and associated penalty may be treated as a judgment against the claimant at the time the payments become due. The department may issue a certificate setting forth the amount of payment due and direct the clerk of the district court of any county in the state to enter the certificate as a judgment on the docket pursuant to 25-9-301. From the time the judgment is docketed, it becomes a lien upon all real property of the claimant. The department may enforce the judgment at any time within 10 years of creation of the lien.

(9) The department may waive the benefit overpayment if the department finds that:

(a) the claimant did not conceal or misrepresent material facts to obtain the overpaid benefits and that recovery of the benefit overpayment would cause a long-term financial hardship on the claimant; or

(b) the overpayment was the result of department error.

(10) An action for collection of overpaid benefits must be brought within 5 years after the date of the overpayment.

(11) Notwithstanding any other provision of this chapter, the department may recover an overpayment of benefits paid to any individual under the laws of this state or another state or under an unemployment benefit program of the United States."

Section 3. Effective date. [This act] is effective July 1, 2015.

Section 4. Retroactive applicability. [This act] applies retroactively, within the meaning of 1-2-109, to debts incurred on or before [the effective date of this act].

(8) The department shall provide employers assistance in accessing workforce and education services outside the scope of this chapter for which employees may be eligible. These additional services may not be used to replace a grant provided under this section once the contract has been finalized.

(9) (a) A contract with a grant recipient must contain provisions:

(iii) providing the department with annual reports and a final closeout report that documents the wages paid to an employee upon completion of the training.

(b) The contract must be signed by the person in the primary sector business who is assigned the duties and responsibilities for training and the overall success of the program and by the primary sector business's chief executive.

AN ACT REVISING REQUIREMENTS FOR MOTOR VEHICLE TIRE TRACTION DEVICES; REMOVING THE REQUIREMENT THAT TIRE TRACTION EQUIPMENT CONFORM TO RULES ESTABLISHED BY THE DEPARTMENT OF JUSTICE; AMENDING SECTIONS 61-9-406 AND 61-9-520, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 61-9-406, MCA, is amended to read:

"61-9-406. Restrictions as to tire equipment — particular tires, chains, or traction ~~equipment~~ *devices* — definitions. (1) A solid rubber tire on a vehicle must have rubber on its entire traction surface at least 1 inch thick above the edge of the flange of the entire periphery.

(2) A person may not operate or move on a highway a motor vehicle, trailer, or semitrailer having a metal tire in contact with the roadway.

(3) A tire on a vehicle moved on a highway may not have on its periphery a block, stud, flange, cleat, spike, or other protuberance of a material other than rubber that projects beyond the tread of the traction surface of the tire, except that it is permissible to use farm machinery with tires having protuberances that will not injure the highway. It is also permissible to use tire chains of

reasonable proportions or pneumatic tires, the traction surfaces of which have been embedded with material, such as wood, wire, plastic or metal, that may not protrude more than one-sixteenth of an inch beyond the tire tread or that are clearly marked by the manufacturer on the sidewall "all season m&s" (or "all season mud and snow"), upon a vehicle when required for safety because of snow, ice, or other conditions tending to cause a vehicle to skid. Except as provided in subsection (4), the use of pneumatic tires embedded as provided in this section is permitted only between October 1 and May 31 of each year, except that one of those tires may be used for a spare in case of tire failure. School buses equipped with such embedded pneumatic tires may operate from August 15 through the following June 15.

(4) Pneumatic tires that feature an embedded block, stud, flange, cleat, spike, or other protuberance that is retractable may be used at any time of the year. However, the protuberance may not be engaged or extended other than between October 1 and May 31 of each year on roads that do not contain ice or snow.

(5) The department of transportation and local authorities, as defined in 61-8-102, in their respective jurisdictions may in their discretion issue special permits authorizing the operation upon a highway of farm tractors or other farm machinery or of traction engines or tractors having movable tracks with transverse corrugations upon the periphery of the movable tracks, the operation of which upon the highway would otherwise be prohibited under this section.

(6) ~~If the~~ *The* department of transportation ~~determines~~ *may determine* at any time that dangerous or unsafe conditions on a highway require particular tires, tire chains, or traction ~~equipment~~ *devices* for vehicles in addition to or beyond the ordinary pneumatic rubber tires~~, the department may establish the following recommendations or requirements with respect to the use of the equipment for all vehicles using the highway:~~

~~(a) chains or other approved traction devices recommended for driver wheels;~~

~~(b) chains or other approved traction devices required for driver wheels; or~~

~~(c) chains required for driver wheels.~~

~~(7) Equipment required by subsection (6)(b) or (6)(c) must conform to rules established by the department of justice~~.

~~(8)~~*(7)* The department of transportation shall place and maintain signs and other traffic control devices on a highway designated under subsection (6) that indicate the tire, tire chain, or traction ~~equipment recommendation or~~ *device* requirement determined for vehicles. The signs or traffic control devices may not prohibit the use of pneumatic tires embedded as provided in subsection (3) between October 1 and May 31 of each year, but when the department of transportation determines that chains are required and that no other traction ~~equipment~~ *devices* will suffice, the requirement is applicable to tires on driver wheels of one axle, as defined in 61-10-104, of a vehicle, including embedded tires. The signs or traffic control devices may differentiate in ~~recommendations or~~ requirements for four-wheel-drive vehicles in gear.

~~(9)~~*(8)* As used in this section:

(a) "metal tire" means a tire the surface of which in contact with the highway is wholly or partly metal or other hard, nonresilient material; and

(b) "pneumatic tire" means a tire in which compressed air or nitrogen is designed to support the load."

Section 2. Section 61-9-520, MCA, is amended to read:

"61-9-520. Violation of tire chain or traction device use — penalty. (1) A person violating the provisions of ~~61-9-406(5) through~~ *61-9-406(6) and* (7) is guilty of the nonmoving offense of failure to use chains or approved traction devices when required and upon conviction shall be punished by a fine of $25, and no jail sentence may be imposed. Bond for this offense shall be $25.

(2) A violation of ~~61-9-406(5) through~~ *61-9-406(6) and* (7) is not a misdemeanor subject to 45-2-101, 61-9-511, 61-9-512, or 61-9-519."

(4) The prohibitions under subsections (1) and (2) do not apply to an active, retired, or honorably separated member of the United States armed forces as described in [section 1(1)(a)] or to a spouse, surviving spouse, dependent, or heir of a United States armed forces member as provided in [section 1].

[SB 49]

AN ACT EXPANDING WHERE A PETROLEUM MIXING ZONE MAY BE USED; PROVIDING RULEMAKING AUTHORITY; AMENDING SECTIONS 75-11-307 AND 75-11-508, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 75-11-307, MCA, is amended to read:

"75-11-307. Reimbursement for expenses caused by release. (1) Subject to the availability of money from the fund under subsection (6), an owner or operator who is eligible under 75-11-308 and who complies with 75-11-309 and any rules adopted to implement those sections must be reimbursed by the board from the fund for the following eligible costs caused by a release from a petroleum storage tank:

(a) corrective action costs as required by a department-approved corrective action plan, except that if the corrective action plan:

(i) addresses releases of substances other than petroleum products from an eligible petroleum storage tank, the board may reimburse only the costs that would have reasonably been incurred if the only release at the site was the release of the petroleum or petroleum products from the eligible petroleum storage tank; or

(ii) includes the establishment of a petroleum mixing zone, as defined in 75-11-503, the board may reimburse the cost of an easement established pursuant to 75-11-508~~(3)(a)~~; and

(b) compensation paid to third parties for bodily injury or property damage. The board may not reimburse for property damage until the corrective action is completed.

(2) An owner or operator may not be reimbursed from the fund for the following expenses:

(a) corrective action costs or the costs of bodily injury or property damage paid to third parties that are determined by the board to be ineligible for reimbursement;

(b) costs for bodily injury and property damage, other than corrective action costs, incurred by the owner or operator;

(c) penalties or payments for damages incurred under actions by the department, board, or federal, state, local, or tribal agencies or other government entities involving judicial or administrative enforcement activities and related negotiations;

(d) attorney fees and legal costs of the owner, the operator, or a third party;

(e) costs for the repair or replacement of a tank or piping or costs of other materials, equipment, or labor related to the operation, repair, or replacement of a tank or piping;

(f) expenses incurred before April 13, 1989, for owners or operators seeking reimbursement from the petroleum tank release cleanup fund and expenses incurred before May 15, 1991, for owners or operators seeking reimbursement from the petroleum tank release cleanup fund for a tank storing heating oil for consumptive use on the premises where it is stored or for a farm or residential tank with a capacity of 1,100 gallons or less that is used for storing motor fuel for noncommercial purposes;

(g) expenses exceeding the maximum reimbursements provided for in subsection (4);

(h) costs for which an owner or operator has received reimbursement or payment from an insurer or other third party; and

(i) expenses for work completed by or on behalf of the owner or operator more than 5 years prior to the owner's or operator's request for reimbursement. This limitation does not apply to claims for compensation paid to third parties for bodily injury or property damage. The running of the 5-year limitation period is suspended by an appeal of the board's denial of eligibility for reimbursement. If a written request for hearing is filed under 75-11-309, the suspension of the 5-year limitation period is effective from the date of the board's initial eligibility denial to the date on which the initial eligibility denial is overturned or reversed by the board, a district court, or the state supreme court, whichever occurs latest. The board may grant reasonable extensions of this limitation period if it is shown that the need for the extension is not due to the negligence of the owner or operator or agent of the owner or operator.

(3) An owner or operator may designate a person as an agent to receive the reimbursement if the owner or operator remains legally responsible for all costs and liabilities incurred as a result of the release.

(4) Subject to the availability of funds under subsection (6):

(a) for releases eligible for reimbursement from the fund that are discovered and reported on or after April 13, 1989, from a tank storing heating oil for consumptive use on the premises where it is stored or from a farm or residential tank with a capacity of 1,100 gallons or less that is used for storing motor fuel for noncommercial purposes, the board shall reimburse an owner or operator for:

(i) 100% of the eligible costs, up to a maximum total reimbursement of $500,000, for properly designed and installed double-walled tank system releases that were discovered and reported on or after October 1, 1993, and before October 1, 2009; or

(ii) 50% of the first $10,000 of eligible costs and 100% of subsequent eligible costs, up to a maximum total reimbursement of $495,000 for all other releases; and

(b) for all other releases eligible for reimbursement from the fund that are discovered and reported on or after April 13, 1989, the board shall reimburse an owner or operator for:

(i) 100% of the eligible costs, up to a maximum total reimbursement of $1 million, for properly designed and installed double-walled tank system releases that were discovered and reported on or after October 1, 1993, and before October 1, 2009; or

(ii) 50% of the first $35,000 of eligible costs and 100% of subsequent eligible costs, up to a maximum total reimbursement of $982,500 for all other releases.

(5) If an insurer pays or reimburses an owner or operator for costs that qualify as eligible costs under subsection (1), the costs paid or reimbursed by the insurer:

(a) are considered to have been paid by the owner or operator toward satisfaction of the 50% share requirements of subsection (4)(a)(ii) or (4)(b)(ii) if the owner or operator receives the payment or reimbursement before applying for reimbursement from the board;

(b) are not reimbursable from the fund; and

(c) except for the amount considered to have been paid by the owner or operator pursuant to subsection (5)(a), are considered to have been reimbursed from the fund for purposes of determining when the board has paid the maximum amount payable from the fund under subsection (4)(a)(ii) or (4)(b)(ii).

(6) If the fund does not contain sufficient money to pay approved claims for eligible costs, a reimbursement may not be made and the fund and the board are not liable for making any reimbursement for the costs at that time. When the fund contains sufficient money, eligible costs must be reimbursed subsequently in the order in which they were approved by the board."

(4) Monitoring of a petroleum mixing zone may not be required unless there is a unique, overriding, site-specific, impact-related reason to require monitoring.

(5) At the downgradient boundary of a petroleum mixing zone, the concentration of any petroleum constituent, including benzene, may not exceed a water quality standard adopted by the board pursuant to 75-5-301.

If an offender resides in more than one location within the same county or municipality, the registration agency ~~may~~ *shall* require the offender to provide all of the locations where the offender regularly resides and to designate one of them as the offender's primary residence.

(b) Registration of more than one residence pursuant to this section is an exception from the single residence rule provided in 1-1-215.

(5) A transient shall report monthly, in person, to the registration agency with which the transient registered pursuant to subsection (1)(d). The transient shall report on a day specified by the registration agency and during the normal business hours of that agency. On that day, the transient shall provide the registration agency with the information listed in subsections (3)(a) through ~~(3)(g)~~ *(3)(h)*. The registration agency to which the transient reports may also require the transient to provide the locations where the transient stayed during the previous 30 days and may stay during the next 30 days.

(6) (a) The department of justice shall mail a registration verification form:

(i) each 90 days to an offender designated as a level 3 offender under 46-23-509;

(iii) each year to a violent offender or an offender designated as a level 1 offender under 46-23-509.

(b) If the offender is a transient, the department of justice shall mail the offender's registration verification form to the registration agency with which the offender last registered.

(c) The form must require the offender's notarized signature. Section 5. Section 46-23-509, MCA, is amended to read:

"46-23-509. Sexual offender evaluations and designations — rulemaking authority. (1) The department shall adopt rules for the qualification of sexual offender evaluators who conduct ~~sexual offender and sexually violent predator~~ *psychosexual* evaluations *of sexual offenders and sexually violent predators* and for determinations by sexual offender evaluators of the risk of a repeat offense and the threat that an offender poses to the public safety.

(2) Prior to sentencing of a person convicted of a sexual offense, the department or a sexual offender evaluator shall provide the court with a ~~sexual offender~~ *psychosexual* evaluation report recommending one of the following levels of designation for the offender:

(a) level 1, the risk of a repeat sexual offense is low;

(b) level 2, the risk of a repeat sexual offense is moderate;

(c) level 3, the risk of a repeat sexual offense is high, there is a threat to public safety, and the sexual offender evaluator believes that the offender is a sexually violent predator.

(3) Upon sentencing the offender, the court shall:

(a) review the ~~sexual offender~~ *psychosexual* evaluation report, any statement by a victim, and any statement by the offender;

(b) designate the offender as level 1, 2, or 3; and

(c) designate a level 3 offender as a sexually violent predator.

(4) An offender designated as a level 2 offender or given a level designation by another state, the federal government, or the department under subsection

(6) that is determined by the court to be similar to level 2 may petition the sentencing court or the district court for the judicial district in which the offender resides to change the offender's designation if the offender has enrolled in and successfully completed the treatment phase of either the prison's sexual offender treatment program or of an equivalent program approved by the department. After considering the petition, the court may change the offender's risk level designation if the court finds by clear and convincing evidence that the offender's risk of committing a repeat sexual offense has changed since the time sentence was imposed. The court shall impose one of the three risk levels specified in this section.

(5) If, at the time of sentencing, the sentencing judge did not apply a level designation to a sexual offender who is required to register under this part and who was sentenced prior to October 1, 1997, the department shall designate the offender as level 1, 2, or 3 when the offender is released from confinement.

(6) If an offense is covered by 46-23-502(9)(b), the offender registers under 46-23-504(1)(c), and the offender was given a risk level designation after conviction by another state or the federal government, the department of justice may give the offender the risk level designation assigned by the other state or the federal government. *All offenders convicted in another state or by the federal government who are not currently under the supervision of the department or the youth court and were not given a risk level designation after conviction shall provide to the department of justice all prior risk assessments and psychosexual evaluations done to evaluate the offender's risk to reoffend. Any offender without a risk assessment or psychosexual evaluation shall, at the offender's expense, undergo a psychosexual evaluation with a sexual offender evaluator who is a member of the Montana sex offender treatment association or has comparable credentials acceptable to the department of labor and industry. The results of the sex offender evaluation may be requested by the attorney general or a county attorney for purposes of petitioning a district court to assign a risk level designation.*

(7) The lack of a fixed residence is a factor that may be considered by the sentencing court or by the department in determining the risk level to be assigned to an offender pursuant to this section.

(8) Upon obtaining information that indicates that a sexual offender who is required to register under this part does not have a level 1, 2, or 3 designation, the attorney general, the county attorney that prosecuted the offender and obtained a conviction for a sexual offense, or the county attorney for the county in which the offender resides may, at any time, petition the district court that sentenced the offender for a sexual offense or the district court for the judicial district in which the offender resides to designate the offender as level 1, 2, or 3. Upon the filing of the petition, the court may order a ~~sexual offender~~ *psychosexual* evaluation report at the petitioner's expense. The court shall provide the offender with an opportunity for a hearing prior to designating the offender. The petitioner shall provide the offender with notice of the petition and notice of the hearing."

The department of public health and human services must be given notice of a petition for grandparent-grandchild contact regarding a child who is the subject of, or as to whom a disposition has been made during, an administrative or court proceeding under Title 41 or this title.

(2) Before a court may grant a petition brought pursuant to this section for grandparent-grandchild contact over the objection of a parent whose parental rights have not been terminated, the court shall make a determination as to whether the objecting parent is a fit parent. Fitness must be determined on the basis of whether the parent adequately cares for the parent's child.

(3) Grandparent-grandchild contact may be granted over the objection of a parent determined by the court pursuant to subsection (2) to be unfit only if the court also determines by clear and convincing evidence that the contact is in the best interest of the child.

(B) will not present unreasonable risk of danger to the victim of the offense; and

(ii) the offender has paid all restitution and court-ordered financial obligations in full.

(b) Subsection ~~(5)(a)~~ *(6)(a)* does not prohibit a judge from revoking the order suspending execution or deferring imposition of sentence, as provided in 46-18-203, for a probationer who has been conditionally discharged from supervision.

(c) If the department certifies to the sentencing judge that the workload of a district probation and parole office has exceeded the optimum workload for the district over the preceding 60 days, the judge may not place an offender on probation under supervision by that district office unless the judge grants a conditional discharge to a probationer being supervised by that district office. [SB 96]

AN ACT EXPANDING THE USES OF THE ORPHAN SHARE ACCOUNT TO PAY CERTAIN REMEDIAL ACTION COSTS INCURRED BY THE DEPARTMENT OF ENVIRONMENTAL QUALITY; REQUIRING THE DEPARTMENT TO REPORT USE OF THE ACCOUNT TO THE ENVIRONMENTAL QUALITY COUNCIL; AMENDING SECTIONS 75-10-711 AND 75-10-743, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 75-10-711, MCA, is amended to read:

"75-10-711. Remedial action — orders — penalties — judicial proceedings. (1) The department may take remedial action whenever:

(a) there has been a release or there is a substantial threat of a release into the environment that may present an imminent and substantial endangerment to the public health, *safety, or* welfare~~, or safety~~ or *to* the environment; and

(b) none of the persons who are liable or potentially liable under 75-10-715(1) and who have been given the opportunity by letter to properly and expeditiously perform the appropriate remedial action will properly and expeditiously perform the appropriate remedial action. Any person liable under 75-10-715(1) shall take immediate action to contain, remove, and abate the release.

(2) Whenever the department is authorized to act pursuant to subsection (1) or has reason to believe that a release has occurred or is about to occur, the department may undertake remedial action in the form of any investigation, monitoring, survey, testing, or other information gathering as authorized by 75-10-707 that is necessary and appropriate to identify the existence, nature, origin, and extent of the release or the threat of release and the extent and imminence of the danger to the public health, safety, or welfare or *to* the environment.

(3) Except as provided in 75-10-712, the department is authorized to draw ~~upon~~ *on* the fund to take action under subsection (1) if it has made diligent good faith efforts to determine the identity of the person or persons liable for the release or threatened release and:

(a) is unable to determine the identity of the liable person or persons in a manner consistent with the need to take timely remedial action; or

(b) a person or persons determined by the department to be liable or potentially liable under 75-10-715(1) have been informed in writing of the department's determination and have been requested by the department to take appropriate remedial action but are unable or unwilling to take action in a timely manner; and

(c) the written notice informs the person that if subsequently found liable pursuant to 75-10-715(1), the person may be required to reimburse the fund for the state's remedial action costs and may be subject to penalties pursuant to this part.

(4) Whenever the department is authorized to act pursuant to subsection (1), it may issue to any person liable under 75-10-715(1) cease and desist, remedial, or other orders as may be necessary or appropriate to protect the public health, safety, or welfare or the environment.

(5) (a) A person who violates or fails *to comply with* or refuses to comply with an order issued under 75-10-707 or this section may, in an action brought to enforce the order, be assessed a civil penalty of not more than $10,000 for each day in which a violation occurs or a failure or refusal to comply continues. In determining the amount of any penalty assessed, the court may take into account:

(i) the nature, circumstances, extent, and gravity of the noncompliance;

(ii) with respect to the person liable under 75-10-715(1):

(A) the person's ability to pay;

(B) any prior history of violations;

(C) the degree of culpability; and

(D) the economic benefit or savings, if any, resulting from the noncompliance; and

(iii) any other matters as justice may require.

(b) Civil penalties collected under subsection (5)(a) must be deposited into the environmental quality protection fund established in 75-10-704.

(6) A court has jurisdiction to review an order issued under 75-10-707 or this section only in the following actions:

(a) an action under 75-10-715 to recover remedial action costs or penalties or for contribution;

(b) an action to enforce an order issued under 75-10-707 or this section;

(7) In considering objections raised in a judicial action regarding orders issued under this part, the court shall uphold and enforce an order issued by the department unless the objecting party can demonstrate, on the administrative record, that the department's decision to issue the order was arbitrary and capricious or otherwise not in accordance with law.

(8) Instead of issuing a notification or an order under this section, the department may bring an action for legal or equitable relief in the district court of the county where the release or threatened release occurred or in the first

judicial district as may be necessary to abate any imminent and substantial endangerment to the public health, safety, or welfare or *to* the environment resulting from the release or threatened release.

(9) A person who is not subject to an administrative or judicial order may not conduct any remedial action at any facility that is subject to an administrative or judicial order issued pursuant to this part without the written permission of the department. If a state or federal administrative or judicial order is issued relative to a facility, the order and any remedial activity conducted pursuant to the order may be admissible in a civil action pertaining to the facility or property adjacent to or allegedly impacted by the facility provided that the reviewing court in its discretion determines the order to be relevant and more probative than prejudicial. Admission of this evidence does not make the department a necessary party to the action. Remedial action performed in accordance with this part is intended to provide for the protection of the environmental life support system from degradation and to prevent unreasonable depletion and degradation of natural resources.

(10) The department may take remedial action pursuant to subsection (1) at a site that is regulated under the federal Comprehensive Environmental Response, Compensation, and Liability Act of 1980, Public Law 96-510, if the department determines that remedial action is necessary to carry out the purposes of this part.

(11) The department may take remedial action as provided for in 75-10-743(12)."

Section 2. Section 75-10-743, MCA, is amended to read:

"75-10-743. Orphan share state special revenue account — reimbursement of claims — payment of department costs. (1) There is an orphan share account in the state special revenue fund established in 17-2-102 that is to be administered by the department. Money in the account is available to the department by appropriation and, except as provided in subsections (9), (10), and (11), must be used to reimburse remedial action costs claimed pursuant to 75-10-742 through 75-10-751*,* ~~and~~ to pay costs incurred by the department in defending the orphan share*, and to pay remedial action costs incurred by the department pursuant to subsection (12)*.

(2) There must be deposited in the orphan share account:

(b) funds received from the distribution of oil and natural gas production taxes pursuant to 15-36-331;

(c) unencumbered funds remaining in the abandoned mines state special revenue account;

(d) interest income on the account;

(e) funds received from settlements pursuant to 75-10-719(7); and

(f) funds received from reimbursement of the department's orphan share defense costs pursuant to subsection (6).

(3) If the orphan share ~~fund~~ *account* contains sufficient money, valid claims must be reimbursed subsequently in the order in which they were received by the department. If the orphan share ~~fund~~ *account* does not contain sufficient money to reimburse claims for completed remedial actions, a reimbursement may not be made and the orphan share ~~fund~~ *account*, the department, and the state are not liable for making any reimbursement for the costs. The department and the state are not liable for any penalties if the orphan share ~~fund~~ *account*

does not contain sufficient money to reimburse claims, and interest may not accrue on outstanding claims.

(4) Except as provided in subsections (6) and (7), claims may not be submitted and remedial action costs may not be reimbursed from the orphan share ~~fund~~ *account* until all remedial actions, except for operation and maintenance, are completed at a facility.

(5) Except as provided in subsection (6), reimbursement from the orphan share ~~fund~~ *account* must be limited to actual documented remedial action costs incurred after the date of a petition provided for in 75-10-745. Reimbursement may not be made for attorney fees, legal costs, or operation and maintenance costs.

(6) (a) The department's costs incurred in defending the orphan share must be paid by the persons participating in the allocation under 75-10-742 through 75-10-751 in proportion to their allocated shares. The orphan share ~~fund~~ *account* is responsible for a portion of the department's costs incurred in defending the orphan share in proportion to the orphan share's allocated share, as follows:

(i) If sufficient funds are available in the orphan share ~~fund~~ *account*, the department's costs incurred in defending the orphan share must be paid from the orphan share ~~fund~~ *account* in proportion to the share of liability allocated to the orphan share.

(ii) If sufficient funds are not available in the orphan share ~~fund~~ *account*, persons participating in the allocation under 75-10-742 through 75-10-751 shall pay all the orphan share's allocated share of the department's costs incurred in defending the orphan share in proportion to each person's allocated share of liability.

(b) A person who pays the orphan share's proportional share of costs has a claim against the orphan share ~~fund~~ *account* and must be reimbursed as provided in subsection (3).

(c) A state agency that is liable for remedial action costs incurred has a claim against the orphan share ~~fund~~ *account* and must be reimbursed as provided in subsection (3). The agency may submit a claim before or after remedial action is complete. Reimbursement may not be made for attorney fees, legal costs, or operation and maintenance costs. The agency may be reimbursed only after:

(i) its liability has been determined pursuant to 75-10-742 through 75-10-751 or by a court of competent jurisdiction;

(ii) it has received a notice letter pursuant to 75-10-711; and

(iii) the department has approved the costs.

(7) (a) If the lead liable person under 75-10-746 presents evidence to the department that the person cannot complete the remedial actions without partial reimbursement and that a delay in reimbursement will cause undue financial hardship on the person, the department may allow the submission of claims and may reimburse the claims prior to the completion of all remedial actions. A person is not eligible for early reimbursement unless the person is in substantial compliance with all department-approved remedial action plans.

(b) The department may reimburse claims from a lead liable person upon completion and department approval of a report evaluating the nature and extent of contamination and a report formulating and evaluating final remediation alternatives. This early reimbursement is limited to those eligible costs incurred by the lead liable person for the preparation of the reports.

(8) A person participating in the allocation process who received funds under the mixed funding pilot program provided for in sections 14 through 20, Chapter 584, Laws of 1995, may not claim or receive reimbursement from the orphan share ~~fund~~ *account* for the amount of funds received under the mixed funding pilot program that are later attributed to the orphan share under the allocation process.

(9) (a) For the biennium beginning July 1, 2005, up to $1.25 million may be used by the department to pay the costs incurred by the department in contracting for evaluating the extent of contamination and formulating final remediation alternatives for releases at the Kalispell pole and timber, reliance refinery company, and Yale oil corporation facility complex. If the department spends less than $1.25 million for those purposes, the remaining funds must be spent for remediation of the facility complex. The department may not seek recovery of the $1.25 million from potentially liable persons.

(b) The money spent pursuant to subsection (9)(a) must be credited against the amount owed by the state agency in a judgment or settlement agreement for payment of the remedial action costs at the facility for which the money was spent.

(10) (a) The department shall transfer from the orphan share account to the long-term or perpetual water treatment permanent trust fund provided for in 82-4-367 $1.2 million in each fiscal year until the board of investments makes the certification pursuant to subsection (10)(b) of this section.

(b) (i) The board of investments shall monitor the long-term or perpetual water treatment permanent trust fund provided for in 82-4-367 to determine when the amount of money in the long-term or perpetual water treatment permanent trust fund will be sufficient, with future earnings, to provide a fund balance of $19.3 million on January 1, 2018.

(ii) When the board of investments makes the determination pursuant to subsection (10)(b)(i), the board of investments shall notify the department and certify to the department the amount of money, if any, that must be transferred during the fiscal year in which the board of investments makes its determination pursuant to subsection (10)(b)(i) in order to provide a fund balance of $19.3 million on January 1, 2018.

(iii) In the fiscal year that the board of investments makes its determination and notifies the department, the department shall transfer only the amount certified by the board of investments, if any, and may not make additional transfers during subsequent fiscal years.

(11) The orphan share account is subject to legislative fund transfers.

(12) Except as provided in subsection (13), the department may use the orphan share account to:

(a) take remedial action at a facility where there has been a release or there is a substantial threat of a release into the environment that may present an imminent and substantial endangerment to the public health, safety, or welfare or to the environment and there is no readily apparent person who is financially viable and potentially liable under 75-10-715 to conduct the remedial action; or

(b) fund the administration of data collection, the monitoring of the performance of remedial action, and the initial assessment of a facility to determine whether that facility may be closed or delisted.

(13) The department may not use for data collection, initial assessments, or monitoring pursuant to subsection (12)(b) more than 20% of the funds appropriated from the orphan share account for the bienniums beginning July 1,

2015, and ending June 30, 2025. For the bienniums beginning July 1, 2025, no more than 15% of the funds appropriated from the orphan share account may be used for data collection, initial assessments, or monitoring pursuant to subsection (12)(b).

(14) On or before July 1 of each year, the department shall report to the environmental quality council the amount of funds from the orphan share account used pursuant to subsection (12), the type of expenditures made, and the identity and location of facilities addressed."

(c) if required by the department, a description of the motor vehicle, trailer, semitrailer, pole trailer, motorboat, personal watercraft, sailboat, or snowmobile, including year, make, model, and vehicle identification number, the name of the person from whom ownership of the motor vehicle, trailer, semitrailer, pole trailer, motorboat, personal watercraft, sailboat, or snowmobile was transferred, the name, mailing address, and residence address of the person to whom ownership of the motor vehicle, trailer, semitrailer, pole trailer, motorboat, personal watercraft, sailboat, or snowmobile has been transferred, and the date of issuance.

(5) A temporary registration permit for:

(a) a motor vehicle, trailer, semitrailer, or pole trailer must be plainly visible and firmly attached to the rear exterior of the vehicle where a license plate is required to be displayed; and

(b) a motorboat, a sailboat that is 12 feet in length or longer, a snowmobile, or an off-highway vehicle must be plainly visible and firmly attached to the vehicle or vessel.

(6) (a) Except as provided in 61-3-431 and subsection (6)(b) of this section, a $3 fee is imposed upon issuance of a temporary registration permit by the department, an authorized agent, or a county treasurer. The fee must be paid by the owner of the vehicle or vessel and collected by the department, the authorized agent, or a county treasurer when the vehicle is registered.

(b) Except as provided in 61-3-431, a fee of $8 is imposed and must be paid upon issuance of a temporary registration permit by:

(i) the department, an authorized agent, or a county treasurer to a nonresident of this state who acquires a vehicle or vessel in this state *or who registers for temporary use in this state a quadricycle or motorcycle designed for off-road recreational use*; or

(ii) a person who issued a temporary registration permit using a department-approved electronic interface.

(7) The fees imposed under this section, upon collection, must be forwarded to the state and deposited in the motor vehicle electronic commerce operating account provided for in 61-3-118.

(8) If a temporary registration permit is issued under this section to a person to whom ownership of a vehicle or vessel has been transferred, the permitholder shall title and register the vehicle or vessel in this or another jurisdiction before the ownership of the vehicle or vessel may be transferred to another person."

CHAPTER NO. 122

[SB 82]

AN ACT DELEGATING WATER-RELATED DUTIES FROM THE ENVIRONMENTAL QUALITY COUNCIL TO THE WATER POLICY COMMITTEE; TRANSFERRING ADMINISTRATIVE RULE REVIEW, DRAFT LEGISLATION REVIEW, PROGRAM EVALUATION, AND MONITORING FUNCTIONS FROM THE ENVIRONMENTAL QUALITY COUNCIL TO THE WATER POLICY COMMITTEE FOR ISSUES WHERE THE PRIMARY CONCERN IS THE QUALITY OR QUANTITY OF WATER; TRANSFERRING VARIOUS REPORTING REQUIREMENTS FROM THE ENVIRONMENTAL QUALITY COUNCIL TO THE WATER POLICY COMMITTEE; AMENDING SECTIONS 5-5-202, 5-5-231, 75-1-208, 75-1-324, 75-5-313, 75-5-703, 85-1-203, 85-1-621, 85-2-105, 85-2-281, 85-2-350, AND 85-2-436, MCA; AND PROVIDING AN IMMEDIATE EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 5-5-202, MCA, is amended to read:

"5-5-202. Interim committees. (1) During an interim when the legislature is not in session, the committees listed in subsection (2) are the interim committees of the legislature. They are empowered to sit as committees and may act in their respective areas of responsibility. The functions of the legislative council, legislative audit committee, legislative finance committee, environmental quality council, ~~water policy committee,~~ and state-tribal relations committee are provided for in the statutes governing those committees.

(2) The following are the interim committees of the legislature:

(a) economic affairs committee;

(b) education and local government committee;

(c) children, families, health, and human services committee;

(d) law and justice committee;

(e) energy and telecommunications committee;

(f) revenue and transportation committee; ~~and~~

(g) state administration and veterans' affairs committee*; and*

(h) water policy committee.

(3) An interim committee or the environmental quality council may refer an issue to another committee that the referring committee determines to be more appropriate for the consideration of the issue. Upon the acceptance of the referred issue, the accepting committee shall consider the issue as if the issue were originally within its jurisdiction. If the committee that is referred an issue declines to accept the issue, the original committee retains jurisdiction.

(4) If there is a dispute between committees as to which committee has proper jurisdiction over a subject, the legislative council shall determine the most appropriate committee and assign the subject to that committee. If there is an entity that is attached to an agency for administrative purposes under the jurisdiction of an interim committee and another interim committee has a justification to seek jurisdiction and petitions the legislative council, the legislative council may assign that entity to the interim committee seeking jurisdiction unless otherwise provided by law."

Section 2. Section 5-5-231, MCA, is amended to read:

"5-5-231. Water policy committee. (1) There is a water policy committee. ~~Except as provided in subsection (2), the committee is treated as an interim committee for the purposes of 5-5-211 through 5-5-214.~~ The committee shall:

(a) determine which water policy issues it examines;

(b) conduct interim studies as assigned pursuant to 5-5-217;

(c) subject to the provisions of 5-5-202(4), coordinate with the environmental quality council and other interim committees to avoid duplication of efforts; ~~and~~

(d) report its activities, findings, recommendations, and any proposed legislation as provided in 5-11-210*; and*

(e) in accordance with 5-5-215, for issues where the primary concern is the quality or quantity of water, perform the administrative rule review, draft legislation review, program evaluation, and monitoring functions of an interim committee for the following executive branch agencies and the entities attached to the agencies for administrative purposes:

(i) department of environmental quality;

(ii) department of fish, wildlife, and parks; and

(iii) department of natural resources and conservation.

(2) At least two members of the committee must possess experience in agriculture."

Section 3. Section 75-1-208, MCA, is amended to read:

"75-1-208. Environmental review procedure. (1) (a) Except as provided in 75-1-205(4) and subsection (1)(b) of this section, an agency shall comply with this section when completing any environmental review required under this part.

(b) To the extent that the requirements of this section are inconsistent with federal requirements, the requirements of this section do not apply to an environmental review that is being prepared jointly by a state agency pursuant to this part and a federal agency pursuant to the National Environmental Policy Act or to an environmental review that must comply with the requirements of the National Environmental Policy Act.

~~(2)~~*(2) (a) Except as provided in subsection (2)(b), a* ~~A~~ project sponsor may, after providing a 30-day notice, appear before the environmental quality council at any regularly scheduled meeting to discuss issues regarding the agency's environmental review of the project. The environmental quality council shall ensure that the appropriate agency personnel are available to answer questions.

(b) If the primary concern of the agency's environmental review of a project is the quality or quantity of water, a project sponsor may, after providing a 30-day notice, appear before the water policy committee established in 5-5-231 at any regularly scheduled meeting to discuss issues regarding the agency's environmental review of the project. The water policy committee shall ensure that the appropriate agency personnel are available to answer questions.

(3) If a project sponsor experiences problems in dealing with the agency or any consultant hired by the agency regarding an environmental review, the project sponsor may submit a written request to the agency director requesting a meeting to discuss the issues. The written request must sufficiently state the issues to allow the agency to prepare for the meeting. If the issues remain unresolved after the meeting with the agency director, the project sponsor may submit a written request to appear before the appropriate board, if any, to discuss the remaining issues. A written request to the appropriate board must

sufficiently state the issues to allow the agency and the board to prepare for the meeting.

(4) (a) Subject to the requirements of subsection (5), to ensure a timely completion of the environmental review process, an agency is subject to the time limits listed in this subsection (4) unless other time limits are provided by law. All time limits are measured from the date the agency receives a complete application. An agency has:

(i) 60 days to complete a public scoping process, if any;

(ii) 90 days to complete an environmental review unless a detailed statement pursuant to 75-1-201(1)(b)(iv) or 75-1-205(4) is required; and

(iii) 180 days to complete a detailed statement pursuant to 75-1-201(1)(b)(iv).

(b) The period of time between the request for a review by a board and the completion of a review by a board under 75-1-201(9) or subsection (10) of this section may not be included for the purposes of determining compliance with the time limits established for conducting an environmental review under this subsection or the time limits established for permitting in 75-2-211, 75-2-218, 75-20-216, 75-20-231, 76-4-125, 82-4-122, 82-4-231, 82-4-337, and 82-4-432.

(5) An agency may extend the time limits in subsection (4) by notifying the project sponsor in writing that an extension is necessary and stating the basis for the extension. The agency may extend the time limit one time, and the extension may not exceed 50% of the original time period as listed in subsection (4). After one extension, the agency may not extend the time limit unless the agency and the project sponsor mutually agree to the extension.

(6) If the project sponsor disagrees with the need for the extension, the project sponsor may request that the appropriate board, if any, conduct a review of the agency's decision to extend the time period. The appropriate board may, at its discretion, submit an advisory recommendation to the agency regarding the issue.

(7) (a) Except as provided in subsection (7)(b), if an agency has not completed the environmental review by the expiration of the original or extended time period, the agency may not withhold a permit or other authority to act unless the agency makes a written finding that there is a likelihood that permit issuance or other approval to act would result in the violation of a statutory or regulatory requirement.

(b) Subsection (7)(a) does not apply to a permit granted under Title 75, chapter 2, or under Title 82, chapter 4, parts 1 and 2.

(8) Under this part, an agency may only request ~~that~~ information from the project sponsor that is relevant to the environmental review required under this part.

(9) An agency shall ensure that the notification for any public scoping process associated with an environmental review conducted by the agency is presented in an objective and neutral manner and that the notification does not speculate on the potential impacts of the project.

(10) An agency may not require the project sponsor to provide engineering designs in greater detail than that necessary to fairly evaluate the proposed project. The project sponsor may request that the appropriate board, if any, review an agency's request regarding the level of design detail information that the agency believes is necessary to conduct the environmental review. The appropriate board may, at its discretion, submit an advisory recommendation to the agency regarding the issue.

(11) An agency shall, when appropriate, evaluate the cumulative impacts of a proposed project. However, related future actions may only be considered when these actions are under concurrent consideration by any agency through preimpact statement studies, separate impact statement evaluations, or permit processing procedures."

Section 4. Section 75-1-324, MCA, is amended to read:

"75-1-324. Duties of environmental quality council. The environmental quality council shall:

(1) gather timely and authoritative information concerning the conditions and trends in the quality of the environment, both current and prospective, analyze and interpret the information for the purpose of determining whether the conditions and trends are interfering or are likely to interfere with the achievement of the policy set forth in 75-1-103, and compile and submit to the governor and the legislature studies relating to the conditions and trends;

(2) review and appraise the various programs and activities of the state agencies, in the light of the policy set forth in 75-1-103, for the purpose of determining the extent to which the programs and activities are contributing to the achievement of the policy and make recommendations to the governor and the legislature with respect to the policy;

(3) develop and recommend to the governor and the legislature state policies to foster and promote the improvement of environmental quality to meet the conservation, social, economic, health, and other requirements and goals of the state;

(4) conduct investigations, studies, surveys, research, and analyses relating to ecological systems and environmental quality;

(5) document and define changes in the natural environment, including the plant and animal systems, and accumulate necessary data and other information for a continuing analysis of these changes or trends and an interpretation of their underlying causes;

(6) make and furnish studies, reports on studies, and recommendations with respect to matters of policy and legislation as the legislature requests;

(7) analyze legislative proposals in clearly environmental areas and in other fields in which legislation might have environmental consequences and assist in preparation of reports for use by legislative committees, administrative agencies, and the public;

(8) consult with and assist legislators who are preparing environmental legislation to clarify any deficiencies or potential conflicts with an overall ecologic plan;

(9) review and evaluate operating programs in the environmental field in the several agencies to identify actual or potential conflicts, both among the activities and with a general ecologic perspective, and suggest legislation to remedy the situations; and

(10) *except as provided in 5-5-231,* perform the administrative rule review, draft legislation review, program evaluation, and monitoring functions of an interim committee for the following executive branch agencies and the entities attached to the agencies for administrative purposes:

(a) department of environmental quality;

(b) department of fish, wildlife, and parks; and

(c) department of natural resources and conservation."

Section 5. Section 75-5-313, MCA, is amended to read:

"75-5-313. Nutrient standards variances — individual, general, and alternative. (1) The department shall, on a case-by-case basis, approve the use of an individual nutrient standards variance in a discharge permit based upon adequate justification pursuant to subsection (2) that attainment of the base numeric nutrient standards is precluded due to economic impacts, limits of technology, or both.

(2) (a) The department, in consultation with the nutrient work group, shall develop guidelines for individual nutrient standards variances to ensure that the economic impacts from base numeric nutrient standards on public and private systems are equally and adequately addressed. In developing those guidelines, the department and the nutrient work group shall consider economic impacts appropriate for application within Montana, acknowledging that advanced treatment technologies for removing nutrients will result in significant and widespread economic impacts.

(b) The department shall consult with the nutrient work group prior to recommending base numeric nutrient standards to the board and shall continue to consult with the nutrient work group in implementing individual nutrient standards variances.

(3) The department shall review each application for an individual nutrient standards variance on a case-by-case basis to determine if there are reasonable alternatives, such as trading, permit compliance schedules, or the alternatives provided in subsections (5), (10), and (11), that preclude the need for the individual nutrient standards variance.

(4) Individual nutrient standards variances approved by the department become effective and may be incorporated into a permit only after a public hearing and adoption by the department under the rulemaking procedures of Title 2, chapter 4, part 3.

(5) (a) Because the treatment of wastewater to base numeric nutrient standards would result in substantial and widespread economic impacts on a statewide basis, a permittee who meets the requirements established in subsection (5)(b) may, subject to subsection (6), apply for a general nutrient standards variance.

(b) The department shall approve the use of a general nutrient standards variance for permittees with wastewater treatment facilities that discharge to surface water:

(i) in an amount greater than or equal to 1 million gallons per day of effluent if the permittee treats the discharge to, at a minimum, 1 milligram total phosphorus per liter and 10 milligrams total nitrogen per liter, calculated as a monthly average during the period in which the base numeric nutrient standards apply;

(ii) in an amount less than 1 million gallons per day of effluent if the permittee treats the discharge to, at a minimum, 2 milligrams total phosphorus per liter and 15 milligrams total nitrogen per liter, calculated as a monthly average during the period in which the base numeric nutrient standards apply; or

(iii) from lagoons that were not designed to actively remove nutrients if the permittee maintains the performance of the lagoon at a level equal to the performance of the lagoon on October 1, 2011.

(6) (a) The monthly average concentrations for total nitrogen and total phosphorus in subsection (5)(b) are the highest concentrations allowed in each category and remain in effect until May 31, 2016.

(b) Categories and concentrations in subsection (5)(b) must be adopted by rule by May 31, 2016.

(7) (a) Immediately after May 31, 2016, and every 3 years thereafter, the department, in consultation with the nutrient work group, shall revisit and update the concentration levels provided in subsection (5)(b).

(b) If more cost-effective and efficient treatment technologies are available, the concentration levels provided in subsection (5)(b) must be updated pursuant to subsection (7)(c) to reflect those changes.

(c) The updates become effective and may be incorporated into a permit only after a public hearing and adoption by the department under the rulemaking procedures of Title 2, chapter 4, part 3.

(8) An individual, general, or alternative nutrient standards variance may be established for a period not to exceed 20 years and must be reviewed by the department every 3 years from the date of adoption to ensure that the justification for its adoption remains valid.

(9) (a) Permittees receiving an individual, general, or alternative nutrient standards variance shall evaluate current facility operations to optimize nutrient reduction with existing infrastructure and shall analyze cost-effective methods of reducing nutrient loading, including but not limited to nutrient trading without substantial investment in new infrastructure.

(b) The department may request that a permittee provide the results of an optimization study and nutrient reduction analysis to the department within 2 years of receiving an individual, general, or alternative nutrient variance.

(10) (a) A permittee may request that the department provide an alternative nutrient standards variance if the permittee demonstrates that achieving nutrient concentrations established for an individual or general nutrient standards variance would result in an insignificant reduction of instream nutrient loading.

(b) A permittee receiving an alternative nutrient standards variance shall comply with the requirements of subsections (8) and (9) and shall demonstrate that the permittee's contribution to nutrient concentrations in the watershed continues to remain insignificant.

(11) The department shall encourage the use of alternative effluent management methods to reduce instream nutrient loading, including reuse, recharge, land application, and trading.

(12) On or before July 1 of each year, the department, in consultation with the nutrient work group, shall report to the ~~environmental quality council~~ *water policy committee established in 5-5-231* by providing a summary of the status of the base numeric nutrient standards, the nutrient standards variances, and *the* implementation of those standards and variances, including estimated economic impacts.

(13) On or before September 1 of each year preceding the convening of a regular session of the legislature, the department, in consultation with the nutrient work group, shall summarize the ~~previous~~ two *most recent* reports provided ~~in~~ *under* subsection (12) *and submit* to the ~~environmental quality council in accordance with 5-11-210~~ *water policy committee established in 5-5-231 this final summary in accordance with 5-11-210*."

Section 6. Section 75-5-703, MCA, is amended to read:

"75-5-703. Development and implementation of total maximum daily loads. (1) The department shall, in consultation with local conservation districts and watershed advisory groups, develop total maximum daily loads or

TMDLs for threatened or impaired water bodies or segments of water bodies in order of the priority ranking established by the department under 75-5-702. Each TMDL must be established at a level that will achieve compliance with applicable water quality standards and must include a reasonable margin of safety that takes into account any lack of knowledge concerning the relationship between the TMDL and water quality standards. The department shall consider applicable guidance from the federal environmental protection agency, as well as the environmental, economic, and social costs and benefits of developing and implementing a TMDL.

(2) In establishing TMDLs under subsection (1), the department may establish waste load allocations for point sources and may establish load allocations for nonpoint sources, as set forth in subsection (8), and may allow for effluent trading. The department shall, in consultation with local conservation districts and watershed advisory groups, develop reasonable land, soil, and water conservation practices specifically recognizing established practices and programs for nonpoint sources.

(3) The department shall establish a schedule that provides a reasonable timeframe for TMDL development for impaired and threatened water bodies that are on the most recent list prepared pursuant to 75-5-702. On or before July 1 of each even-numbered year, the department shall report the progress in completing TMDLs and the current schedule for completion of TMDLs for the water bodies that remain on the list to the ~~environmental quality council~~ *water policy committee established in 5-5-231*.

(4) The department shall provide guidance for TMDL development on any threatened or impaired water body, regardless of its priority ranking, if the necessary funding and resources from sources outside the department are available to develop the TMDL and to monitor the effectiveness of implementation efforts. The department shall review the TMDL and either approve or disapprove the TMDL. If the TMDL is approved by the department, the department shall ensure implementation of the TMDL according to the provisions of subsections (6) through (8).

(5) For water bodies listed under 75-5-702, the department shall provide assistance and support to landowners, local conservation districts, and watershed advisory groups for interim measures that may restore water quality and remove the need to establish a TMDL, such as informational programs regarding control of nonpoint source pollution and voluntary measures designed to correct impairments. When a source implements voluntary measures to reduce pollutants prior to development of a TMDL, those measures, whether or not reflected in subsequently issued waste discharge permits, must be recognized in development of the TMDL in a way that gives credit for the pollution reduction efforts.

(6) After development of a TMDL and upon approval of the TMDL, the department shall:

(a) incorporate the TMDL into its current continuing planning process;

(b) incorporate the waste load allocation developed for point sources during the TMDL process into appropriate water discharge permits; and

(c) assist and inform landowners regarding the application of a voluntary program of reasonable land, soil, and water conservation practices developed pursuant to subsection (2).

(7) Once the control measures identified in subsection (6) have been implemented, the department shall, in consultation with the statewide TMDL

advisory group, develop a monitoring program to assess the waters that are subject to the TMDL to determine whether compliance with water quality standards has been attained for a particular water body or whether the water body is no longer threatened. The monitoring program must be designed based on the specific impairments or pollution sources. The department's monitoring program must include long-term monitoring efforts for the analysis of the effectiveness of the control measures developed.

(8) The department shall support a voluntary program of reasonable land, soil, and water conservation practices to achieve compliance with water quality standards for nonpoint source activities for water bodies that are subject to a TMDL developed and implemented pursuant to this section.

(9) If the monitoring program provided under subsection (7) demonstrates that the TMDL is not achieving compliance with applicable water quality standards within 5 years after approval of a TMDL, the department shall conduct a formal evaluation of progress in restoring water quality and the status of reasonable land, soil, and water conservation practice implementation to determine if:

(a) the implementation of a new or improved phase of voluntary reasonable land, soil, and water conservation practice is necessary;

(b) water quality is improving but a specified time is needed for compliance with water quality standards; or

(c) revisions to the TMDL are necessary to achieve applicable water quality standards.

(10) Pending completion of a TMDL on a water body listed pursuant to 75-5-702:

(a) point source discharges to a listed water body may commence or continue, provided that:

(i) the discharge is in conformance with a discharge permit that reflects, in the manner and to the extent applicable for the particular discharge, the provisions of 75-5-303;

(ii) the discharge will not cause a decline in water quality for parameters by which the water body is impaired; and

(iii) minimum treatment requirements adopted pursuant to 75-5-305 are met;

(b) the issuance of a discharge permit may not be precluded because a TMDL is pending;

(c) new or expanded nonpoint source activities affecting a listed water body may commence and continue if those activities are conducted in accordance with reasonable land, soil, and water conservation practices; *and*

(d) for existing nonpoint source activities, the department shall continue to use educational nonpoint source control programs and voluntary measures as provided in subsections (5) and (6).

(11) This section may not be construed to prevent a person from filing an application or petition under 75-5-302, 75-5-310, or 75-5-312."

Section 7. Section 85-1-203, MCA, is amended to read:

"85-1-203. State water plan. (1) The department shall gather from any source reliable information relating to Montana's water resources and prepare from the information a continuing comprehensive inventory of the water resources of the state. In preparing this inventory, the department may:

(a) conduct studies;

(b) adopt studies made by other competent water resource groups, including federal, regional, state, or private agencies;

(c) perform research or employ other competent agencies to perform research on a contract basis; and

(d) hold public hearings in affected areas at which all interested parties must be given an opportunity to appear.

(2) The department shall formulate and adopt and amend, extend, or add to a comprehensive, coordinated multiple-use water resources plan known as the "state water plan". The state water plan may be formulated and adopted in sections, with some of these sections corresponding with hydrologic divisions of the state. The state water plan must set out a progressive program for the conservation, development, utilization, and sustainability of the state's water resources and propose the most effective means by which these water resources may be applied for the benefit of the people, with due consideration of alternative uses and combinations of uses.

(3) Sections of the state water plan must be completed for the Missouri, Yellowstone, and Clark Fork River basins, submitted to the 2015 legislature, and updated at least every 20 years. These basinwide plans must include:

(a) an inventory of consumptive and nonconsumptive uses associated with existing water rights;

(b) an estimate of the amount of surface and ground water needed to satisfy new future demands;

(c) analysis of the effects of frequent drought and *of* new or increased depletions on the availability of future water supplies;

(d) proposals for the best means, such as an evaluation of opportunities for storage of water by both private and public entities, to satisfy existing water rights and new water demands;

(e) possible sources of water to meet the needs of the state; and

(f) any legislation necessary to address water resource concerns in these basins.

(4) (a) The department shall create a water user council in both the Yellowstone and Missouri River basins that is inclusive and representative of all water interests and interests in those basins. For the Clark Fork River basin, the department shall continue to utilize the Clark Fork River basin task force established pursuant to 85-2-350.

(b) The councils in the Missouri and Yellowstone River basins consist of representatives of existing watershed groups or councils within the basins.

(c) Each council may have up to 20 members.

(d) Each water user council shall make recommendations to the department on the basinwide plans required by subsection (3).

(5) Before adopting the state water plan or any section of the plan, the department shall hold public hearings in the state or in an area of the state encompassed by a section of the plan if adoption of a section is proposed. Notice of the hearing or hearings must be published for 2 consecutive weeks in a newspaper of general county circulation in each county encompassed by the proposed plan or section of the plan at least 30 days prior to the hearing.

(6) The department shall submit to the ~~environmental quality council established in 5-16-101~~ *water policy committee established in 5-5-231* and to the legislature at the beginning of each regular session the state water plan or any

section of the plan or amendments, additions, or revisions to the plan that the department has formulated and adopted.

(7) The legislature, by joint resolution, may revise the state water plan.

(8) The department shall prepare a continuing inventory of the ground water resources of the state. The ground water inventory must be included in the comprehensive water resources inventory described in subsection (1) but must be a separate component of the inventory.

(9) The department shall publish the comprehensive inventory, the state water plan, the ground water inventory, or any part of each, and the department may assess and collect a reasonable charge for these publications.

(10) In developing and revising the state water plan as provided in this section, the department shall consult with the ~~environmental quality council established in 5-16-101~~ *water policy committee established in 5-5-231* and solicit the advice of the ~~environmental quality council~~ *water policy committee* in carrying out its duties under this section."

Section 8. Section 85-1-621, MCA, is amended to read:

"85-1-621. Report. The department shall prepare a biennial report describing the status of the renewable resource grant and loan program. The report must describe ongoing projects and projects that have been completed during the biennium. The report must identify and rank in order of priority the projects for which the department has received applications. The report must also describe proposed projects and activities for the coming biennium and recommendations for necessary appropriations. A copy of the report must be submitted to the ~~environmental quality council established in 5-16-101~~ *water policy committee established in 5-5-231*."

Section 9. Section 85-2-105, MCA, is amended to read:

"85-2-105. ~~Environmental quality council — water policy~~ *Water policy committee* duties. (1) The ~~environmental quality council~~ *water policy committee established in 5-5-231* shall meet as often as necessary, including during the interim between sessions, to perform the duties specified within this section.

(2) On a continuing basis, the ~~environmental quality council~~ *water policy committee* may:

(a) advise the legislature on the adequacy of the state's water policy and on important state, regional, national, and international developments that affect Montana's water resources;

(b) oversee the policies and activities of the department, other state executive agencies, and other state institutions as those policies and activities affect the water resources of the state;

(c) assist with interagency coordination related to Montana's water resources; and

(d) communicate with the public on matters of water policy as well as the water resources of the state.

(3) On a regular basis, the ~~environmental quality council~~ *water policy committee* shall:

(a) analyze and comment on the state water plan required by 85-1-203, when filed by the department;

(ii) the Flathead River basin, including Flathead Lake, from Flathead Lake to the confluence of the Flathead River and the Clark Fork River;

(iii) the Flathead River basin upstream from Flathead Lake;

(iv) the reach of the Clark Fork River between the confluence of the Blackfoot River and the Clark Fork River and the confluence of the Clark Fork River and the Flathead River;

(v) the Bitterroot River basin as defined in 85-2-344; and

(vi) the Upper Clark Fork River basin as defined in 85-2-335.

Section 12. Section 85-2-436, MCA, is amended to read:

"85-2-436. Instream flow to protect, maintain, or enhance streamflows to benefit fishery resource — change in appropriation rights by department of fish, wildlife, and parks until June 30, 2019. (1) The department of fish, wildlife, and parks may change an appropriation right, which it either holds in fee simple or leases, to an instream flow purpose of use and a defined place of use to protect, maintain, or enhance streamflows to benefit the fishery resource.

(2) The change in purpose of use or place of use must meet all *of* the criteria and process ~~of~~ *outlined in* 85-2-307 through 85-2-309, 85-2-401, and 85-2-402 and the additional criteria and process *described* in subsection (3) of this section to protect the rights of other appropriators from adverse impacts.

(3) (a) The department of fish, wildlife, and parks, with the consent of the commission, may lease existing rights for the purpose of protecting, maintaining, or enhancing streamflows to benefit the fishery resource.

(b) Upon receipt of a correct and complete application for a change in purpose of use or place of use from the department of fish, wildlife, and parks, the department shall publish notice of the application as provided in 85-2-307. Parties who believe that they may be adversely affected by the proposed change

in appropriation right may file an objection as provided in 85-2-308. A change in appropriation right may not be approved until all objections are resolved. After resolving all objections filed under 85-2-308, the department shall authorize a change of an existing appropriation right for the purpose of protecting, maintaining, or enhancing streamflows to benefit the fishery resource if the applicant submits a correct and complete application and meets the requirements of 85-2-402.

(c) The application for a change in appropriation right authorization must include specific information on the length and location of the stream reach in which the streamflow is to be protected, maintained, or enhanced and must provide a detailed streamflow measuring plan that describes the points where and the manner in which the streamflow must be measured.

(d) The maximum quantity of water that may be changed to instream flow is the amount historically diverted. However, only the amount historically consumed, or a smaller amount if specified by the department in the change in appropriation right authorization, may be used to protect, maintain, or enhance streamflows below the point of diversion that existed prior to the change in appropriation right.

(e) A lease for instream flow purposes may be entered for a term of up to 10 years, except that a lease of water made available from the development of a water conservation or storage project may be for a term equal to the expected life of the project but not more than 30 years. All leases may be renewed an indefinite number of times but not for more than 10 years for each term. Upon receiving notice of a lease renewal, the department shall notify other appropriators potentially affected by the lease and shall allow 90 days for submission of new evidence of adverse effects to other water rights. A change in appropriation right authorization is not required for a renewal unless an appropriator other than an appropriator described in subsection (3)(i) submits evidence of adverse effects to the appropriator's rights that has not been considered previously. If new evidence is submitted, a change in appropriation right authorization must be obtained according to the requirements of 85-2-402.

(f) The department may modify or revoke the change in appropriation right authorization up to 10 years after it is approved if an appropriator other than an appropriator described in subsection (3)(i) submits new evidence not available at the time the change in appropriation right was approved that proves by a preponderance of evidence that the appropriator's water right is adversely affected.

(g) The priority of appropriation for a lease or change in appropriation right under this section is the same as the priority of appropriation of the right that is changed to an instream flow purpose.

(h) Neither a change in appropriation right nor any other authorization is required for the reversion of a leased appropriation right to the lessor's previous use.

(i) A person issued a water use permit with a priority of appropriation after the date of filing of an application for a change in appropriation right authorization under this section may not object to the exercise of the changed water right according to its terms or *to* the reversion of a leased appropriation right to the lessor according to the lessor's previous use.

(j) The department of fish, wildlife, and parks shall pay all costs associated with installing devices or providing personnel to measure streamflows according to the measuring plan required under this section.

(4) (a) The department of fish, wildlife, and parks shall complete and submit to the department, commission, and ~~environmental quality council~~ *water policy committee established in 5-5-231* a biennial progress report by December 1 of odd-numbered years. This report must include a summary of all appropriation rights changed to an instream flow purpose in the last 2 years.

(b) For each change in appropriation right to an instream flow purpose, the report must include a copy of the change authorization issued by the department and must address:

(i) the length of the stream reach and how it is determined;

(ii) critical streamflow or volume needed to protect, maintain, or enhance streamflow to benefit the fishery resource;

(iii) the amount of water available for instream flow as a result of the change in appropriation right;

(iv) contractual parameters, conditions, and other steps taken to ensure that each change in appropriation right does not harm other appropriators, particularly if the stream is one that experiences natural dewatering; and

(v) methods used to monitor use of water under each change in appropriation right.

(5) This section does not create the right for a person to bring suit to compel the renewal of a lease that has expired.

(6) (a) From May 8, 2007, through June 30, 2019, the department of fish, wildlife, and parks may change, pursuant to this section, the appropriation rights that it holds in fee simple to instream flow purposes on no more than 12 stream reaches.

(b) After June 30, 2019, the department of fish, wildlife, and parks may not change the appropriation rights that it holds in fee simple to instream flow purposes on any stream reaches.

(7) After June 30, 2019, the department of fish, wildlife, and parks may not enter into any new lease agreements pursuant to this section or renew any leases that expire after that date."

Section 13. Effective date. [This act] is effective on passage and approval.

CHAPTER NO. 123

[HB 90]

AN ACT REVISING WORKERS' COMPENSATION LAWS TO REQUIRE NOTICE TO CLAIMANTS OF CLAIMS EXAMINER CHANGES, UPDATE AND SIMPLIFY FEE SCHEDULE INFORMATION, PERMIT PAID TIME OFF TO BE USED FOR A WAITING PERIOD, AND MAKE ASSESSMENT PERIODS CURRENT FOR CERTAIN FUNDS; AMENDING SECTIONS 39-71-107, 39-71-704, 39-71-736, AND 39-71-915, MCA; AND PROVIDING AN EFFECTIVE DATE.

Be it enacted by the Legislature of the State of Montana:

Section 1. Section 39-71-107, MCA, is amended to read:

"39-71-107. Insurers to act promptly on claims — in-state claims examiners — third-party agents — penalties. (1) Pursuant to the public policy stated in 39-71-105, prompt claims handling practices are necessary to

provide appropriate service to injured workers, to employers, and to providers who are the customers of the workers' compensation system.

(2) All workers' compensation and occupational disease claims filed pursuant to the Workers' Compensation Act must be examined by a claims examiner in Montana. For a claim to be considered as examined by a claims examiner in Montana, the claims examiner examining the claim is required to determine the entitlement to benefits, authorize payment of all benefits due, manage the claim, have authority to settle the claim, maintain an office located in Montana, and examine Montana claims from that office. Use of a mailbox or maildrop in Montana does not constitute maintaining an office in Montana.

(3) An insurer shall maintain the documents related to each claim filed with the insurer under the Workers' Compensation Act at the Montana office of the claims examiner examining the claim in Montana until the claim is settled. The documents may be either original documents or duplicates of the original documents and must be maintained in a manner that allows the documents to be retrieved from that office and copied at the request of the claimant or the department. Settled claim files stored outside of the claims examiner's office must be made available within 48 hours of a request for the file. Electronic or optically imaged documents are permitted.

(4) (a) An insurer that uses a third-party agent to provide the insurer with claim examination services shall notify the department in writing of a change of a third-party agent at least 14 days in advance of the change.

(b) The department may assess a penalty not to exceed $200 against an insurer that does not comply with the advance notice provision in subsection (4)(a). The penalty may be assessed for each failure by an insurer to give the required advance notice.

(5) (a) Except for those medical benefits provided by a managed care organization or a preferred provider organization in Title 39, chapter 71, part 11, or paid pursuant to 39-71-704(4), an insurer that uses a third-party agent to review medical bills shall, when first using the agent's services and annually in subsequent years, obtain written certification from the agent that, for each bill the agent reviews, the agent agrees to calculate the payment due based on the Montana workers' compensation medical fee schedules, provided for under 39-71-704, that were in effect on the date the service was provided.

(b) Except for those medical benefits provided by a managed care organization or a preferred provider organization in Title 39, chapter 71, part 11, or paid pursuant to 39-71-704(4), an insurer whose agent neglects or fails to use the proper fee schedule may be assessed a penalty of not less than $200 or more than $1,000 for each bill that its agent reviews under a fee schedule other than the proper Montana fee schedule.

(c) An insurer that without good cause neglects or fails to pay undisputed medical bills on an accepted liability claim within 60 days of receipt of the bill may be assessed a penalty of not less than $200 or more than $1,000 for each bill that is the subject of a delay as provided in this subsection (5)(c).

(6) An insurer shall provide to the claimant:

(a) a written statement of the reasons that a claim is being denied at the time of denial;

(b) whenever benefits are denied to a claimant, a written explanation of how the claimant may appeal an insurer's decision; ~~and~~

(c) a written explanation of the amount of wage-loss benefits being paid to the claimant, along with an explanation of the calculation used to compute those

benefits. The explanation must be sent within 7 days of the initial payment of the benefit.

(d) a written notice advising the claimant when a change is made to the claims examiner handling the claim, including the name and contact information of the new claims examiner. The notice must be sent within 14 days of the change in claims examiner.

(7) An insurer shall:

(a) begin making payments that are due on a claim within 14 days of acceptance of the claim, unless the insurer promptly notifies the claimant that the insurer needs additional information in order to begin paying benefits and specifies the information needed; and

(b) pay settlements within 30 days of the date the department issues an order approving the settlement.

(8) An insurer may contest a penalty assessed pursuant to subsection (4) or (5) in a hearing conducted according to department rules. A party may appeal the final agency order to the workers' compensation court. The court shall review the order pursuant to the requirements of 2-4-704.

(9) The department may adopt rules to implement this section.

(10) (a) For the purposes of this section, "settled claim" means a department-approved or court-ordered compromise of benefits between a claimant and an insurer or a claim that was paid in full.

(b) The term does not include a claim in which there has been only a lump-sum advance of benefits."

Section 2. Section 39-71-704, MCA, is amended to read:

"39-71-704. Payment of medical, hospital, and related services — fee schedules and hospital rates — fee limitation. (1) In addition to the compensation provided under this chapter and as an additional benefit separate and apart from compensation benefits actually provided, the following must be furnished:

(a) After the happening of a compensable injury or occupational disease and subject to other provisions of this chapter, the insurer shall furnish reasonable primary medical services, including prescription drugs for conditions that are a direct result of the compensable injury or occupational disease, for those periods specified in this section.

(b) Subject to the limitations in this chapter, the insurer shall furnish secondary medical services only upon a clear demonstration of cost-effectiveness of the services in returning the injured worker to actual employment.

(c) The insurer shall replace or repair prescription eyeglasses, prescription contact lenses, prescription hearing aids, and dentures that are damaged or lost as a result of an injury, as defined in 39-71-119, arising out of and in the course of employment.

(d) (i) The insurer shall reimburse a worker for reasonable travel, lodging, meals, and miscellaneous expenses incurred in travel to a health care provider for treatment of an injury pursuant to rules adopted by the department. Reimbursement must be at the rates allowed for reimbursement for state employees.

(ii) Rules adopted under subsection (1)(d)(i) must provide for submission of claims, within 90 days from the date of travel, following notification to the claimant of reimbursement rules, must provide procedures for reimbursement

receipts, and must require the use of the least costly form of travel unless the travel is not suitable for the worker's medical condition. The rules must exclude from reimbursement:

(A) 100 miles of automobile travel for each calendar month unless the travel is requested or required by the insurer pursuant to 39-71-605;

(B) travel to a health care provider within the community in which the worker resides;

(C) travel outside the community in which the worker resides if comparable medical treatment is available within the community in which the worker resides, unless the travel is requested by the insurer; and

(D) travel for unauthorized treatment or disallowed procedures.

(iii) An insurer is not liable for injuries or conditions that result from an accident that occurs during travel or treatment, except that the insurer retains liability for the compensable injuries and conditions for which the travel and treatment were required.

(e) Pursuant to rules adopted by the department, an insurer shall reimburse a catastrophically injured worker's family or, if a family member is unavailable, a person designated by the injured worker or approved by the insurer for travel assistance expenditures in an amount not to exceed $2,500 to be used as a match to those funds raised by community service organizations to help defray the costs of travel and lodging expenses incurred by the family member or designated person when traveling to be with the injured worker. These funds must be paid in addition to any travel expenses paid by an insurer for a travel companion when it is medically necessary for a travel companion to accompany the catastrophically injured worker.

(f) (i) The benefits provided for in this section terminate 60 months from the date of injury or diagnosis of an occupational disease. A worker may request reopening of medical benefits that were terminated under this subsection (1)(f) as provided in 39-71-717.

(ii) Subsection (1)(f)(i) does not apply to a worker who is permanently totally disabled as a result of a compensable injury or occupational disease or for the repair or replacement of a prosthesis furnished as a direct result of a compensable injury or occupational disease.

(g) Notwithstanding subsection (1)(a), the insurer may not be required to furnish, after the worker has achieved medical stability, palliative or maintenance care except:

(i) when provided to a worker who has been determined to be permanently totally disabled and for whom it is medically necessary to monitor administration of prescription medication to maintain the worker in a medically stationary condition;

(ii) when necessary to monitor the status of a prosthetic device; or

(iii) when the worker's treating physician believes that the care that would otherwise not be compensable under subsection (1)(g) is appropriate to enable the worker to continue current employment or that there is a clear probability of returning the worker to employment. A dispute regarding the compensability of palliative or maintenance care is considered a dispute over which, after mediation pursuant to department rule, the workers' compensation court has jurisdiction.

(h) Notwithstanding any other provisions of this chapter, the department, by rule and upon the advice of the professional licensing boards of practitioners affected by the rule, may exclude from compensability any medical treatment

that the department finds to be unscientific, unproved, outmoded, or experimental.

(2) (a) The department shall annually establish a schedule of fees for medical services that are necessary for the treatment of injured workers. Regardless of the date of injury, payment for medical services is based on the fee schedule rates in this section in effect on the date on which the medical service is provided. Charges submitted by providers must be the usual and customary charges for nonworkers' compensation patients. The department may require insurers to submit information to be used in establishing the schedule.

(b) (i) The department may not set the rate for medical services at a rate greater than 10% above the average of the conversion factors used by up to the top five insurers or third-party administrators providing group health insurance coverage within this state who use the resource-based relative value scale to determine fees for covered services. To be included in the rate determination, the insurer or third-party administrator must occupy at least 1% of the market share for group health insurance policies as reported annually to the state auditor.

(ii) The insurers or third-party administrators included under subsection (2)(b)(i) shall provide their standard conversion rates to the department.

(iii) The department may use the conversion rates only for the purpose of determining average conversion rates under this subsection (2).

(iv) The department shall maintain the confidentiality of the conversion rates.

~~(c) From July 1, 2011, through June 30, 2013, the fee schedules established in subsection (2)(b) must be based on the following standards as adopted by the centers for medicare and medicaid services and as adopted by the department on December 31, 2010, regardless of where services are provided:~~

~~(i) the American medical association current procedural terminology codes;~~

~~(ii) the healthcare common procedure coding system;~~

~~(iii) the medicare severity diagnosis-related groups;~~

~~(iv) the ambulatory payment classifications;~~

~~(v) the ratio of costs to charges for each hospital;~~

~~(vi) the national correct coding initiative edits; and~~

~~(vii) the relative value units as adjusted annually using the most recently published resource- based relative value scale.~~

~~(d)~~*(c)* ~~On or after July 1, 2013, the~~ *The* fee schedule rates established in subsection (2)(b)*, when adopted,* must be based on the following standards as adopted by the centers for medicare and medicaid services, regardless of where services are provided:

(i) the American medical association current procedural terminology codes, as those codes exist on ~~March 31~~ *January 1* of each year;

(ii) the healthcare common procedure coding system, as those codes and their relative weights exist on ~~March 31~~ *January 1* of each year;

(iii) the medicare severity diagnosis-related groups, as those codes and their relative weights exist on ~~October 1~~ *January 1* of each year;

(iv) the ambulatory payment classifications, as those codes and their relative weights exist on ~~March 31~~ *January 1* of each year;

(v) the ratio of costs to charges for each hospital, as those codes exist on ~~October 1~~ *January 1* of each year;

(vi) the national correct coding initiative edits, as those codes exist on ~~March 31~~ *January 1* of each year; and

(vii) the relative value units in the published resource-based relative value scale, as those codes exist on ~~March 31~~ *January 1* of each year.

~~(e)~~*(d)* The department may establish additional codes and coding standards for use by providers when billing for medical services under this section.

~~(f) The rates in effect through June 30, 2013, may not be less than the rates for medical services in effect as of December 31, 2010.~~

(3) (a) The department shall establish by rule evidence-based utilization and treatment guidelines for primary and secondary medical services. There is a rebuttable presumption that the adopted utilization and treatment guidelines establish compensable medical treatment for an injured worker.

(b) An insurer is not responsible for treatment or services that do not fall within the utilization and treatment guidelines adopted by the department unless the provider obtains prior authorization from the insurer. If prior authorization is not requested or obtained from the insurer, an injured worker is not responsible for payment of the medical treatment or services.

(c) The department shall hire a medical director. The department may establish by rule an independent medical review process for treatment or services denied by an insurer pursuant to this subsection (3) prior to mediation under 39-71-2401.

(d) The department, in consultation with health care providers with relevant experience and education, shall provide for an annual review of the evidence-based utilization and treatment guidelines to consider amendments or changes to the guidelines.

(4) For services available in Montana, insurers may pay facilities located outside Montana according to the workers' compensation fee schedule of the state where the medical service is performed.

(5) (a) An insurer shall make payments at the fee schedule rate within 30 days of receipt of medical bills for which a claim has been accepted and for which no other disputes exist. Disputes must be defined by the department by rule.

(b) Any unpaid balance under this subsection (5) accrues interest at 12% a year or 1% a month or a fraction of a month. If the charge is not paid within 30 days, interest on the unpaid balance accrues from the date of receipt of the original billing.

(6) Once a determination has been made regarding the correct reimbursement amount, any overpayment made to a health care provider must be reimbursed to the insurer within 30 days of the determination. Any reimbursement amount remaining unpaid after 30 days accrues interest at 12% a year or 1% a month or a fraction of a month. Interest on the reimbursement amount remaining unpaid accrues from the date of receipt of the determination of the correct reimbursement amount.

(7) For a critical access hospital licensed pursuant to Title 50, chapter 5, the rate for services is the usual and customary charge.

(8) Payment pursuant to reimbursement agreements between managed care organizations or preferred provider organizations and insurers is not bound by the provisions of this section.

(9) After mediation pursuant to department rules, an unresolved dispute between an insurer and a health care provider regarding the amount of a fee for medical services may be brought before the workers' compensation court.

(10) (a) After the initial visit, the worker is responsible for $25 of the cost of each subsequent visit to a hospital emergency department for treatment relating to a compensable injury or occupational disease.

(b) "Visit", as used in this subsection (10), means each time that the worker obtains services relating to a compensable injury or occupational disease from:

(i) a treating physician;

(ii) a physical therapist;

(iii) a psychologist; or

(iv) hospital outpatient services available in a nonhospital setting.

(c) A worker is not responsible for the cost of a subsequent visit pursuant to subsection (10)(a) if the visit is for treatment requested by an insurer."

Section 3. Section 39-71-736, MCA, is amended to read:

"39-71-736. Compensation — from what dates paid. (1) (a) Except as provided in subsection (1)(c), compensation may not be paid for the first 32 hours or 4 days' loss of wages, whichever is less, that the worker is totally disabled and unable to work because of an injury. A worker is eligible for compensation starting with the 5th day.

(b) Separate benefits of medical and hospital services must be furnished from the date of injury.

(c) If the worker is totally disabled and unable to work in any capacity for 21 days or longer, compensation must be paid retroactively to the first day of total wage loss unless the worker waives the payment as provided in subsection (2)(b)(ii).

(2) (a) For the purpose of this section, except as provided in subsection (3), a worker is not considered to be entitled to compensation benefits if the worker is receiving sick leave benefits, except that each day for which the worker elects to receive sick leave counts 1 day toward the 4-day waiting period.

(b) A worker who is entitled to receive retroactive compensation benefits pursuant to subsection (1)(c) but who took sick leave as provided in subsection (2)(a) may elect to either:

(i) repay the employer the amount of salary for the sick leave received; or

(ii) waive the retroactive payment of benefits attributable to any days or hours for which the worker received sick leave.

(3) Augmentation of temporary total disability benefits with sick leave by an employer pursuant to a collective bargaining agreement may not disqualify a worker from receiving temporary total disability benefits.

(4) Receipt of vacation leave *or paid time off leave, other than sick leave,* by a worker may not affect the worker's eligibility for temporary total disability benefits."

Section 4. Section 39-71-915, MCA, is amended to read:

"39-71-915. Assessment of insurer — employers — definition — collection. (1) As used in this section, "paid losses" means the following benefits paid during the preceding calendar year for injuries covered by the Workers' Compensation Act without regard to the application of any deductible, regardless of whether the employer or the insurer pays the losses:

(a) total compensation benefits paid; and

(b) except for medical benefits in excess of $200,000 for each occurrence that are exempt from assessment, total medical benefits paid for medical treatment

rendered to an injured worker, including hospital treatment and prescription drugs.

(2) The fund must be maintained by assessing each plan No. 1 employer, each employer insured by a plan No. 2 insurer, plan No. 3, the state fund, with respect to claims arising before July 1, 1990, and each employer insured by plan No. 3, the state fund. The assessment amount is the total amount *from April 1 of the previous year through March 31 of the current year* paid by the fund ~~in the preceding fiscal year and~~ *plus* the expenses of administration less other realized income that is deposited in the fund. The total assessment amount to be collected must be allocated among plan No. 1 employers, plan No. 2 employers, plan No. 3, the state fund, and plan No. 3 employers, based on a proportionate share of paid losses for the calendar year preceding the year in which the assessment is collected. The board of investments shall invest the money of the fund, and the investment income must be deposited in the fund.

(3) On or before May 31 each year, the department shall notify each plan No. 1 employer, plan No. 2 insurer, and plan No. 3, the state fund, of the amount to be assessed for the ensuing fiscal year. The amount to be assessed against the state fund must separately identify the amount attributed to claims arising before July 1, 1990, and the amount attributable to state fund claims arising on or after July 1, 1990. On or before April 30 each year, the department, in consultation with the advisory organization designated under 33-16-1023, shall notify plan No. 2 insurers and plan No. 3 of the premium surcharge rate to be effective for policies written or renewed on and after July 1 in that year.

(4) The portion of the plan No. 1 assessment assessed against an individual plan No. 1 employer is a proportionate amount of total plan No. 1 paid losses during the preceding calendar year that is equal to the percentage that the total paid losses of the individual plan No. 1 employer bore to the total paid losses of all plan No. 1 employers during the preceding calendar year.

(5) The portion of the assessment attributable to state fund claims arising before July 1, 1990, is the proportionate amount that is equal to the percentage that total paid losses for those claims during the preceding calendar year bore to the total paid losses for all plans in the preceding calendar year. As required by 39-71-2352, the state fund may not pass along to insured employers the cost of the subsequent injury fund assessment that is attributable to claims arising before July 1, 1990.

(6) The remaining portion of the assessment must be paid by way of a surcharge on premiums paid by employers being insured by a plan No. 2 insurer or plan No. 3, the state fund, for policies written or renewed annually on or after July 1. The surcharge rate must be computed by dividing the remaining portion of the assessment by the total amount of premiums paid by employers insured under plan No. 2 or plan No. 3 in the previous calendar year. The numerator for the calculation must be adjusted as provided by subsection (9).

(7) Each plan No. 2 insurer providing workers' compensation insurance and plan No. 3, the state fund, shall collect from its policyholders the assessment premium surcharge provided for in subsection (6). When collected, the assessment premium surcharge may not constitute an element of loss for the purpose of establishing rates for workers' compensation insurance but, for the purpose of collection, must be treated as separate costs imposed upon insured employers. The total of this assessment premium surcharge must be stated as a separate cost on an insured employer's policy or on a separate document submitted by the insured employer and must be identified as "workers' compensation subsequent injury fund surcharge". Each assessment premium

surcharge must be shown as a percentage of the total workers' compensation policyholder premium. This assessment premium surcharge must be collected at the same time and in the same manner that the premium for the coverage is collected. The assessment premium surcharge must be excluded from the definition of premiums for all purposes, including computation of insurance producers' commissions or premium taxes, except that an insurer may cancel a workers' compensation policy for nonpayment of the assessment premium surcharge. Cancellation must be in accordance with the procedures applicable to the nonpayment of premium. If an employer fails to remit to an insurer the total amount due for the premium and assessment premium surcharge, the amount received by the insurer must be applied to the assessment premium surcharge first and the remaining amount applied to the premium due.

(8) (a) All assessments paid to the department must be deposited in the fund.

(b) Each plan No. 1 employer shall pay its assessment by July 1.

(c) Each plan No. 2 insurer and plan No. 3, the state fund, shall remit to the department all assessment premium surcharges collected during a calendar quarter by not later than 20 days following the end of the quarter.

(d) The state fund shall pay the portion of the assessment attributable to claims arising before July 1, 1990, by July 1.

(e) If a plan No. 1 employer, a plan No. 2 insurer, or plan No. 3, the state fund, fails to timely pay to the department the assessment or assessment premium surcharge under this section, the department may impose on the plan No. 1 employer, the plan No. 2 insurer, or plan No. 3, the state fund, an administrative fine of $100 plus interest on the delinquent amount at the annual interest rate of 12%. Administrative fines and interest must be deposited in the fund.

(9) The amount of the assessment premium surcharge actually collected pursuant to subsection (7) must be compared each year to the amount assessed and upon which the premium surcharge was calculated. The amount undercollected or overcollected in any given year must be used as an adjustment to the numerator provided for by subsection (6) for the following year's assessment premium surcharge.

(10) If the total assessment is less than $1 million for any year, the department may defer the assessment amount for that year and add that amount to the assessment amount for the subsequent year."

(b) the benefit cost for all past years of governmental entities electing to pay contributions compared with total payrolls reported for all past years by these governmental entities used as a median, with the rates fixed using the median so that the rates will, when applied to the total annual payroll for subject governmental entities, yield total paid contributions equaling approximately the total benefit costs.

(2) New governmental entities electing to pay contributions must be assigned the median rate for the year in which they become subject.

(3) The minimum rate may not be less than 0.06% and the maximum rate may not be greater than 1.5%. The rates are to be graduated at one-tenth intervals.

(5) The computed rate is effective July 1 of each year.

(6) Governmental entities must be charged for their share of the total benefits paid to a claimant if the governmental entity contributed wages during the claimant's base period. The benefit charged must be based on the percentage of wages paid by the governmental entity as compared to the total wages paid by all employers in the claimant's base period.

(7) Subject to the provisions of 39-51-605, the department may relieve benefit charges paid by a governmental employer with respect to benefits paid to an individual if the governmental employer continues to provide employment to the individual without a reduction in hours or wages."

Section 8. Section 39-51-1219, MCA, is amended to read:

"39-51-1219. Procedures for substitution, merger, transfer, or acquisition of employer account by successor employing unit — prohibitions and penalties — definitions. (1) (a) If an employer in any manner succeeds to or acquires all or a portion of the trade or business of another employer or transfers all or a portion of the employer's trade or business to another employer and both employers are under substantially common

ownership, management, or control at the time of the succession, acquisition, or transfer, the experience rating record attributable to the predecessor employer must be transferred to and combined with the experience rating record of the successor employer.

(b) In the case of a partial transfer of a trade or business, the portion of the experience rating record transferred from the predecessor employer to the successor employer must be based on the portion of the trade or business transferred. The portion must be determined in the same ratio as the payroll transferred to the successor employer in the 4 reported calendar quarters immediately preceding the date of the transfer.

(c) Whenever a transfer involves only a portion of the experience rating record and the predecessor employer or successor employer fails to supply the required payroll information to the department within 10 days after notification, the transfer must be based on estimates of the applicable payrolls.

(d) ~~Any~~ *A* successor employer who was not an employer on the date of acquisition becomes a covered employer as of that date.

(e) A successor employer must be notified by the department in writing of the transfer of the experience rating record, and unless the successor employer appeals the transfer within 30 days of the date on which the notice was ~~mailed~~ *sent*, the successor employer's right to appeal the transfer is waived.

(2) (a) If an employer transfers, succeeds to, or acquires all or a portion of the trade or business of a covered employer and the employers are not under substantially common ownership, management, or control, the predecessor employer and the successor employer have the option to transfer the applicable portion of the experience rating record from the predecessor employer to the successor employer if that portion of the trade or business is continued by the successor employer.

(b) In order to make the transfer, a joint application for the transfer of the experience rating record must be made by the predecessor employer and the successor employer within 90 days of the acquisition and approval by the department.

(c) In the case of a complete transfer of the trade or business, all of the experience rating record of the predecessor employer is transferred to the successor employer.

(d) In the case of a partial transfer of the trade or business, the portion of the experience rating record transferred from the predecessor employer to the successor employer must be based on the portion of the trade or business transferred. This portion must be determined in the same ratio as the payroll transferred to the successor employer in the 4 reported calendar quarters immediately preceding the date of transfer.

(e) A successor employer who was not an employer on the date of acquisition becomes a covered employer as of that date.

(f) The 90-day period for filing the joint application may be extended at the discretion of the department.

(3) (a) If the successor employer was a covered employer prior to the date of the acquisition of all or a portion of the predecessor employer's trade or business and if:

(i) the employers are not under substantially common ownership, management, or control at the time of acquisition, the successor employer's rate of contribution, effective the first day of the calendar year immediately following

the date of acquisition, is based on the combined experience of the predecessor employer and successor employer; or

(ii) the employers were under substantially common ownership, management, or control at the time of acquisition, the successor employer's experience rate must be combined with the predecessor employer's experience rate and must be recalculated and become effective at the beginning of the calendar quarter in which the acquisition occurred.

(b) If the successor employer was not a covered employer prior to the date of the acquisition of all or a portion of the predecessor employer's trade or business and the employers are not under substantially common ownership, management, or control, upon joint application by the employers, the successor employer's rate is the rate assigned to the predecessor employer as of the date of acquisition. If there was more than one predecessor employer, the successor employer's rate must be computed based on the combined experience of the predecessor employers and becomes effective immediately after the date of acquisition and remains in effect for the balance of the rate year.

(4) The transfer of all or part of an employer's workforce to another employer must be considered a transfer of a trade or business if, as a result of the workforce transfer, the transferring employer is not any longer performing the trade or business with respect to the transferred workforce and the trade or business is performed by the employer to which the workforce is transferred.

(5) (a) The experience rating record of a predecessor trade or business may not be transferred to a person acquiring the trade or business if:

(i) the person is not otherwise an employer at the time of the acquisition; and

(ii) the department finds that the person acquired the trade or business solely or primarily for the purpose of obtaining a lower rate of contributions.

(b) A person subject to the provisions of subsection (5)(a) must be assigned the applicable new employer rate pursuant to 39-51-1217.

(6) Factors that the department may consider in determining if a person acquired a trade or business solely or primarily for the purpose of obtaining a lower rate of contributions include but are not limited to:

(a) the cost of acquisition;

(b) whether the person continued the trade or business operation;

(c) the length of time that the trade or business operation was continued after acquisition; and

(d) whether a substantial number of new employees were to perform duties unrelated to the trade or business operations conducted prior to the acquisition.

(7) A person who knowingly violates, attempts to violate, or provides advice on violating the provisions of this section is subject to the following penalties:

(a) If the person is an employer, the employer shall be assessed a penalty equal to 6% of the employer's average annual taxable wages used in computing the employer's most recent year's experience rating record. The penalty must be deposited in the penalty and interest account established in 39-51-1301(4).

(b) If the person is not an employer, the person is subject to a civil penalty of not more than $5,000. The penalty must be deposited in the penalty and interest account established in 39-51-1301(4).

(c) In addition to the penalties provided for in subsections (7)(a) and (7)(b), a person who violates a provision of this section:

(i) is subject to any other penalties prescribed by this chapter;

(ii) may be subject to a criminal penalty pursuant to 39-51-3204; and

(iii) may be charged with any other applicable criminal violations provided by law.

(8) For the purposes of this section, the following definitions apply:

(a) "Knowingly" means having actual knowledge of, acting with deliberate ignorance of, or reckless disregard for the prohibitions established in this section.

(b) "Person" includes an individual, trust, estate, partnership, association, company, or corporation.

(c) "Trade or business" includes an employer's workforce.

(9) The department shall establish procedures to identify the transfer or acquisition of a trade or business for the purposes of this section.

(10) This section must be interpreted and applied in a manner that meets the minimum requirements contained in any guidance or regulations issued by the United States department of labor."

Section 9. Section 39-51-2402, MCA, is amended to read:

"39-51-2402. Determination — redetermination. (1) The department shall promptly examine a claim for benefits, and on the basis of the department's findings of fact, the department shall determine whether or not the claim is valid. If the claim is valid, the department shall determine the week the benefits commence, the weekly benefit amount payable, and the maximum benefit amount. The department may refer the claim or any question involved in the claim to an appeals referee who shall make the decision on the claim in accordance with the procedure prescribed in 39-51-2403. The department shall promptly notify the claimant and any other interested party of its determination and the reasons for reaching the determination.

(2) The department may for good cause reconsider its determination and shall promptly notify the claimant and other interested parties of the redetermination and the reasons for the redetermination.

(3) A determination or redetermination is final unless an interested party ~~entitled to notice of the decision~~ applies for reconsideration of the determination or appeals ~~the decision~~ within 10 days after the ~~notification was mailed~~ *determination or redetermination was sent* to the interested party's ~~last-known~~ address *of record*. The 10-day period may be extended for good cause.

(4) Except as provided in subsection (5), a redetermination of any issue of an original determination may not be made after 2 years from the date of the original determination of that issue.

(5) A redetermination of any issue of an original determination may be made within 3 years from the date of the original determination of that issue if the original determination was based on a false claim, misrepresentation, or failure to disclose a material fact by the claimant or the employer."

Section 10. Section 39-51-2403, MCA, is amended to read:

"39-51-2403. Hearing — decision of appeals referee. Upon appeal of a determination or redetermination under 39-51-2402, an appeals referee shall hold a hearing, which may be conducted by telephone or by videoconference. After the hearing, the appeals referee shall promptly make findings and conclusions and affirm, modify, or reverse the department's determination or redetermination. Each interested party must be promptly furnished a copy of the decision and the supporting findings and conclusions. This decision is final unless further review is initiated pursuant to 39-51-2404 within 10 days after ~~notification was mailed~~ *the decision was sent* to the interested party's

~~last-known~~ address *of record*. The 10-day period may be extended for good cause."

Section 11. Section 39-51-2404, MCA, is amended to read:

"39-51-2404. Appeal to board procedure. An interested party who is dissatisfied with a decision of an appeals referee may appeal to the board. The department shall promptly transmit all records pertinent to the appeal to the board. The appeal hearing may be conducted by telephone or by videoconference. When a decision is rendered by the board and copies of the decision are mailed to all interested parties, including the department, that decision is final unless an interested party requests a rehearing or initiates judicial review by filing a petition in district court within 30 days of the date of ~~mailing of~~ *sending* the board's decision to the party's ~~last-known~~ address *of record*."
